

Griffith College Prospectus 2019

DUBLIN • CORK • LIMERICK

Introduction from the President Professor Diarmuid Hegarty

I am delighted to introduce you to Griffith College. In choosing Griffith College, you are joining a community of over 7,000 students at our campuses in Dublin, Cork and Limerick, and an alumni network of more than 35,000 graduates who over the past four decades have gone on to achieve notable careers both nationally and internationally.

Ó bunaíodh an Coláiste, bhí an tacaíocht bhfoireann teagaisc do na mic léinn le sonrú I gcónaí.

Pé athraithe a chuirfear i bhfeidhm sna blianta romhainn, beidh an culture fáilteach céanna i réim chun na mic léinn a spreagadh chun barr feabhais a bhaint amach.

As the global economy continues to improve, the employment and career prospects of third level students look increasingly positive. At Griffith College, we are committed to ensuring our courses reflect the needs of employers and our lecturers are noted for their industry experience. With small class sizes and mentoring provided by the College's academic and pastoral care teams, this focus will give you the skills required for success in your chosen field of study.

Educational institutions must provide a rounded learning experience, both within and outside the lecture hall. At Griffith College, we take pride in the range of societies, clubs and events that run year round, providing our Irish and international students with opportunities to develop broader life-skills and a network that will stand to them throughout their lives. It is this commitment to a well-rounded education that has stood our students and graduates in such good stead over the past 44 years.

I look forward to welcoming you on campus.

A handwritten signature in black ink that reads "Diarmuid Hegarty".

Prof Diarmuid Hegarty
President

Griffith College Dublin

Established in 1974, Griffith College is Ireland's largest independent third-level institution.

Griffith's Dublin campus offers full, part-time and blended learning courses at undergraduate and postgraduate level, as well as professional and short courses.

The campus, based on South Circular Road in thriving Dublin 8, is very handily located for all students. It's a 20-minute walk into St Stephen's Green and ten minutes away from Camden Street and Wexford Street.

The buildings have a rich history dating back over 200 years. This historical backdrop sits alongside cutting-edge technology for the College's learners. That blend of old and new, Irish students and international, undergraduate and postgraduate learners gives our Dublin campus an energy that is unmatched.

At Griffith College, we pride ourselves on providing a supportive and mentoring environment that allows our students to achieve their best potential. Our lecturers consistently go the extra mile for our students. That's the Griffith way.

Griffith College Cork

Griffith College was first established in Cork in 1998 with the School of Professional Accountancy.

In June 2005, Griffith College Cork merged with Skerry's College. Skerry's College had been at the forefront of education in Cork since 1884.

Griffith College Cork runs a variety of both full-time and part-time, undergraduate, postgraduate and Masters programmes in Law, Business, Journalism, Computing Science and Pharmaceutical Business Management as well as professional programmes in Law and Accountancy.

Griffith College Cork is strongly committed to the creation of a positive learning environment. This relaxed and productive atmosphere is achieved by developing a strong pastoral care ethos, evidenced by the open-door policy of lecturers, the operation of all lectures on a first-name basis, the provision of both written and oral feedback on formal and informal assignments, and the close, friendly working relationship between students and staff, all of which are based on a spirit of trust and collaboration.

Griffith College Limerick

In September 2006 Griffith College Dublin merged with the Mid West Business Institute to form Griffith College Limerick.

From 1988 to 2006 the Mid West Business Institute played a leading role in the provision of third-level education in Limerick and the Midwest region.

The Limerick campus provides a wide range of full-time and part-time courses from its facility in Limerick City Centre. Internationally recognised qualifications are available in Accountancy, Business, Computing, Engineering and Hospitality. Courses range from Level 5 to Level 9 on the Irish National Framework of Qualifications.

Our Validating Partners

Griffith College works in partnership with a number of validating bodies in Ireland and the UK. This ensures that all programmes are recognised nationally and internationally.

QQI

Quality and Qualifications Ireland (QQI) was established on 6 November 2012 under the Qualifications and Quality Assurance (Education and Training) Act 2012. The Authority was created by an amalgamation of existing bodies including the Higher Education and Training Awards Council (HETAC), the Further Education and Training Awards Council (FETAC), the Irish Universities Quality Board (IUQB) and the National Qualifications Authority of Ireland (NQA).

The international status and value of a QQI qualification is assured as the demand for graduates continues to grow at home and abroad. Griffith College undergraduate programmes are validated by QQI and as such are subject to QQI quality assurance checks on a regular basis. This ensures our programmes are up to date by industry and educational standards.

BTEC

BTEC is recognised internationally as providing learners with the key concepts and practical skills for direct progression to employment and further studies. BTECs are all about learning by doing and that means BTEC students put what they learn into practice straight away. Throughout the course, they work on a series of assignments set in real-life scenarios, developing the practical knowledge and skills employers are looking for.

Edinburgh Business School

Edinburgh Business School are the Graduate School of Business of Heriot-Watt University, a leading British University accredited by Royal Charter. Edinburgh Business School have been helping working professionals become business leaders for over 25 years, offering high-quality and accessible postgraduate programmes in business.

Institute of Commercial Management

As a leading professional body for commercial and business development staff, ICM provides a wide range of professional qualifications in business, management, and related vocational areas.

Our Students

Jonas Baumgart and Sarah Bouabdeli lead TEDxGriffithCollege with the theme "Beyond Your Fear"

Karen Byrne, winner of the Next Generation Student Short Documentary Competition at Guth Gafa Film Festival with her final year film, Journey

Julie-Anne Smyth with her final year work, which was chosen for Source's BA Graduate Photography Online 2017

Griffith College basketball team, winners of the 2017 Intersivity Championship

Griffith College Law students off to Philadelphia for the Brehon Law Internship

Lisa Cosgrove, 1st in the World ACCA P7

Entry Requirements

These pages highlight key information points about academic requirements set by our validating partners for both undergraduate and postgraduate programmes.

Postgraduate Programmes

Please review the entry requirements for each postgraduate programme on their relevant course web pages. Please visit www.griffith.ie/find-a-course.

Language Requirements

All undergraduate degree programmes require a pass in either English, Irish or a modern language.

ENTRY REQUIREMENTS	OLD LEAVING CERTIFICATE (PRE 2017)	NEW LEAVING CERTIFICATE COMMON POINTS SCALE	A LEVEL /GCSE	FETAC
Level 8 Honours Degree	Min. 2 HC3's & 4OD3s (some programmes will require OD3 in Maths.)	Min. 2 H5s and 4 O6/H7s (some programmes will require O6 in Maths.)	Min. of 2 Grade C A levels & 4 subjects from either A levels (Grades A-E) or GCSE (Grades A, B or C)	Level 5 Full Award with 3 distinctions
Level 7 Degree	Min. 5 OD3s (some programmes will require OD3 in Maths).	Min. 5O6/H7s (some programmes will require O6 in Maths.)	Min. of 1 Grade E A Level & 4 subjects from either A levels (Grades A-E) or GCSE (Grades A, B or C).	Level 5 Full Award
Level 6 Higher Certificate	Min. 5 OD3s (some programmes will require OD3 in Maths).	Min. 5O6/H7s (some programmes will require O6 in Maths.)		Level 5 Full Award

Application Process

The following pages detail how to apply for courses offered at Griffith College Dublin. They provide guidelines for CAO and Direct Entry applicants.

New 2017 Common Points Scale

In 2017, the Irish universities, Institutes of Technology and all other colleges which accept applications through the CAO introduced a revised Common Points Scale.

Direct Entry Courses

Griffith College Dublin also offers a large number of courses in each faculty that may not appear on the CAO system. Applications to these courses can be made directly to the GCD Admissions Office or via our website: www.griffith.ie/apply.

REPUBLIC OF IRELAND: APPLICANTS

Leaving Certificate		
Points	Higher	Ordinary
H1/01	100	56
H2/02	88	46
H3/03	77	37
H4/04	66	28
H5/05	56	20
H6/06	46	12
H7/07	37	0
H8/08	0	0

LCVP Link Modules

Distinction = 66 , Merit = 46, Pass = 28

- 25 bonus points will be added to the points score for Leaving Certificate Higher Level mathematics, at grades H6 or above.

CAO Applications

Students under the age of 23, on January 1st of the year of entry, who wish to apply to the first year of any QQI validated undergraduate full-time programme, must make that application through the CAO system. The closing date for applications for EU citizens is February 1st, with late applications being accepted until May 1st. Up to July 1st, students may also fill out a CAO 'Change of Mind' form. Application forms and copies of the current handbook are available from the GCD Admissions Office or from the CAO directly. More detailed information regarding CAO deadlines and the CAO application process can be obtained by visiting www.cao.ie.

Selection of CAO Applicants

Selection is made on the basis of the total points awarded in a student's top six subjects, in a single sitting of the Leaving Certificate. The results of two sittings of the Leaving Certificate may be combined for the purposes of meeting the programme requirements for minimum entry. Please note that not all students presenting the minimum entry requirements will be guaranteed a place at the College. Please consult individual course descriptions in this prospectus for the most recent CAO points.

UK AND NORTHERN IRELAND: APPLICANTS

A-Level	A/S Level
A* 180	
A 150	A 60
B 130	B 55
C 100	C 40
D 65	D 25
E 45	E 20

- 25 bonus points will be added to the points score for A Level mathematics, pure mathematics and further mathematics.

Leaving Certificate Vocational Programme (LCVP)

Holders of the Leaving Certificate Vocational Programme apply in the normal way through the CAO system. Points are awarded on the same basis as the Leaving Certificate. The Link Modules are considered as a single unit and are awarded points based on the result per unit. The Link Modules can be used as a sixth subject for points calculations only.

Leaving Certificate Applied Programme (LCAP)

The College does not recognise LCA subjects as meeting its minimum entry requirements. If combined with a Grade 5 FETAC Award, applicants may apply for a higher certificate or degree course in the College.

FETAC/NCVA links to academic programmes at Griffith College

Griffith College welcomes applications from students who hold a full FETAC Level 5 Award which normally contains eight modules. A full award may be accumulated over more than one academic year. In such cases, it is the responsibility of the student to apply to FETAC for a full award where the modules are taken over more than one year. Please note that a record of achievement does not meet the minimum entry requirements.

- To be eligible for consideration for an Honours Degree programme, the applicant must hold a FETAC Level 5 certificate with a distinction grade in at least three modules.
- To be eligible for consideration for an Ordinary Degree or Higher Certificate programme, students are required to hold a FETAC Level 5 Award.

FETAC Application Process

Applications must be made through the CAO for those courses offered through the CAO. For direct entry programmes, applicants must send a completed direct entry application form to the College. For more information on this access route please contact the Admissions Office on +353 1 415 0400 or email admissions@griffith.ie.

Direct Entry Courses (including full-time, part-time and postgraduate)

Applicants for all Griffith College direct entry courses are required to meet the minimum entry requirements as indicated in the individual course descriptions in this prospectus. Mature applicants for any full or part-time undergraduate programme are required to supply photographic identification and evidence of date of birth. Applications for all direct entry programmes (undergraduate, postgraduate, part-time/evening time) must be made on the website www.griffith.ie/apply and relevant* supporting documentation can be emailed to admissions@griffith.ie or posted to: The Admissions Office, Griffith College Dublin, South Circular Road, Dublin 8.

- * All applications for direct entry to undergraduate programmes should include a copy of official Leaving Certificate results with the exception of mature applicants (who must supply evidence of date of birth). All applicants for postgraduate programmes should include an official copy of third level qualifications.

Accreditation of Prior Learning and prior experience (APL/APEL)

Griffith College welcomes applications from those with prior academic and/or professional learning experience relevant to the programme of their choice. Please contact the Admissions Office for more information on the policies regarding the accreditation of prior learning and experience (APL/APEL).

Transfer Applications

The College welcomes applications from students holding qualifications from other accredited institutions and universities. Depending on the nature and duration of their studies, such students may be eligible to join the second or third year of the College's QQI Ordinary and Honours Degree programmes.

Mature Applications for Undergraduate Courses

Griffith College Dublin welcomes applications from mature applicants. Applicants interested in applying for a programme as a mature student should contact the Admissions Office for more details and applicants should apply directly online at www.griffith.ie/apply.

Other points to consider when applying

Transfer to Year 2 of an Honours degree programme

- Students holding a relevant QQI Higher Certificate (NFQ Level 6) may qualify for exemption from all or part of the first year of a relevant Honours Degree programme.
- Students holding a relevant Higher National Diploma (HND) may qualify for exemption from all or part of the first year of a relevant Honours Degree programme.

Transfer to Year 3 of an Ordinary degree programme

- Students holding a relevant QQI Higher Certificate (NFQ Level 6) may qualify for exemption from all or part of the second year of a relevant Honours Degree programme.
- Students holding a relevant Higher National Diploma (HND) may qualify for exemption from all or part of the second year of a relevant Ordinary Degree programme.

Transfer to Year 3 of an Honours degree programme

- Students holding a relevant QQI Ordinary Degree (NFQ Level 7) may qualify for exemption from all or part of the second year of a relevant Honours Degree programme. Students who wish to transfer to Griffith College should complete an application form online www.griffith.ie/apply, and email a photocopy of their existing subject results and a full programme syllabus to admissions@griffith.ie.

The Admissions Office will have a decision regarding transfer applications within ten working days or by the closing date of August 31st.

Griffith College Scholarship Scheme

Established in 2001, the Griffith College Scholarship Scheme is designed for students who wish to enter a programme of study at the College but are unable to do so due to financial constraints or social circumstances. The scheme is open to students interested in applying for our full-time undergraduate programmes and who are presently attending an approved second level institution. It is envisaged that students who would not otherwise have access to the programme of their choice at Griffith College Dublin could do so under this initiative. Application forms and details can be obtained from your school or from the Admissions Office at Griffith College Dublin. The closing date for applications is April 30th each year and a decision will be made by May 31st regarding successful applications. In 2008, the scholarship scheme was extended to include one scholarship for a FETAC student.

Students with Disabilities and Special Needs

Applicants with disabilities and special needs wishing to pursue an academic programme at the College, are recommended to contact the College in writing with details of the nature and extent of your disability. This will allow us to give you the best advice prior to application. Applicants will be given ample opportunity to advise the College of any specific requirements and can be assured that this disclosure will not adversely affect their application or legal rights in any way.

Tax Relief

Most programmes of two or more years' duration have been approved for tax relief. Applicants should note that the qualifying conditions for relief may differ for full and part-time students. Relief is granted at the standard rate of tax and details can be found at www.revenue.ie.

School Liaison Officer

Every year Griffith College receives hundreds of enquiries from teachers, guidance counsellors, school students and their parents in relation to the wide selection of courses we offer.

Due to this demand, our School Liaison Officers, will be happy to answer any queries and also advise on admission procedures, CAO information, the numerous school competitions and other school initiatives that we run throughout the year.

Just some of these initiatives are listed below:

- School Visits/Presentations
- IGC accredited, free Guidance Counsellor Training Workshops (CPD hours)
- CAO presentation, tips and advice
- Griffith College Scholarship Scheme and Grants
- Schools Week 2019
- Free Leaving Certificate Revision Courses (Accounting, Business, Maths & Music)
- Film/TV/Photography Workshops
- School Business Enterprise Competition
- School Legal Debating Competition

International Student Information

Griffith College provides career-focused education, producing graduates who are highly employable worldwide and who excel in their chosen careers.

Living in Ireland

Ireland is an exciting place to live and study. Our blend of tradition and contemporary living is unique. We are proud and protective of our ancient culture, yet we have embraced our role as a centre for the digital revolution and international trade. Over 4.5 million people enjoy our mild, oceanic climate and a landscape that stretches across lakes and mountains, and more than 2,000 miles of coastline which attracts over 10 million tourists to our shores yearly. In recent years, Ireland has become a global centre for the banking, telecommunications, pharmaceutical and software industries. With an impressively high quality of life and a well-educated workforce, many international companies have set up their European headquarters in the country. Ireland has had one of the highest economic growth rates in the EU and much of this success can be attributed to our education system. Our long and impressive academic tradition has been established over many years and, today, the country offers one of the highest standards of education in the world.

The City of Dublin

Dublin continues to be one of Europe's most vibrant and exciting capitals. It is a university city and home to many renowned centres of learning. A large percentage of the city's population is under 35 and with many cafes, restaurants, cinemas, music venues, pubs and clubs to choose from, there are few better cities in which to enjoy your time as a student. The city's mix of cultural and economic success, along with the strength of its literary and musical tradition, makes Dublin an ideal location for study. At Griffith College Dublin you'll be right at the heart of it, just a few minutes away from the city centre itself.

Studying in Griffith College: GCD International Office

The International Office is committed to ensuring international students into the College. The experienced excellent support services for the integration of international staff are available to assist students with any academic or welfare issues they may have.

Applying for a Study Visa

If you need a visa to study in Ireland you must apply to your local Irish Embassy/Consulate. Please contact the International Office if there is no Irish Embassy/Consulate in your country of residence. The Griffith College Visa Officer can provide guidance on your visa application.

For further information please visit the GC website: www.griffith.ie/international or contact the International Office by email at international@griffith.ie

Application Guidelines

To make an application to the College you can apply online at www.griffith.ie/apply-online.

Please ensure that you include the following with your application:

- Copies of second level/high school certificates (including all grades achieved in examinations and/or transcripts of grades achieved).
- Copies of university/third level award certificates (where applicable). Provisional certificates must be provided if the award has not yet been issued.
- A transcript of results for all subjects taken at third level must be provided.
- TOEFL/IELTS score sheet or other internationally recognised English language test score if applicable.
- Proof that education was conducted in English if applicable (letter from school/college required).
- Copy of relevant pages of passport.
- One recent photograph.
- CV/Résumé detailing your academic/work history year-by-year with no gaps.
- Statement of Purpose/Student Profile indicating the reasons for your choice of course and why you want to study in Ireland and at Griffith College.
- Two reference letters at least one of which should be academic i.e. from a professor, lecturer or teacher.

English language entry requirements

Students from countries where English is not the native language must demonstrate that their language level is of a suitable standard. GC can appraise a student's English language level as follows:

- TOEFL/IELTS/TOEIC (or other): If a student has achieved a sufficient score in one of these internationally recognised English language tests they may progress to their chosen programme. (Please see table below indicating scores required for GC programmes). Test results older than 2 years will not be accepted.
- English Language Test: students who are not in possession of an internationally recognised English language test or who have not achieved the required score will be required to complete an English Language Test before a final offer can be given.

There is an Irish Government Department of Justice and Equality requirement for students from certain non-EU countries to have a certain IELTS (or equivalent) score, depending on the course they are applying for, in order for them to be considered for a Study Visa for Ireland. Please contact us for further details.

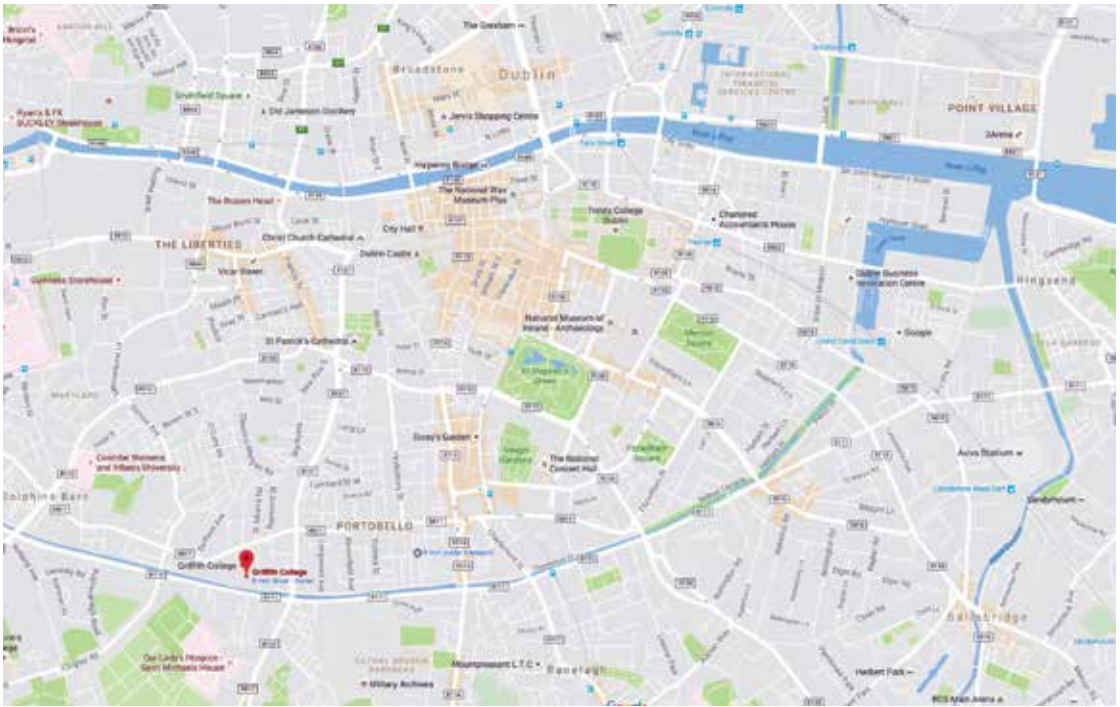

All entry requirements are intended for use as guidelines only. Applicant acceptance is at the discretion of the relevant Griffith College Programme Director. Entry requirements may vary from country to country

Accommodation

Accommodation is available on campus in the Griffith Halls of Residence. This is a safe and secure environment on the grounds of our historic Dublin campus. Further information about the Griffith Halls of Residence and the application procedure is available on page 22 or on the accommodation website: www.ghr.ie

Griffith College English Language Entry Requirements

PROGRAMMES	MINIMUM CEF LEVEL/ IELTS LEVEL
Undergraduate Programmes in Journalism	CEF B2 (High) / IELTS 6.5
Undergraduate Programmes in Law	CEF B2 (High) / IELTS 6.5
All other Undergraduate Programmes	CEF B2 (Mid) / IELT 6.0
Postgraduate Programmes in Journalism	CEF C1 (Mid) / IELTS 7.0
All other Postgraduate Programmes	CEF B2 (High) / IELTS 6.5

Source: Google Maps

You can view the listing of approved courses on the Irish Naturalisation and Immigration Service's website www.inis.gov.ie. Additional information is available from our International Office on request. It is essential that any part-time work undertaken by students does not interfere with their studies and that their academic performance is not affected by their part-time employment.

Working in Ireland - Non-EU Students

Griffith College's non-EU students are entitled to work 20 hours per week during term time and 40 hours per week during specified holiday periods. The Irish Department of Justice and Equality has compiled a register of approved third-level courses and students who are registered on these courses are permitted access to part-time employment.

Study Abroad and Erasmus

Our students have access to a global network of partner institutions across Europe, Australia and the USA. We encourage all students to take advantage of this excellent opportunity to introduce themselves to different cultures, languages and experiences.

Immerse yourself in a new environment to grow both personally and academically with support available every step of the way. Griffith College prides itself on its international student community of over 77 nationalities and 140 third level partnerships worldwide. As our international students will testify, there is nothing better than experiencing different countries and cultures firsthand. In an increasingly global employment market, studying abroad can also enhance your future employment prospects, as you will learn about cultural and professional differences in other economies.

Erasmus+ Funding

Griffith College Dublin is an active participant in the EU Erasmus + mobility programme. Agreements are in place with European institutions in France, Germany and Austria and the College is continuing to develop additional linkages.

For further details please contact the International Office at international@griffith.ie

"I got the chance to live and study in Berlin for six months. It was a perfect experience for me. The German college – Macromedia – was great and I've made friends for life and I'm even planning on moving to Berlin when I graduate from Griffith College."

Bruno Monnerat
BA (Hons) in
Business Studies

English Language Courses

Griffith Institute of Language offers English language learning programmes within a safe and stimulating college environment. We offer English language programmes in Dublin, Cork and Limerick.

We have a wide variety of programmes, including General English, Business English, English for Academic Purposes and Exam Preparation. Apply today and prepare to experience language learning in an exciting and immersive environment.

Griffith Institute of Language is recognised by ACELS, a service of Quality and Qualifications Ireland, for English language teaching (ELT). Griffith Institute of Language is a member of Marketing English in Ireland.

For our full selection of programmes please see the Griffith Institute of Language Brochure or visit www.griffith.ie/gil.

For learners who are looking to enrol on Griffith College degree programmes but do not meet the language requirements Griffith Institute of Language offers an EAP programme that includes extensive cultural and academic orientation. These include extensive cultural and academic orientation as well as core language skill development.

Learners with a higher level of English can develop their language skills in specific areas related to their continued study or professional development by choosing academic modules carefully selected from Griffith College's undergraduate and postgraduate programmes. They can then support these choices with 15 hours of English in our language institute.

Modules include but are not limited to:

- Introduction to Photography (Journalism Faculty)
- Understanding Society (Journalism Faculty)
- Event Management (Business Faculty)
- E-Business (Business Faculty)

Participation in academic modules is subject to availability and dependent on the language level of the students.

Griffith Halls of Residence

Griffith Halls of Residence (GHR) is a collection of student apartments located on landscaped College grounds overlooking the canal and the Dublin mountains.

GHR is open to any student from any third level institution. Just 20 minutes walk from St. Stephen's Green in Dublin's city centre, GHR's enviable central location is ideal for students studying at any of Dublin's third level institutions. Griffith Halls of Residence have been sensitively designed to complement and reflect the historical significance of the campus as a whole, while offering comfortable, modern living with 24-hour security for Residents. The Halls of Residence are built in two blocks which consist of 165 apartments and provide accommodation for over 660 students during the academic year and over the summer months.

The majority of apartments typically contain two twin rooms and a shared living space. There are also a number of single rooms available in shared apartments.

- Each student is provided with a single bed, bedside locker, wardrobe, study desk, chair and waste paper bin. The rooms are fully carpeted.
- Each two-bedroom apartment typically has two bathrooms, one of which is en-suite.
- The living area has two couches, a coffee table, dining table and chairs.
- The kitchen is equipped with a hob, oven, toaster, microwave, fridge, iron and ironing board, cleaning equipment, cooking pots, storage cupboards and an electric kettle.
- Each apartment has an average floor area of 58 square metres, is tastefully decorated and has controllable heating.

- Lighting, heating, refuse, cleaning of communal areas and water rates are charged at a flat utility rate (on which a fair usage policy applies).
- Residents have access to FREE uncontended WiFi Internet throughout the complex. The cost of Internet access is included in the utility charge.
- Students are advised to bring bed linen, crockery and cutlery. However, they can be rented for a small additional charge.
- On-site accommodation team
- 24-hour security personnel on-site and CCTV system
- On-site maintenance team
- On-campus restaurant/bar
- Four elevators per block
- On-site laundry facilities (coin operated, additional charges apply)
- Apartment specific post-boxes
- Access to free fitness room (limited spaces available)
- Access to the building is controlled by unique security key fobs personalised for each student
- Underground bicycle park
- Over 170 underground car parking spaces

Apartments are available throughout the academic year which runs from September to June (limited semester only terms are available). Either the full accommodation fee or 55% of the total fee for the relevant period should be paid in advance to secure the booking.

Students are required to initially pay an Application Fee (by either Bank Transfer or Draft/Cheque/Postal Order/Debit Card). Students also have to sign a Lease Agreement for the period requested. In addition, certain rules and regulations will apply.

For further information, our Virtual Tour, and details on rates etc, please visit our website: www.ghr.ie or phone +353 1 416 3320 or email live@ghr.ie

Student Life at Griffith College

As part of a full student experience at Griffith College, there is a large choice of clubs and societies to join. Check out the Students' Union for more information.

Clubs and Societies

The range of active clubs and societies on campus continues to grow on an annual basis. In addition to the traditional sporting clubs, the Students' Union currently assists and funds a wide range of other societies including Beer Pong, Poker, L.G.B.T.Q.A. and Pool. Students are encouraged to approach the Sports and Societies' Officer with any ideas for new clubs and societies. Schedules for all societies and clubs are available from the Students' Union office and are posted on College notice boards.

The Clubs and Societies Officer is available to provide information and to offer guidance and advice. A comprehensive range of sports is offered to suit the needs and interests of the student body. GCD's range of sports clubs and societies is constantly expanding.

In many cases, the societies are organised by students, thus providing an opportunity to develop organisational, fundraising and social skills. Students are encouraged to start new societies to cater for other interests. There are many sports clubs including basketball, rugby, soccer (men and women's) and table tennis. Sporting facilities are provided in several off-campus locations. In the Students' Union building, students may enjoy the use of a games room, including pool tables, table tennis, PlayStation, Xbox and much more. Students may learn about and join the various clubs and societies during Freshers' Week, which is held during the first week of term. The College offers basketball scholarships for suitably qualified and experienced students. For more information please contact basketball@griffith.ie.

The Students' Union currently assists and funds the following societies and clubs:

- Soccer
- Rugby
- Music
- Griffiti Magazine
- Basketball
- Table- Tennis
- Social Cub
- Fitness Club
- Poker
- Cricket
- L.G.B.T.Q.A.
- Volleyball
- Pool
- Badminton
- Beer Pong

Entertainment and Events

GCD's Students' Union organises a wide range of student events throughout the academic year providing affordable, quality entertainment in a safe and student-friendly atmosphere. The Students' Union regularly attracts promotional sponsorship, and all events are advertised well in advance. Events include Freshers' Week, Charity events, and the seasonal Halloween, Christmas, Welfare and Refresher events. The highlight is the annual Griffith Ball where students get the chance to party in style and celebrate the end of the academic year.

The SU hosts three discovery trips each semester, two overnight and one day trip. The overnight trips have become legendary and sell out quickly. Semester one usually starts with the day trip to the picturesque Glendalough and Kilkenny Castle. This is then followed by the first overnight trip to Bunratty Castle where the students get to experience a Medieval banquet followed by a night out in the west of Ireland. The 3rd trip of the semester involves a weekend at an adventure centre where students get the opportunity to test themselves at rock-climbing, canoeing, bog walking zip-lining and much more and of course, an obligatory SU night out in the middle of it all.

Semester two usually sees the crew setting off for an idyllic part of Ireland to visit some of the great attractions Ireland has to offer, seeing the sights of Cork, Killarney, Lahinch and all that's in between, and of course another SU arranged night out or two. For the next trip of the year the SU brings students to the west coast of Ireland and the idyllic town of Lahinch, Co.Clare for the annual surf trip this weekend is always a sell out and great craic. The last trip of the year sees students visit the Giants Causeway for the semester 2 day trip

Entertainment and Events at Griffith College Cork

GCC's Student Union organise various trips throughout the year providing affordable, quality entertainment in a safe and student-friendly environment. Trips to local attractions such as Killarney National Park and Blarney are regularly undertaken by our international students. The highlight event of the year is the Annual Griffith College End of Year Ball usually held at Burlington Hotel. Social events such as movie and games nights are regularly held throughout the year.

Entertainment and Events at Griffith College Limerick

Griffith College Limerick offers a wide social calendar distributed monthly to students. Events are organised by our social coordinator and available to all students. Events range from sports, cultural activities, day trips, overnight trips and nights out in the local bars. Students can also join GCL's soccer team. Griffith students also participate in Freshers' week, charity events, and the seasonal Halloween and Christmas events. Griffith College Limerick students have the opportunity to attend the annual Griffith Ball in Dublin where students can celebrate the end of the academic year.

Recent highlights in Griffith College 2018

- Men's Football team reached the league and Cup finals
- Women's Basketball team reached the league final
- Badminton Team reached league Semi-Final
- Conor Keeley (football team) won first Ireland cap vs France

2017

- Men's Basketball team won the Division 1 title and Intervarsities
- Volleyball Mens Team reached league Semi-Final

Student Services Dublin

We support our students by providing a range of services and facilities to ensure a smooth experience for the duration of their time here. Counselling information is available from the Students' Union free of charge.

Student Publication

The Griffiti society produces a monthly magazine. It provides students with a mix of student news on campus and the opportunity to flex their creative muscles. The magazine is written, edited and put together by students involved in the society. The society is open to all students to join, for more information contact the SU President.

There are fully networked workstations located across the College's computer laboratories. The College Library also offers network access for students with their own laptops, while a computer-booking scheme allows students to secure the use of a PC for scheduled periods in the dedicated 48-seater lab. WiFi access is also available for laptop users. All computing resources are maintained by the College's IT Services Department.

Printing and photocopying facilities are available to students (using an online system) in the Open Lab and the Library. A variety of other equipment including digital cameras, scanners, plotter, CD recorders, and USB and memory device readers are also available for student project and assignment work. Many of our lecture rooms accommodate the use of television, DVD, video projection and computer-based teaching tools.

Cafe Arthur

We offer full catering on Campus. Griffith College is one of the first colleges in Ireland to offer a full and flexible Meal Plan to students from all over the world. A Meal Plan simply offers students the best dining value possible regardless of whether they live on campus or commute. Meal Plans offer students the ultimate in dining convenience too. With a Meal Plan, you never have to worry about carrying cash, losing your parking space or where your next meal is coming from!

Another reality is that the transition to college life can be a learning curve for many, at Griffith College, the exceptional value Meal Plans can be a great way to lighten the load. Our daily catering menu includes a wide variety of foods, including healthy options! When the needs for food and shelter are met, students can focus on their studies and on adjusting to college life.

For additional information on Meal Plan visit our website www.dineoncampus.ie or call our Catering Team on 01 4538503 or email u86577@compass-group.co.uk.

Library

The Library aims to help all our learners get the best from their time in Griffith. We have a full range of relevant textbooks to support the courses in the college as well as extended research materials including journals and databases of academic publications, and document supply and access to the world's scholarship. We have printing, scanning, and copying facilities, PCs and wi-fi, quiet as well as collaborative/group study spaces including our Research Room which also hosts occasional seminars.

Our team are here to help you in your transition to academia including assistance in finding relevant information and resources for your courses and assignments. We also provide group and individual tutorials in aspects of academic integrity including referencing and citation as well as support for computer tools to assist with the research and writing process.

Services include:

- Support with online services and information
- Tutorials and training on academic integrity, referencing, and citation
- Help selecting resources

Resources Include:

- Textbooks
- Databases/journals
- PCs, printing, scanning and copying
- Research room
- Collaborative study space

Health/medical services

The College has an arrangement with a local medical practice which recognises the European Health Insurance card and will also offer a 10% student discount for students who don't have the card. Information about the doctor is supplied by the Students' Union.

Student Information

A SU wall planner is available from the SU. Drop into the SU for more information and help. Faculty guidelines will also be issued to you, providing important contact details and information specific to your course. We also arrange an induction for all our new students.

Induction will introduce students to key staff members and student services. Faculty Heads and lecturers will present students with an overview of their chosen course. The College intranet offers information and

guidelines required by students, staff and lecturers. Students can log on to the system – either from home or from one of the many campus network points – and access lecture notes, examination material, library resources, along with a host of additional information to make student life easier.

Student Services

Cork

Library & Computer Services

The library at Griffith College Cork gives students access to a wide range of information through various forms such as printed textbooks, online eBooks, online databases and different forms of multimedia. The college's virtual learning environment – Moodle, gives students access to a wide range of legal, accounting, business, computing, marketing, journalism and pharmaceutical business journals and online resources. The UbiCast facility is also available in select lecture rooms. This facility allows students to view the recording of the lecture remotely from anywhere in the world. Wi-Fi access is available for students throughout the campus. There are also designated computer laboratories located around the campus which are available for students to use for scheduled periods. Printing facilities are available for students in the library area. All computing resources are maintained by the college's IT services department.

UbiCast Lecture Recording Service

The UbiCast recording facility is available in select lecture rooms. This facility allows lecturers to record their lecture as it is being delivered. The recording can then be uploaded to the college's virtual learning environment – Moodle. Students can then have access at all times to that content.

Café – 'The Vestry'

Conveniently located at the entrance to the college reception, 'The Vestry' is a quaint coffee shop with a unique 1920s style. As well as serving up delicious coffee, 'The Vestry' also serve soup, sandwiches, paninis and a range of mouth-watering desserts.

Radio Studio & Media Equipment

Griffith College Cork boasts a fully operational radio studio which contains all the necessary equipment for broadcasting. Each year, Journalism students, guided by radio presenters from Cork radio stations, RedFM and 96FM, broadcast live from the college on 'Griff FM', the college's very own radio station. A variety of other media equipment such as video cameras, recorders and scanners are available for student project and assignment work.

Student Health & Well-being Services

Cork City Medical Centre, which is located on Patrick's Street is the recommended medical centre for our students. The college also has an arrangement with a local counselling service which is located on Wellington Road, a 2 minute walk from the college. This service is available to assist students with any difficulties that they may be having, either related to their studies or otherwise and is discounted for all Griffith College Cork students.

For further information on these or any further services, please contact Reception 021 450 7027

Student Services

Limerick

Library

Griffith College Limerick provides access to a wide range of materials in our library, assisting students in their learning and getting the best out of their time in Griffith. The library offers printed texts as well as online databases, downloadable e-books and multimedia. An experienced librarian is available to assist students in navigating through the many resources. The library also has Wi-Fi throughout, access to PCs and PowerPoints for electronic devices, study areas as well as scanners/printers/copiers. Access to group study rooms is also available.

The College Intranet (Moodle) offers information and guidelines required by students, staff and lecturers. Students can log on to the system either from home or from one of the many campus network points and access lecture notes, examination material, library resources, along with a host of additional information to make student life easier.

Health/Medical services

There are many medical services located near Griffith College Limerick. The college has an agreement with a nearby GP and dental practice offering student discounts as well as a pharmacy offering a 10% discount on all prescriptions. All of this information is available in the student handbook that is distributed during orientation.

Recreation Room/Restaurants

A Recreation Room is provided for students where they can relax, study, browse the internet on the PC's provided, or on their laptops via Wi-Fi. They can also play pool or watch multi-channel television. A kitchen with microwave, fridge, tea/coffee station is also available. The college is adjacent to a gastro bar as well as a shop with full Deli counter.

For further information on these or any further services, please contact 061 310031

Best Bits of Griffith Business

Professional Accountancy Body Exemptions

Graduates of the Honours business and accounting and finance programmes at Griffith obtain excellent exemptions from the ACCA, ACA and CPA. Those who complete the BA (Hons) in Accounting and Finance programme may qualify for up to 9 exemptions from ACCA while those from the BA (Hons) in Business programme may qualify for up to 6 exemptions from ACCA.

Teaching Council Recognition

As the BA (Hons) in Business Studies is recognized by the Teaching Council of Ireland, graduates from this programme are eligible to pursue secondary teaching careers.

Personal Attention

Personal attention provided along with an excellent student/lecturer ratio.

Work Placement

The BA (Hons) in International Hospitality Management and the Diploma in International Hospitality Management facilitate work placement during the programmes.

Progression Routes

Transfer and progression opportunities are available across all programmes within the faculty, from Level 6 to Level 8. On successful completion of all of the level 8 programmes students will have the opportunity to progress on to postgraduate and/or professional level studies.

Dedicated Careers Advisor

Griffith has its own career advisor who is available to support students with their applications for full time positions, graduate roles or internships. In addition students can access the Griffith Online Careers Vacancies Board for advice and positions. All roles posted here have been sent in directly from the employers and it is continuously updated as roles are received.

About the Course

BA (Hons) in Business Studies

This honours degree programme will help students to appreciate fully the vital business roles played by finance, accounting, marketing, human resource management and information technology. In addition, graduates will be shown how the ever-changing business environment is influenced by political, legal, economic, social and technological factors on both a national and international scale. In first year, students take subjects that are common to the first year of the BA (Hons) in Accounting and Finance. This model gives students the flexibility to adjust their degree choice, if necessary, after year one.

The purpose of the course is to give students the business skills that are in demand by companies today. In a complex and dynamic environment they will be able to identify changes in business requirements, and have the confidence to develop and implement new procedures to satisfy them. Students will be able to recognise the key characteristics governing a particular company and then identify the factors that are critical to its success. The course syllabus, developed

by Griffith College and validated by QQI, reflects the multiple requirements of today's business world. The participation and support of full-time and external lecturing staff, from a wide range of industries, has made a vital contribution to the degree's content.

BA (Hons) in Business Studies (Marketing)

The BA (Hons) in Business Studies (Marketing) offers students an opportunity to specialise in the area of marketing in the final year of their degree. While the broad scope of the course means that students also gain a deep understanding of the many aspects of the world of business, marketing is central to all business activities - whether in a large multinational or in a small local business. The purpose of any business is to meet consumers' needs and wants while making a profit. A marketing qualification can open doors to a number of exciting and challenging careers. These include, but are not limited to; advertising, public relations, sales management, market research, retailing, product design and development, and branding.

BA (Hons) in Business Studies (HRM)

The BA (Hons) in Business Studies (HRM) allows the student to focus on the area of Human Resource Management in the final year of their degree. This follows on from gaining a deep understanding of the world of business in the first two years of the programme. Significant developments in the business environment have led to an increased demand for human resource management practitioners. Students who successfully complete this programme can apply the knowledge and skills which they have gained on the programme to a wide range of business sectors.

Progression

Upon successful completion of their honours degree course, graduates may wish to continue their studies with a postgraduate qualification in Griffith College or with one of the many third level institutions in Ireland or abroad.

Sean O'Brien, Business Faculty Student, Leinster and Ireland International Rugby Player

Careers

The varied and in-depth content of these courses means that graduate prospects and opportunities are virtually endless. Electives/Specialisations in the final year are a platform on which a career in this area can commence. Specialisations include management, HRM, finance or marketing.

BA (Hons) in Business Studies (Blended)

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: 3 YEARS, BLENDED
AWARD LEVEL: LEVEL 8
VALIDATED BY: QQI

About the Course

The BA (Hons) in Business Studies Blended programme is delivered through a combination of online and classroom-based learning. This course is validated by QQI at Level 8 on the National Framework of Qualifications and content and assessment is identical to the full-time and part-time BA (Hons) in Business Studies programmes.

The blended mode of delivery offers students a more flexible learning environment and provides an opportunity for those living outside the greater Dublin area to study in Griffith College.

“Blended learning” incorporates weekly video lectures which are uploaded to an online virtual learning platform to be reviewed at learners’ convenience with weekly virtual activities to be completed on topics covered. There are fortnightly tutorial-style live “webinars” using the most up-to-date conferencing technology. E-learning is “blended” with “live” Saturday classroom-based workshops, which take place on a monthly basis.

Students visit the Dublin campus on a monthly basis, however, they have access to all facilities provided to full-time and part-time students throughout the academic year, as well as the option of participating in the wide range of extra-curricular activities undertaken by full-time and part-time business students at Griffith College.

Progression

Upon successful completion of their honours degree course, graduates may wish to continue their studies with a postgraduate qualification in Griffith College or with one of the many third level institutions in Ireland or abroad.

QQI

About the Course

The BA (Hons) in Accounting and Finance degree is ideal for students interested either in a career in the accounting profession or who wish to develop the expertise to analyse business activities from a financial perspective. If you are interested in the application of numerical techniques and the interpretation and communication of financial information, this course is ideal. It explores the theory and practical application of accounting and finance, and will give you a thorough grounding in the key business disciplines. Once completed you will have all the necessary skills to pursue a dynamic and rewarding career in accounting and/or finance.

This Accounting and Finance programme provides the learner with the computational, analytical and management skills required for a dynamic career in business. Whether you want to be an accountant, financial analyst or indeed, start your own business, then this is the programme for you.

Progression

Graduates of this programme may wish to pursue postgraduate studies in our Graduate Business School. They can also gain substantial examination exemptions from the professional accountancy bodies. Such programmes are available on a part-time and full-time basis, allowing graduates the flexibility to work while continuing their studies.

Careers

The programme gives you an understanding of the business, legal, and social environments in which accountancy operates and enables you to be conversant in the technical languages and practices of the

accounting sector in a market economy. These include measurement and disclosure in financial statements, managerial accounting, auditing, taxation and business law. While typical careers focus on the world of finance and accounting in particular, any aspect of the business arena is open to graduates.

Enrolling in the Accounting & Finance part time degree was a huge decision and I must say rather daunting. However, the lecturing staff, and indeed everyone at Griffith College, made the transition so easy and enjoyable. Managing a full-time job, along with studies and everything else life has to give, was made easier by the consistent level of support. I found the classes to be a fantastic open environment full of discussion as well as structured lectures and great reading material. I would highly recommend anyone considering studying Accounting & Finance to choose Griffith College.

* Elective are offered subject to demand

As with the BA (Hons) in Business Studies, the College designed this degree programme with the help and considerable expertise of its full-time and external lecturing staff, as well as a wide range of people in industry and practice. As a result, the programme reflects the multiple requirements of today's business and finance world. Programme modules and content are subject to ongoing quality assurance reviews and evolve to reflect educational, legal and professional developments.

I am a third year student studying on the Accounting and Finance degree in Griffith College. It is a very interesting course and the lectures are extremely helpful and kind; they're always ready to help. Griffith College is a place that encourages students to work hard and the BA (Hons) in Accounting and Finance recognises the efforts that students put into their work.

BA in Marketing

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 3 YEARS
AWARD LEVEL: LEVEL 7
VALIDATED BY: QQI

About the Course

This three year programme engages students in all key marketing disciplines while also giving them grounding in broader business disciplines. The BA in Marketing at Griffith College gives students the opportunity to develop marketing skills and gain an understanding of business. By developing their marketing skills in the broader business context, students are perfectly placed to become dynamic team players in any business environment.

The degree also features an embedded award so that students who wish to exit after two years can do so with a Higher Certificate in Business. This programme is the perfect platform for students who wish to pursue further studies or move straight into the workplace.

Progression

Students who successfully complete the BA in Marketing are eligible to progress to the final year of the BA (Hons) in Business Studies. The BA in Marketing is a QQI award at level 7 on the National Framework of Qualifications and therefore allows for transfer and progression both nationally and internationally.

Careers

A marketing qualification can open doors to a number of exciting and challenging careers. These include, but are not limited to, advertising, public relations, sales management, market research, retailing, product design and development, and branding.

Course Content

COURSE DURATION: FULL-TIME 3 YEARS
AWARD LEVEL: LEVEL 7
VALIDATED BY: QQI

About the Course

The BA in Business is a three-year full-time programme which is designed to give students a clearly structured business education and provide a solid foundation for further education or career progression. All key business functions are addressed, including, entrepreneurship, marketing, finance, accounting, human resources and information technology. The programme achieves a healthy balance of practical hands-on business practice with academic knowledge offering students a broad understanding of business principles and practices. The degree also features an embedded award so that students who wish to exit after two years can do so with a Higher Certificate in Business. The BA in Business at Griffith College gives students the opportunity to develop business skills and gain an understanding of business in the safe environment of a college which focuses on excellence in education. This programme is the perfect platform for students who wish to pursue further studies or move straight into the workplace.

Progression

Students who successfully complete the BA (Ord) in Business are eligible to progress to the final year of the BA (Hons) in Business Studies. The BA in Business is a QQI award at level 7 on the National Framework of Qualifications and therefore allows for transfer and progression both nationally and internationally.

Careers

Graduates will have the skills and knowledge to work in a wide variety of business areas and will be suitable for employment in the services, and the industrial and public sectors. Due to the broad scope of the programme, students may opt to develop their general management skills or work in a specialist area such as finance, marketing, information technology or human resources. Students who wish to seek employment immediately after the course may complete further studies on a part-time basis.

Course Content

YEAR 1

Learning to Learn, IT Skills for Business, Business Management 1, Fundamentals of Finance, Business Maths, Business Communications, Small Business Development.

YEAR 2

Introduction to Business Law, Financial Accounting, Business Management 2, Enterprise Innovation and Planning, Market Research Practice, Employability Skills, Principles of Economics, Principles of Marketing.

YEAR 3

Strategic Marketing Management, Business Finance, Human Resource Management, Digital Marketing, Operations and Project Management, Business Analysis Project, Career Planning.

As an international student from Nepal, I feel I have been so lucky to be able to study business for the past three years in Griffith College. The modules are really interesting and the lecturers have real passion in what they do. Their industry experience and their special teaching techniques have taught us how important the world of business is. Griffith College provide the best learning materials, facilities and supports to all students. I have really enjoyed and learned so many things since I started in Griffith College.

Higher Certificate in Business

DUBLIN

LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 2 YEARS
AWARD LEVEL: LEVEL 6
VALIDATED BY: QQI

About the Course

The Higher Certificate in Business is a two-year full-time programme, designed to give students a rich overall perspective of business. Marketing, finance, accounting, management, and information technology are all addressed as students are prepared for the world of business and its countless opportunities. On completion, students will have the confidence and knowledge to select and apply appropriate techniques to business problems and opportunities as they arise.

Progression

On successful completion of the Higher Certificate programme, students can progress directly to year three of the College's BA in Business or BA in Marketing programmes. Alternatively, they may progress directly to year two of the College's BA (Hons) in Business Studies or BA (Hons) in Accounting and Finance programmes.

Careers

This programme is the perfect platform for students who wish to pursue further studies or move straight into the workplace. The broad scope of the course means that students gain an understanding of the many aspects of the world of business, allowing them to choose the area which appeals to them most. Graduates will typically find employment in insurance, banking, retailing and marketing. Students who choose to seek employment immediately after the course may complete further studies on a part-time basis.

Course Content

YEAR 1

Learning to Learn, IT Skills for Business, Business Management 1, Fundamentals of Finance, Business Maths, Business Communications, Small Business Development.

YEAR 2

Introduction to Business Law, Financial Accounting, Business Management 2, Principles of Marketing, Enterprise Innovation and Planning, Market Research Practice, Employability Skills, Principles of Economics, Principles of Marketing.

I completed a Higher Certificate in Business before continuing on to study for my Degree in Griffith College. I am certain that the College and my course will provide me with the knowledge and skills required for a career in business management.

BA (Hons) in International Hospitality Management

DUBLIN

LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 3 YEARS
AWARD LEVEL: LEVEL 8
VALIDATED BY: QQI

About the Course

This programme focuses on introducing and preparing students for management roles in the international hospitality industry. It takes an international perspective, thus increasing the variety of career opportunities open to graduates. The programme includes an element of practical skills training in the area of food and beverage service skills and food production. This training will equip learners with the necessary hospitality service skills that will assist them in their future careers. The Hospitality Management students have the opportunity to gain real life experience through the College's on-site training restaurant. Students are required to complete 1,000 hours of work experience prior to graduation. This experience is normally achieved during the summer months and helps students increase their value to potential employers.

Progression

Graduates of this programme who wish to pursue a Master's programme are eligible to apply for further study with our Graduate Business School or with other higher educational institutions.

Careers

This internationally focused programme offers graduates the opportunity to work in the diverse field of Tourism and Hospitality. Graduates will have a variety of employment prospects in the many sectors which include hotels, restaurants, conferences and events, travel, tourism, and recreational and leisure organisations.

Course Content

YEAR 1

Semester I:

Hospitality Operations 1, International Hospitality Management, I.T. Skills, Business Mathematics for Hospitality Managers, Effective Learning and Development

Semester II:

Hospitality Operations 2, International Hospitality, Management, Principles of Services Marketing, Financial Accounting, Principles of Economics

YEAR 2

Semester I:

Food and Beverage Management, Accommodation and Facilities Management, Hospitality Law, Tourism Studies, Personal & Professional Development.

Semester II

Marketing Management and Research, Organisational Behaviour, Management Accounting, Human Resource Management, Room Division Management.

Industry Placement Stage (1,000 hours in total)

The Industry Placement module affords learners an opportunity to develop their practical skills by training in a working environment. Students are placed in a variety of companies, which include international hotels, food and beverage outlets, conference and event venues, and leisure centres.

YEAR 3

Semester I

Strategic Hospitality Management, International Travel, Tourism and Hospitality + 2 Electives

Semester II

Finance and Revenue Management, Hospitality Industry Project +2 Electives.

YEAR 3 ELECTIVES*

Four electives must be chosen

Conference and Events Management, International Leisure Service Management, Supply Chain Management in Hospitality, Contemporary Issues in Hospitality, International Human Resource Management, International Services Marketing.

* Electives are offered subject to demand

Diploma in International Hospitality Management

DUBLIN LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 2 YEARS
THREE TAUGHT SEMESTERS PLUS 1,000 HOURS CREDITED WORK EXPERIENCE IN THE INTERNATIONAL HOSPITALITY/TOURISM INDUSTRY
AWARD LEVEL: LEVEL 7
VALIDATED BY: QQI

About the Course

The Diploma in International Hospitality Management offers students the prospect of gaining a level seven award and gaining practical work experience in the international hospitality industry. The skills, knowledge and competencies gained while participating on this course are important for prospective graduates in attaining employment and meeting current industry trends.

The students who register on this programme study hospitality specific modules such as Hospitality Operations, International Hospitality Management, Food and Beverage Management, Accommodation and Facilities Management, Hospitality Law and Tourism Studies along with general business subject areas. These modules give the student a detailed insight and understanding of the international hospitality industry, both through their practical skills training sessions and management studies.

This style of programme delivery supports and highlights the diverse range of career opportunities open to successful graduates. Students who wish to exit with a Diploma in International Hospitality Management may do so at the end of semester one, year two. These students will take three taught semesters of 90 ECTS credits and must complete the one thousand hours industry placement which is graded and worth 30 ECTS credits, giving a total of 120 ECTS credits.

Progression

Graduates of the Diploma in International Hospitality Management, who at a later date wish to return to complete the Bachelor of Arts programme, will be required to study semester 2, of year 2, and all of year 3 of the programme.

Careers

This internationally focused programme offers graduates the opportunity to work in the diverse field of Tourism and Hospitality. Graduates will have a variety of employment prospects in the many sectors which include hotels, restaurants, conference and events, travel, and tourism organisations.

Honey Romero

“My three years in Griffith College has been an enjoyable and memorable experience. What I really liked about the programme was the fact that it is internationally focused. There is such a diverse range of students, coming from all types of backgrounds and culture’s. The small classroom sizes means that students and lecturers get to know one another. This is such a broad course, which allows you to go into different careers within the hospitality industry. The lecturers are extremely approachable and will help you in anyway they can.”

Honey Romero
BA (Hons) in International Hospitality Management

Law

Griffith College is not only exam-focused but also looks at developing you as a person. Extra-curricular activities are a major part of what Griffith does. Griffith gave me the self-confidence and drive to excel in both my academic studies and professional career.

[How to Apply](#)

Best Bits of Griffith College Law

Recognition by Professional Bodies

The LL.B. (Hons) is accredited for entry purposes by the Law Society of Ireland and the Honorable Society of King's Inns.

Leading Practical Pedagogy and Clinical Skills Development

The courses provide a practical, clinical education encompassing debating, court visits and moot courts.

Library Resources

The Griffith College library is a subscriber to JustisOne, Westlaw UK and Westlaw.ie, some of the world's premier legal research engines.

Student Intranet

Griffith College facilitates web-based learning on Moodle, the student intranet system.

Student Societies

We have a vibrant Law Society and national and international award winning debating and mooted societies. Student members enjoy the benefits of these thriving, dynamic societies and are encouraged to join.

Why Griffith College?

- Excellent reputation
- Smaller classes guarantee individualised attention
- Placements with industry available to Griffith students
- Dublin City location
- Complimentary car parking for students
- Flexible fee payment structures available

Extra Curricular Activities at Griffith College Law

Law Society

Throughout the academic year the Law Society schedules a variety of activities for students in addition to a series of talks by prominent members of the legal community.

Debating Society and Mooting Society

The Debating Society provides students with the opportunity to partake in organised student debates. Internally, the College runs a debating competition for its own students. Externally, students are encouraged to participate in prestigious international and national debates such as the annual Irish Times debate. A Griffith College student won the individual award in this event in 2010.

The Mooting Society encourages legal debate among students by way of written submission and oral presentation. The society runs an internal Moot Court for Griffith law students as well as encouraging teams to enter renowned national and international intervarsity moots such as the Silken Thomas Intersvarsity Moot Court Competition, which a Griffith team won in 2014 and 2015.

Students active in both societies receive expert guidance and coaching from experienced, practising lawyers.

Work Experience

Griffith College and the Law Faculty offer an in-house careers service that helps students draft their Curriculum Vitae, and assist with interview skills. We also provide work placement opportunities.

Brehon Law Internships

Each year a number of our students complete a summer internship in Philadelphia. This is organised in conjunction with the Philadelphia Brehon Law Society.

The students work in judge's chambers and get the opportunity to attend events, network and get a taste of a different judicial system.

Free Legal Advice Clinic (FLAC)

There is a monthly free legal advice clinic where students work alongside professionals in providing legal advice to staff and students in the College.

Griffith College Innocence Project

Griffith College offers students the opportunity to earn credit towards their degree by working with the Innocence Project, which is housed on-site at Griffith College. There, students work under the close supervision of practising solicitors and barristers to help to analyse case materials and to liaise with clients with a view to exonerating those clients who may have been wrongfully convicted.

Start-Ed Programme

Griffith College Law students also enjoy important access to the Start-Ed Programme. The StartEd Programme is a forum in which students, startup businesses and professional legal advisors come together in clinics for free one-to-one advice from leading legal advisors. Students selected get to sit in on the advisory sessions and, while in College, get real-world experience which can later enhance their career prospects

Judge in Residence

The Hon. Mr Justice Clarke, the current Chief Justice of Ireland, has been the Judge in Residence in Griffith College since 2010. This means he provides a link between members of the judiciary and the academic legal community at Griffith College

LL.B. (Hons)

DUBLIN CORK

COURSE DURATION: 3 YEARS
APPLY DIRECT: WWW.GRIFFITH.IE
AWARD LEVEL: LEVEL 8
VALIDATED BY: QQI

About the Course

LL.B. comes from the Latin – Legum Baccalaureus-Bachelor of Laws. A highly focused discipline, law examines how groups and individuals regulate their relationships. With the LL.B. (Hons), students can tailor their degrees to suit their interests with a combination of core legal modules in each year of study along with a range of elective practically-orientated modules in the second and third years. Assessment is by means of written assignments combined with end of term examinations. Our panel of experienced Law Lecturers, many of whom are practitioners in their field, provide intensive assignment and exam feedback sessions to all students on an individual basis. In order to support students in their studies, the Griffith College Library has extensive facilities and is a subscriber, for example, to Lexis Nexis, Westlaw UK and Westlaw.ie, some of the world's premier legal research engines. Griffith College also facilitates web-based LLB learning on Moodle, the student intranet system. The College Moodle system also allows for ongoing contact and engagement between students and their lecturers outside of formal teaching times by providing facilities such as an online student discussion forum for each class.

Course Delivery

The course is available both full-time and part-time and runs from September to May and both programmes can be completed in three years.

Full time degree consists of up to 16 lecture hours per week. Extra time is allocated to assignment work and to the vital independent study that shapes attitude, deepens understanding, and provides students with practical exposure to problem-solving.

Part time students will have classes two evenings per week from 6pm to 10pm with some weekends.

Progression

The LL.B. (Hons) Programme aims to develop a learner's critical capabilities to the fullest, to enhance their communication skills and capacities and develop their clinical skills.

At the outset, graduating with the Griffith College LL.B. (Hons) degree will prepare you to undertake the Law Society of Ireland's entrance examination.

As the first College in the non-University sector to have its degrees recognised by the Honorable Society of the King's Inns for the purpose of admission to its annual entrance exams, graduating with the Griffith College LL.B. (Hons) Degree allows you to progress to the five entrance exams of the Honorable Society of King's Inns and to complete the Barrister at Law degree in just one year.

For those wishing to pursue postgraduate opportunities, the LL.B. (Hons) provides a foundation for a Masters programme in Law (LL.M.). Many of our graduates go on to complete an LL.M. in an area of their choice. Griffith College also offer a range of LL.M Programmes. An LL.M. is a great foundation to a PhD and can be completed by classes or research.

The LL.B. (Hons) Degree also lends itself to stimulating career opportunities across a range of areas including Journalism, Media, Finance, Public Administration, Industry and Commerce. It has been crafted and refined by the seasoned input of distinguished academics and professionals as well as the College's expert full-time and associate lecturing staff. The degree combines academic depth with legal training to industry standards to provide students with a solid foundation for their future careers.

Course Content

Students will study core subjects and pick electives allowing them to tailor their degree. This allows the student to focus on key areas that they are interested in such as criminal law, family law or corporate law.

YEAR 1	YEAR 2	YEAR 3

LL.B. (Hons) (via Blended Learning)

DUBLIN

COURSE DURATION: 3 YEARS
APPLY DIRECT: WWW.GRIFFITH.IE
AWARD LEVEL: LEVEL 8
VALIDATED BY: QQI

Entry Requirements

Students must have a good quality laptop with a functioning webcam, an external microphone headset, access to high-speed broadband, and, importantly, the motivation, discipline and commitment to work as independent learners.

About the Course

The undergraduate law programme is an innovative and interactive teaching and learning experience, delivered through a combination of online and classroom-based learning. Each course is conducted via weekly online lectures and activities to be reviewed at the learner's convenience, alongside these are weekly assigned reading, fortnightly tutorial-style live "webinars" via conferencing technology and classroom-based workshops, or 'live' days, which take place on weekends on a monthly basis.

The LL.B. (Hons) programme delivered via blended learning is fully comparable to the full-time and part-time programmes at Griffith College and only the mode of delivery differs, providing learners with professional or personal commitments, and those living outside of the greater Dublin area, with a more flexible offering. This course is validated by QQI at Level 8 on the National Framework of Qualifications and content and assessment are identical to the full-time and part-time LL.B. (Hons) programmes. Students visit the Dublin campus on a monthly basis for 'live' days for each course, and, they have access to all facilities provided to full-time and part-time students, as well as the option of participating in the wide range of extra-curricular activities undertaken by full-time and part-time law students at Griffith College, such as mootng, debating, FLAC and the Law Society.

Course Delivery

LL.B. (Hons) students studying via blended learning will engage with both virtual and classroom-based learning environments, providing them with both legal knowledge as well as the computer skills necessary to excel in the modern-day workplace upon completion of their studies. Weekly pre-recorded video lectures are supplemented with weekly Moodle activities to reinforce learning, such as conducting research for contributions to a discussion forum, a topic glossary or discussion-based topic page, as well as undertaking online quizzes and contributing to blogs on subjects covered. Students are also assigned weekly reading based on the lecture topics.

Fortnightly live "webinars" are virtual tutorials between students and their lecturer using video-conferencing software and enable learners to engage with lecturers on topics covered, facilitating student presentations, debates and even moot courts online. Students attend campus for 'live' days for each course on a monthly basis generally; 'live' days consist in structured discussions and activities, such as group or project work, or Q&A sessions with lecturers.

Progression

Graduating with the Griffith College LL.B. (Hons) degree will prepare you to undertake the Law Society of Ireland's entrance examinations.

As the first college in the non-university sector to have its degrees recognised by the Honorable Society of the King's Inns for the purpose of admission to its annual entrance exams, graduating with the Griffith College LL.B. (Hons) Degree allows you to progress to the entrance exams of the Honorable Society of King's Inns.

For those wishing to pursue postgraduate opportunities, the LL.B. provides a foundation for a Masters programme in Law (LL.M.). Many of our graduates go on to complete an LL.M. in an area of their choice. Griffith College also offer a range of LL.M. Programmes.

The LL.B. (Hons) degree also lends itself to stimulating career opportunities across a range of areas including journalism, media, finance, public administration, industry and commerce. It has been crafted and refined

by the seasoned input of distinguished academics and professionals as well as the College's expert, full-time and associate lecturing staff. The degree combines academic depth with legal training to industry standards, to provide students with a solid foundation for their future careers.

Course Structure and Content

Flexibility is offered to LL.B. (Hons) students studying via blended learning, who have the freedom to access course content at their convenience alongside comparatively fewer obligations to attend campus than those of part-time and full-time students.

Diploma in Legal Studies and Practice (Special Purpose Award)

DUBLIN CORK

APPLY DIRECT: WWW.GRIFFITH.IE
AWARD LEVEL: **LEVEL 7**
(SPECIAL PURPOSE AWARD)
VALIDATED BY: **QQI**
RECOGNISED BY: **IILEX**

Entry Requirements

Applicants should be over 23 years of age on the 1st January in year of admission. Applicants under 23 years of age must meet the standard entry requirements for a Level 7 programme (Min. 506/H7s) and are assessed on the basis of age, work experience and may be interviewed in advance of admission.

About the Course

Griffith College Law Faculty offers this programme on a part-time basis over one or two academic years. The programme runs over three evenings per week and is available onsite and via blended learning, where all lectures are recorded and available online. Every module runs over five teaching weeks, followed by two reading weeks and a week of examinations. Assessment varies from module to module and comprises of a combination of assignments, workshops and examinations. All students will attend examinations and also practical workshops held for the more skills-based modules. Once you successfully complete all twelve modules you will be awarded a Diploma in Legal Studies and Practice,

validated by QQI and endorsed by the Irish Institute of Legal Executives. Diploma graduates are eligible for enrolment as Associate Members of IILEx, and all participants are eligible to become Student Members of the Institute.

Course Delivery

All lectures are recorded and uploaded onto our intranet called Moodle. You can view these lectures when you want and as often as you like. All course materials are also uploaded onto Moodle for you to access, as well as any practical exercises which take place during class time. All students must attend a practical three-hour weekend workshop in the following modules: Professional Ethics and Skills for Practice, Civil Litigation, Criminal Practice and Procedure, and Conveyancing. This provides a blended approach to learning which works excellently and provides educational opportunities to many to train as a Legal Executive.

Progression

Students who complete the DLSP may go on to join the second year of the LL.B. (Hons) Programme. The DLSP qualifies students to become Legal Executives. Legal Executives assist in the processing of legal matters with solicitors and barristers in the courts of Ireland and within other areas of commercial and legal practice.

Course Content

Students may complete the course over one or two years.

Certificate in Legal Studies

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: 1 YEAR
AWARD LEVEL: LEVEL 6
VALIDATED B: QQI

Entry Requirements

Min. 506/H7s in the Leaving Certificate, to include English or, four GCSE passes at grade C to include English plus one pass at A-level.

About the Course

The Certificate in Legal Studies aims to equip students with foundation knowledge of the concepts and principles pertaining to the core areas of Irish law and to cultivate skills that will help them to transfer into the work place in an administrative position within a legal firm or other business, or other office-based roles within law enforcement, or the public sector. The Certificate in Legal Studies is unique as it places an emphasis on various modes of assessment in order to foster the skills

of communication, both oral and written (independent thinking and self-directed learning) that are required to succeed in an increasingly competitive jobs market. This course is ideally suited towards students who favour continuous and alternative assessment over the exam based assessment through written examinations. Students will undertake a range of skills based subjects in addition to the legal subjects including IT Skills, Personal and Career Development, and Learning and Research Skills. Additionally, students will have a compulsory Work Placement module to place them in a strong position if they move into the work force. Alternatively, learners may proceed to further study.

Progression

The Certificate in Legal Studies offers a stand-alone qualification to enable graduates to enter the workplace. It also equips the graduate with the skills necessary to successfully participate in the suite of level 7 and 8 programmes offered by the Law Faculty, if they choose to proceed to further academic study on the National Framework of Qualifications.

Course content

SEMESTER 1

Introduction to the Irish Legal System
Learning and Research Skills
Personal Development
Introduction to the Law of Tort
Introduction to the Law of Contract
I.T Skills

SEMESTER 2

Introduction to the Irish Legal System
Introduction to Land Law

BLOCK 1	BLOCK 2	BLOCK 3	BLOCK 4
Professional Ethics and Skills in Practice	Civil Litigation	Conveyancing	Criminal Practice and Procedure

Certificate in Mediation (Special Purpose Award)

DUBLIN CORK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: 1 YEAR
(WEEKEND BLOCKS)
FRAMEWORK LEVEL: LEVEL 8
VALIDATED BY: QQI

About the Course

This programme is run via blended learning meaning there is a combination of both online and in class teaching and learning. The lecturers are experienced mediators, academics and conflict management trainers with many years' experience in both practice and training. The graduates of this programme will also hold MII (Mediators Institute of Ireland) recognition and the faculty will provide much pastoral care and career support.

The overall aim of this Special Purpose Award is to ensure that the learner will be a naturalised, confident, highly effective and self-reflective mediator with advanced knowledge of the principles of mediation and the mediation process. By enabling participants to gain an in-depth understanding of the concepts and methods underlying the development and use of mediation, the programme seeks to actualise their ability to implement the skills to practice. Furthermore, the programme seeks to equip the graduate with an awareness of the impact of conflict behaviour on mediation, both from the mediator and third party perspective. Teaching and assessment will emphasise the necessity of inherent emotional intelligence in this regard on the part of the mediator. It is sought to inculcate this by introducing the learner to both academic reading and structured self-reflection on the area. Finally, the programme has the further objective of demystifying the law surrounding mediation in order that the learner may embark upon a career involving the use of mediation within their work place.

Course Delivery

The Certificate in Mediation is delivered over the course of four months, in weekend blocks.

Course Content

The Certificate in Mediation comprises three core modules;

- Introduction to Mediation and Conflict
- Mediation Ethics and Legislative Framework
- Mediation in Practice

Progression

The knowledge, skills and competencies developed in the area of mediation will be transferable to both further postgraduate studies and practice. This is not confined to the area of law and dispute resolution but can transfer into business, social studies, community affairs, human resources, management and across any area of life where conflict may arise. Learners who complete this programme will have a range of skills that will be attractive across sectors as a result of acquired skills such as critical thinking and evaluation, ability to self-manage and self evaluate, independent learning, conflict management, communication, active listening and mediation. The skills acquired on this programme help the graduate become a more effective communicator and resource in any workplace. The mediation industry is becoming established in Ireland and the robust nature of this qualification will give a graduate a unique selling point as compared with other non-academic programmes designed to accredit mediators.

I was an older student being over 30 years since I attended college, so naturally I was a bit apprehensive. The lecturers we had were excellent, the help we got on every module was very hands on. In my view mediation is the only way to resolve disputes and conflicts between two parties.

Tom Ruddle
Certificate in Mediation.

Computing Science

“The BSc (Hons) in Computer Science changed my entire view on learning, and my understanding of technology. My course is heavily Java based, with this in mind the course itself is challenging at times but always has exciting elements to it.

I think this is due to all the technologies (new and old) we learn about and how they were and are going to be used. The skills that I am learning will be extremely beneficial in the future when I seek employment.”

Daniel Boyle
BSc (Hons) in Computing Science

Best Bits of Computing at Griffith

Work Placement

The full-time BSc (Hons) in Computing Science allocates a 6-month work placement in its third year enabling students to gain invaluable experience in an I.T. related work environment.

Industry Guest Speakers

Renowned industry speakers share their insights into the fundamentals of Computing Science, the I.T. industry and offer students invaluable career advice.

High Academic Profile

The Computing Faculty lecturing staff have a high academic profile with PhD holders distinguished in their fields.

Subject Specialisation

Individual subject certification is available throughout the faculty, thus allowing students to specify in areas of interest.

Small Class Sizes

A good student / lecturer ratio ensures that students will get the mentoring and one-to-one attention required to maximise their learning.

Awards

Winner of Robocode Ireland Championships 2008.
Second place in the Irish finals of Microsoft Imagine Cup 2011.

About the Course

This honours degree programme is designed to turn students into experts in the application of Computing Science. The course has the capacity to reflect and adapt to both technical and market developments. The content and skills taught are relevant to the current and emerging job opportunities in the industry. In Year 3, students must complete four taught modules and a 6-month work placement in the computing industry. The work placement experience serves two purposes.

Firstly, it provides you with invaluable work related computing experience, allowing you to draw on this experience during Year 4. Secondly, it significantly increases your attractiveness to potential employers. Students working in the industry and pursuing the evening programme may be granted an exemption from the work placement stage, depending on the nature of their employment experience.

Students are required to complete a number of significant software development projects throughout the programme. These projects have a strong industry focus and help consolidate and reinforce knowledge acquired from taught modules.

Year 4 Elective Modules

In Year 4, students are given the opportunity to specialise their degree by selecting a set of elective modules to focus on. The elective modules reflect the areas that are currently in demand in industry in Ireland at the moment; Cloud Computing, Machine Learning, Internet of Things, Cyber Security and Software Development. This allows students to gain the broad experience of Computing Science while fast-tracking their skills for industry.

Progression

Once completed, students can consider further study options here at Griffith College, in the form of an MSc in Computing Science (offered on a full/part-time basis), or at other institutions worldwide. Selected module content covers professional course material (granted by CISCO) which provides our students with sufficient knowledge to undertake professional qualifications, should they wish to do so.

Careers

Our graduates are working as assistant software project leaders, computer technology consultants, MIS (Management Information Systems) personnel, software engineers, systems analysts, applications programmers etc., across a wide range of industry sectors.

Programme structure

About the Course

This degree programme aims to develop the skills and competencies required for the effective design of software systems. The course introduces students to a broad range of problem solving techniques, all of which are directly applicable to the range of IT problems that arise in commercial settings. Students have the opportunity to work in teams as well as on solo projects.

Students who wish to exit after successfully completing Years 1 and 2 may do so and be awarded a Higher Certificate in Computing (QQI).

Progression

On successful completion of the Level 7 degree with a 60% average, students may apply for the final year of the BSc (Hons) in Computing Science in Griffith College or external institutions.

Careers

Following this course, graduates will be able to work as assistant software project leaders, computer technology consultants, MIS (Management Information Systems) personnel, software engineers, systems analysts, applications programmers etc., across a wide range of industry sectors.

Programme Structure

Best Bits of Journalism & Media Communications

Whether it is driving social media content, creating your own MoJo TV reports, producing live radio broadcasts and podcasts, designing magazines and posters, photographing and then digitally editing great images, or writing the articles that get people talking, and learning how to ask the questions that matter, Griffith's media and communications courses have the answer.

At Griffith College our undergraduate courses with degrees in Journalism, Photography, Visual Media, Film and TV production and our masters' programmes in Journalism, Film and TV Production, Journalism and Public Relations or Applied Digital Media, deliver the skills and knowledge that matter in our social media information driven world.

You can move across the full range of these disciplines from recording and editing your radio interviews, doing live broadcasts, producing your own film documentaries, Vlogs, MoJo pieces, developing photographic skills in digital, to commercial and action photography culminating in a graduate exhibition where previous students have won national awards in photography and video production.

Students will also be setting up their own online presences through blogs, website design and other online social media. You can conduct your own investigations, publish magazines and newspapers and

in doing so, follow the path of many other successful journalists and media professionals. Media moves our world, whether it is social, digital, old or new, visual, print, online or radio.

A media course at Griffith College will give you the edge to succeed and take on the challenge of entering the growing communication and creative sector in Ireland and internationally. Employers consistently notice the can-do attitude and professionalism of Griffith graduates. Students are assured of excellent teaching practices, using industry standard techniques and technologies. Students on our QQI validated Journalism, Media and Photographic courses are also entitled to student membership cards from the National Union of Journalists, which recognises the courses for professional training purposes.

Check out our students' work: www.thecircular.org.

You can also browse through the graduate photography albums on Facebook, view our students' work in progress and keep up to date with our student successes.

STUDENT MEDIA COMPETITIONS

Griffith College consistently excels at the Smedia awards, Ireland's national student media awards. In 2018, 15 Griffith students were shortlisted in six categories, Griffith won three Smedia awards and 26 students were nominated. The 2018 students won Best Photographer, best Film Script and Small College Publication of the Year.

Blog of the Year: 2015, 2014

Film Script: 2018

News Photographer of the Year: 2015, 2011

Photographer of the Year: 2018, 2016, 2015, 2013, 2012

Radio Production of the Year: 2014

Radio Documentary of the Year: 2015

TV Production of the Year: 2016, 2015, 2014, 2012, 2011

Short Story of the Year: 2014, 2013

Small College Publication: 2018

Sports Photographer of the Year: 2016, 2015, 2013

Sport Writer of the Year: 2015

PRESS PASS

NUJ recognition of our degree and masters programmes entitles students to apply for a NUJ Press Card for the duration of their course.

INDUSTRY LINKS

Lecturers in Griffith's Journalism & Media Faculty have been drawn from successful media companies including RTÉ, Newstalk and the Irish Examiner amongst others. Many are successful freelance professionals in film, photography and writing.

SUCCESSFUL ALUMNI

Graduates have worked in RTE Radio, Today FM, Spin, Newstalk, FM104, Ocean FM, Shannonside, RTE TV, TV3, Shinawil, NBC, Facebook, Google, Setanta, Journal.ie, Joe.ie, Boards.ie, Hubspot, the Irish Star, Sun, Mail, Mirror, Independent, Times, Telegraph, Image Magazine, Fleishman Hilliard, Modern Green, Teneo PSG, Publicis, Vizeum as well as communication roles in NGOs like Samaritans, Women's Aid, Headline, Goal and Plan International. Many Griffith alumni are found across the magazine sector, other regional commercial radio stations and weekly newspapers. A number of graduates are professional contract photographers, or work independently in the film & TV sector.

FACILITIES

On-campus radio station, broadcasting studios (1 on-air and 1 off-air), 4 photographic studios, 2 dark rooms, 1 TV and video studio, 1 sound engineering studio, 2 multimedia production rooms, multiple student publications.

James Keown: SMEDIA Photographer of the Year 2016 [CERT in Photography]

BA in Journalism

DUBLIN CORK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 3 YEARS
AWARD LEVEL: LEVEL 7
VALIDATED BY: QQI

About the Course

In this three-year programme students learn to work in real journalistic situations – in print and broadcasting – over the course of six semesters. NUJ recognition entitles students to a student NUJ Card. Students learn a range of media production and academic skills. Print, digital, online, photography and broadcast production are catered for, alongside learning about the society that students will create media on.

STAGE 1

Students acquire introductory journalism production skills and also learn about the history of media and about how society has adapted to systems of media communication. Students will also gain an introductory understanding of social structures.

Students learn how to present a message and how to present themselves professionally. They will also develop their capacity to write professionally and acquire introductory skills in radio, print and photography.

STAGE 2

Students continue to develop their writing, radio and photography skills. They begin to acquire the layout skills needed for newspaper and magazine production, while building an understanding of the ethical and legal dimensions to media work.

We develop the students understanding of contemporary political and social issues while there is a deeper focus on writing and presentation culminating in a more rounded multi-skilled student.

STAGE 3

Video and TV journalism skills are added, with the student specialising in key news media areas such as reporting, feature writing and investigative journalism. Modules like Media Studies, Research Methods, History of Art & Photography as well as Understanding Audiences, give the students a greater critical and academic depth as they approach graduation

Progression

Further study is an option for students who successfully complete this course; the logical step is to take the final year of the BA (Hons) in Journalism and Visual Media.

Careers

There are good employment prospects for graduates. There is significant growth in the general Irish media and communications sector, particularly in online news media and social media. The performance and resilience of local radio stations and regional news media publications alongside a dynamic magazine and TV sector also offers many entry level opportunities for graduates.

Course Content

STAGE 1

Social Studies, Introduction to Photography, Introduction to Digital Media, Journalism 1, Introduction to Radio, History of the Media, Writing for Arts and Culture, Writing & Presentation Skills.

STAGE 2

Advanced Photography, Contemporary Politics, Radio Journalism, Understanding Narrative, Journalism 2, Media Law & Ethics, News Media Production, Elective Choice: Shorthand or Writing & Presentation Skills 2.

STAGE 3

Introduction to Video, Report & Feature Writing, Media Studies, Understanding Audiences & Media, Marketing, History of Art & Photography, Investigative Journalism, Research Methods, TV Journalism.

BA (Hons) in Journalism & Visual Media

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 3 YEARS
AWARD LEVEL: LEVEL 8
VALIDATED BY: QQI

About the Course

Social media, TV, radio, photography, print: what media path are you considering? This honours degree allows students to develop their own media skillsets. We produce media graduates who are versatile, confident and able to work across the media communications spectrum. From a multimedia and academic grounding in year one, students can develop their own study pathways, whether it is mobile, social and digital media, photography, radio, investigative journalism, TV or video. Students can become broadcasters, reporters, documentary makers, professional photographers, online and social media specialists and also progress to postgraduate study.

Progression

Graduates of this course have gone on to study one of the three specialist media MA's offered by Griffith College, as well as pursuing other postgraduate options at prestigious academic institutions across Britain and Europe.

Careers

Graduates have many career options. Successful students will work as journalists, researchers, presenters and producers in print and broadcast media. The course also prepares you for employment in areas where visual media or multimedia skills are in demand, including video production, photography, web design, graphics production and design, social media, and the vast demands for media content creation skills online.

Course Content

STAGE 1

Introduction to Digital Media, Introduction to Photography, Introduction to Writing Journalism, Understanding Society, History of the Media, Introduction to Radio, Writing & Presentation Skills, Introduction to Video, Media Law & Ethics, Media Studies.

STAGE 2

Core Subjects: Contemporary Society & Political Systems, Understanding Audiences & Media Marketing, Video Production 1, Research Methods, History of Art & Photography.

Stream A (Journalistic Media)

Radio Journalism, Reporting & Editing, News Media Production and Investigative Journalism.

Stream B (Visual Media)

Advanced Photography, Web Design, Visual Communication.

STAGE 3

Core Subjects: Modern Society, Sociology of the Media, Media Research & Cultural Studies.

Stream A or B

Creative Writing, Dissertation, Film Studies, Public Relations, Video Production 2, Publishing.

Stream A only

Business Journalism, Conflict Reporting, Shorthand, Sports Journalism, Investigative Journalism 2, An Iriseoireacht sa Ghaeilge / Irish Language Journalism, Online Journalism.

Stream B only

Photographic Media Production, Commercial Photography, Multimedia Storytelling, Visual Project and Exhibition.

BA in Film & TV Production

(delivered in association with Windmill Lane Recording Studios and Pulse College)

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 3 YEARS
AWARD LEVEL: LEVEL 7
VALIDATED BY: QQI

About the Course

This programme, delivered in association with Pulse College, is aimed at the course learners who have already started to experiment with film-making and visual storytelling in some capacity. Applicants will have a passion and curiosity for film and television. This course develops essential practical skills and knowledge required to work in the dynamic area of film and television production.

Course Content

STAGE 1

On completion of the stage, the learner will have a working knowledge of a digital camera, lighting, sound and editing and the associated software, hardware and equipment, screenwriting and online screen media. Skills acquired in individual modules are interconnected, and serve to reinforce one another. This reflects established industry practice, and supports production of short documentary and drama projects at this stage.

STAGE 2

Working in groups, learners are allocated different roles within film and TV projects and gain first-hand experience of leading, supporting and subordinate roles. During the year, a student will complete a documentary as director. In three other documentaries they will play different key crew member roles. They will also be a crew member in three webisodes and write a webisode screenplay. Finally, each student will be a key crew member in an 'as-live' broadcast.

STAGE 3

Learners have three elective choices. Students will also complete a major project for the degree programme allowing them full scope to integrate their skills and personal perspectives to a professional standard.

Progression

Successful graduates of this programme are eligible to be considered for entry onto the final year of the BA (Hons) in Journalism and Visual Media.

Careers

Graduates will be in a position to progress into the following areas of film, television and documentary production: directing, editing, cinematography, research, sound design, location sound, screenwriting, VFX, production design and producing.

Course Content

STAGE 1: FOUNDATION

Production & Direction for Film & Television, Digital Cinematography, Applications Technology, Location Sound, Digital Photography, Film History, Screenwriting, Film & Televisual Culture, Online Screen Media.

STAGE 2: DEVELOPMENT AND INTEGRATION

Production & Direction for Film & Television 2, Digital Editing for Film & Television, Advanced Audio & Postproduction Sound, Contemporary Film & Television, Applied Digital Cinematography, Advanced Screenwriting, VFX for Film & Television, Television Studio Principles, Film & Televisual Culture 2, Industry Skills & Professional Practice.

STAGE 3: CONSOLIDATION AND SPECIALISATION

Major Project, Independent Project, Marketing, Distribution & Exhibition, Film & Visual Culture, Research Methods, Screenwriting for Features & Television, Advanced Digital Editing, Advanced Postproduction Sound, Image Mastering & Grading, Advanced VFX, Advanced Cinematography.

BA in Photographic Media

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL TIME 3 YEARS**
PART TIME 3 YEARS
AWARD LEVEL: **LEVEL 7**
VALIDATED BY: **QQI**

About the Course

This award winning course will provide you with technical, theoretical and professional skills. This course offered on a three-year full-time basis or three-year part-time basis. Our course will help you to build a strong creative practice with sound theoretical understanding to develop your own personal style; while many genres of the medium are explored it has a distinctly commercial bias. During your studies, you will enjoy a whole range of photographic processes; including traditional analogue and digital technologies. Throughout the course our students present their work and ideas to their peers; this enables their ability to pitch to clients, develop professional confidence and provides an excellent springboard for their careers. Applicants should have a passion for photography and be motivated to explore the creative applications of this medium.

Equipment

We provide a range of equipment for students to avail of in order to complete their course work. We have a number of digital cameras and have recently added full frame SLR's and two large format professional Epson printers to our inventory. In stage II students make full use of large format cameras, which can be used in our studios or taken out on location. We also have flashes, lenses, portable studio light kits, medium format cameras and tripods available for loan.

Facilities

2 Dark Rooms, 2 Processing Rooms
4 Studios , 1 Print Finish Room (2 x Epson Stylus Pro 4900),
1 Mac Room for editing and scanning

Course Content

STAGE 1 - LEARNING

Photographic Techniques, Practical Photography, Ways of Seeing, Research & Writing Skills, Photographic Techniques (Cont'd), Digital Photography, Applied Photography, History of Art & Photography

STAGE 2 - DEVELOPMENT AND INTEGRATION

Photo Essay/Editorial Photography, Layout & Graphic Design, Large Format Photography, Visual Methodologies, Commercial Photography, Media Law & Ethics, Structured Photo Project, Photography & Motion

STAGE 3 - CONSOLIDATION AND SPECIALISATION

Politics of the Image, Final Photographic Project, Elective Specialisms: People Photography, Video Production, Advanced Commercial Photography, Final Photographic Project (Cont'd) - This is a major module and includes the graduate exhibition, it runs over both semesters. The Business of Photography, Professional Practice

Why Study With Us?

- We have expert photography staff with decades of industry and teaching experience who create a stimulating learning environment.
- We encourage and support our students through critique sessions, workshops and by publishing work online.
- We have great industry links; there are with opportunities during the course for our students to gain real-world experience and network.
- Accomplished visiting lecturers regularly deliver talks and workshops.
- Our students' complete the course with a myriad of tangible assets including; a business plan, personalised logo, business cards, self-published books and website.

Careers

Our graduates develop careers in photography and related industries including freelance practice, commercial photography, fashion photography, sports photography, photojournalism, weddings and PR photography, curating, publishing, exhibiting, research and picture editing.

COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 1 YEAR
AWARD LEVEL: **SPECIAL PURPOSE AWARD**
LEVEL 6
VALIDATED BY: **QQI**

About the Course

Photography is one of the most powerful communication channels and its importance continues to grow in the area of information technology. The course takes students, many of whom have little or no expertise in the area, to a high level of photographic knowledge and technical skills within the photographic industry. Alternatively many students choose to continue with further study and advance into year two of our BA in Photographic Media. The first semester focuses primarily on the technical and historical aspects of photography. Students will build competence and confidence in the usage of camera controls and darkroom techniques, providing with a sound understanding of light and exposure. Having grasped camera techniques and exposure in semester one, students will then move into studio lighting techniques, most notably learning how to light for portraits and still life commercial purposes.

Overview of Equipment

We provide a range of equipment for students to avail of in order to complete their course work. We have a number of digital cameras and have recently added full frame SLR's to our inventory. Cert students who wish to progress on to year two of the degree can make full use of our large format cameras; which can be used in our studios or taken on location. Students may also borrow flashes, lenses, medium format cameras and tripods and more besides from our technicians. Students work and mingle in our print finishing room which has iMac's colour calibrated to two Epson Stylus Pro 4900's.

Progression and Careers

Graduates of this course may advance to further study at degree level and can enter directly into stage II of our BA in Photographic Media. A number graduates have successfully set up their own studios and are actively gaining work in the commercial and social genres of the industry, whilst most prefer to continue their studies and benefit from gaining a recognised qualification after one year.

Course Content

- Photographic Techniques
- Practical Photography
- Ways of Seeing
- Research & Writing Skills
- Digital Photography
- Applied Photography
- History of Art & Photography

Why Study With Us?

- We have expert photography staff with decades of industry and teaching experience who create a stimulating learning environment.
- We offer a welcoming and collegiate learning experience.
- The CERT in Photography is a great building block and platform to the BA in Photographic Media.
- We encourage and support our students both in the classroom through participative critique sessions, workshops and by publishing student and graduate work online.
- We have great industry links; opportunities arise during the course for our students to gain real-world experience and network.

Success

Recent students have won prestigious photographic awards, including one of our Cert students who was selected for the RDS Visual Arts Award. This particular piece of work sold three times at the exhibition.

Certificate in Music Production for Games

(delivered in association with Windmill Lane Recording Studios and Pulse College)

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 1 YEAR
AWARD LEVEL: LEVEL 6
VALIDATED BY: QQI

About the Course

With the continued growth of the games industry in Ireland, Griffith College, in partnership with Windmill Lane Recording Studios (WLRS), deliver a Certificate in Music Production For Games programme, designed to give you the very best foundation for entry into this booming industry. Learners will benefit from an unrivalled opportunity to rapidly advance their academic training at Griffith College, while gaining hands-on experience in the leading commercial environment of Windmill Lane Recording Studios. The one-year programme embraces learners from a variety of musical backgrounds. Focus will be on developing creative strategies by underpinning practical and theoretical knowledge of games music production techniques through creative assignments and industry relevant projects. By studying game development and game interactivity, learners gain a deep understanding of how games are created and the crucial role music plays in modern day games.

The programme features production skills, composing techniques, recording techniques, sequencing, sampling and sound processing. As part of the programme, learners will be prepared for professional industry certification from Avid Pro Tools and Apple Logic Pro. Such accreditation is currently recognised as a prerequisite for employment within industry.

Careers

The skills gained throughout this course will allow you to move into a variety of careers within the creative industries, including music and audio production for games and other visual media formats. This versatile and imaginative course, taught by industry professionals, can develop students' potential to the full. At the end of the programme, you will have built up an extensive portfolio demonstrating expert technical, artistic and professional abilities, giving you the cutting edge needed to gain employment in this exciting and varied industry.

BA (Hons) in Music Production

(delivered in association with Windmill Lane Recording Studios and Pulse College)

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 3 YEARS**
AWARD LEVEL: **LEVEL 8**
VALIDATED BY: **QQI**

About the Course

Griffith College is delighted to announce its partnership with Windmill Lane Recording Studios, to jointly deliver an honours BA in Music Production. The GC/WLRS programme has been designed by music industry professionals and provides a uniquely relevant career development path for music producers.

For over 30 years, Windmill Lane Recording Studios has been host to international clients such as U2, Lady GaGa, The Script and The Kings of Leon. Its iconic Studio 1 has recorded soundtracks for The Mask, Mission Impossible, Riverdance, Lord of the Dance and World of Warcraft. This powerful collaboration between GC and WLRS gives those who undertake the BA (Hons) in Music Production an unrivalled opportunity to combine their academic development with direct professional recording experience in a leading commercial environment.

The programme provides students with an advanced understanding of music and sound and its manipulation. Lab, studio and recording training provides students with detailed competencies in relation to the professional application and management of music technology, studio recording and live sound. Students also gain an in-depth understanding of how the music industry is operated and controlled.

This programme embraces learners from a variety of musical backgrounds who are looking to broaden their knowledge and skills base. Our hands-on approach gives students the opportunity to direct their studies into areas of personal interest and professional relevance. This personalised development of the students' creative strategies and theoretical knowledge is achieved through creative individual and group assignments and exciting projects.

A distinctive feature of this programme is that students earn an additional 30 ECTS credits of their honours degree programme while working with professional clients in the studio environment. This accreditation of industry standard practical applications provides a more holistic and systematic approach to learning and ensures that our graduates have the expertise required for the cutting-edge, creative media workforce of the future.

Progression

Successful graduates of this programme are eligible to be considered for entry in to a masters degree. Your specialist skills and knowledge will enable you to find employment within music recording, postproduction, live sound, TV studios, film, gaming and animation production companies, sound design for the web and multimedia. In addition to this, graduates will have the required business skills necessary to start their own freelance practices.

Careers

Graduates from WLRS's previous undergraduate programmes have found employment in a variety of sectors within music industry. Some of the many great artists or facilities past pupils have worked with are: Prince, Kings of Leon, 50 Cent, Snoop Dog, U2, REM, Kylie Minogue, Windmill Pictures, Brown Bag, Ardmore Studios, RTÉ, FM104, TV3, RTÉ Radio, The Apprentice, Masterchef, Little Britain, Rivercottage, Harry Potter, Casino Royale, MTV, X-Factor, The Voice, Slane, Oxygen, O2, Electric Picnic, Riverdance and Lord of the Dance.

Course Content

STAGE 1

Music Technology 1, Applications Technology, Recording Studio Principles, The Music Industry, Applications of Music Theory 1, Explorations in Music, History of Music Production, The Music Industry, Critical Listening And Audio Analysis

STAGE 2

Music Technology 2, Music & Image, Sound Design, Applications Of Music Theory 2, Music Production & Recording 1, Research Methods, Sound for Performance, Business of Digital Media, Professional Client Project 1 (summer)

STAGE 3

Dissertation, Music Production And Recording 2 Composition For Visual Media, Mixing, Remixing And Mastering, Professional Practice, Studio Design And Installation, Professional Client Project 2 (summer)

Programme modules and content are subject to ongoing quality assurance reviews and evolve to reflect emerging educational and industry developments.

BA (Hons) in Audio & Music Technology

(delivered in association with Windmill Lane Recording Studios and Pulse College)

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 3 YEARS
AWARD LEVEL: LEVEL 8
VALIDATED BY: QQI

Griffith College is very excited to partner with Pulse College to deliver this brand new, unique and industry focused BA (Hons) in Audio and Music Technology program. Recording studios, Live Venues, TV, Post-Production, Live Performance – it has become an audio industry essential to be skilled in array of disciplines.

It is with these various industry disciplines in mind that we have designed a new BA (Hons) in Audio & Music Technology Programme. Aimed at musicians, DJ's, computer music hobbyists, and general lovers of music, this programme will train you with skills required for to succeed as a modern day Audio Professional.

About the Course

We will teach you how to record and produce music both in the home studio and in large recording studios. You will learn about live sound from both a performance and technical perspective.

The modern "studio engineer" can record, mix and master audio, but also help produce. Whether it is programming drum parts or string sections or even being on stage, performing with a band.

Please note you do not need to be a musician to be accepted onto this course but someone who is passionate and enthusiastic for all things music.

Our students will be trained in Windmill Lane Recording studios and will also be required to put on live shows and performances throughout out the duration of the course.

Why Study Music Technology at Griffith College;

- This course is taught by passionate Industry Professionals
- Students will have access to State of the Art Facilities
- including access to the iconic Windmill Lane Recording Studios
- The curriculum is taught to international industry standard
- Guest Industry talks and lecturers
- Use of industry relevant software applications
- Apple Logic Pro Certified Centre and Avid Pro Tools Centre
- 24 hour studio access

Course Content

STAGE 1

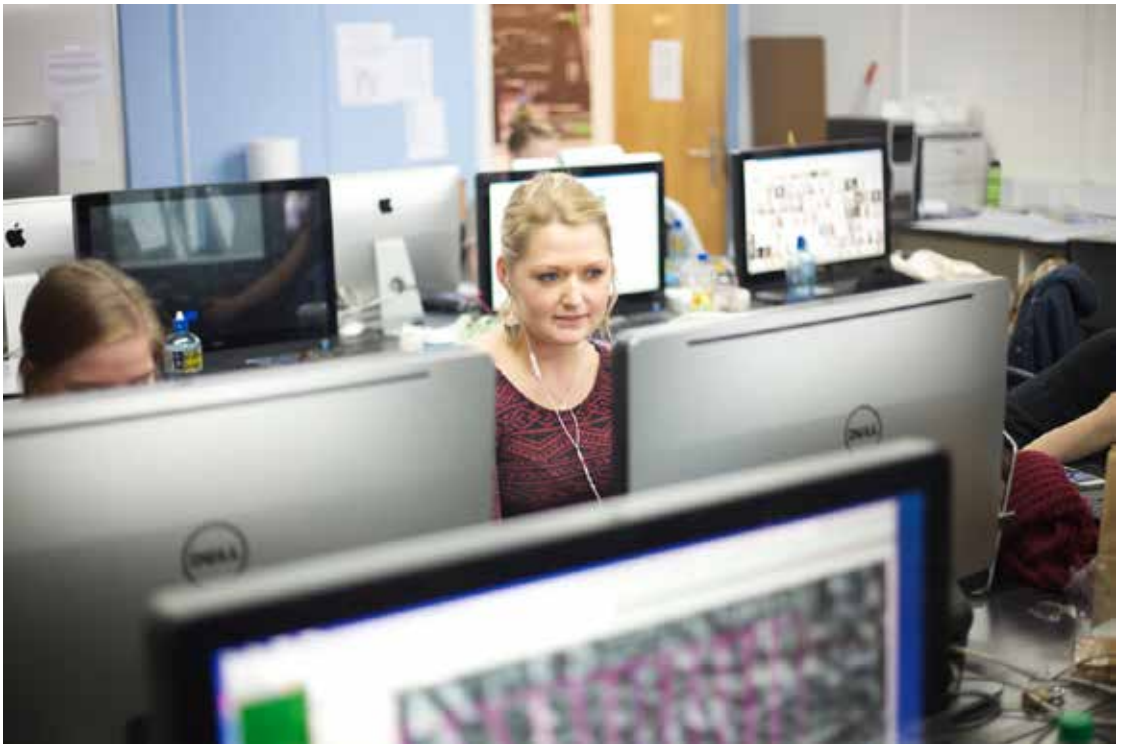

Music technology 1, Applications Technology 1, Recording Studio Principles, Music for Producers 1, Live Music & Performance Technology 1, Computer Basics for A.V. Workstations, Sound Reinforcement 1, Sound Design & Foley FX, Online Portfolio (summer).

STAGE 2

Music Technology 2, Applications Technology 2, Music for Producers 2, Recording and Mixing 1, Live Music & Performance Technology 2, Research & Presentation, Sound Reinforcement 2, Sound Design & Creative Processing, Client Project 1 (summer).

STAGE 3

Dissertation by Practice, Mixing & Mastering, Professional Practice, Studio Design & Setup, Recording & Mixing 2, Audio Post Production Techniques, Sound Design for Games, Client Project 2 (summer).

[About Us](#)

[Latest News](#)

[How to Apply](#)

The Best Bits of Griffith Design

Griffith College offers a selection of courses for those seeking a career in Design. Our reputation is highly regarded within Industry and our graduates are actively sought after by employers upon completing the Programmes.

Industry Recognition

We maintain an outstanding reputation and create graduate designers who have strong creative, technology and business skills that are industry ready. Our alumni have careers with brands and employers such as Anna Sui, Avoca, Dunne's, Gareth Pugh, Mariana Junkman, Esquire Footwear NYC, IDOL Magazine, Primark, Reiss, Rick Owens, Simone Rocha, Styltex and Vivienne Westwood, Henry J Lyons Architects, Design Squared, RKD Architects, O'Donnell O'Neill Design.

Our students work on live projects set by companies and organisations such as Avoca, Arnotts, Heaton's, Lectra, Dublin City Council, St Luke's Hospital Rathgar.

Our programmes are recognized by the European Council of Architects (ECIA) and the IDI (the Institute of Designers in Ireland). The Design Faculty is a member of the International Design Education Assembly, Cumulus, IE (Interior Educators) the UK based association of Educators for the Interiors industry and Lectra's Educational Partnership programme.

Awards

The caliber of work produced by the Design Faculty has been recognized numerous times through industry awards and exhibitions. Design students have won many prestigious design awards and commissions.

- DCU Young Designer of the Year Award
- Dublin Fashion Festival Young Designer of The Year
- Frankfurt Style Award
- Golden Egg Fashion Innovation Award
- IDI Graduate Award

- Kerry Fashion Week Young Fashion Designer of the Year
- Mercedes-Benz Designer of the Year
- Ryanair Uniforms Emma Collopy
- Nissan Generation Next UCD Young Designer of the Year
- Triumph Inspiration Online Voting Award
- Vodafone DIT Student Design Award
- World Expo Shanghai Exhibitors

Industry Links

The Design Faculty ensures programmes and teaching methodology remain relevant as both staff and the lecturing teams are accomplished practicing designers, architects, buyers, business professionals, marketers and art historians. To ensure we are meeting the current needs of the industry and following best practice, our courses are regularly reviewed by industry professionals and we respond to the changing requirements of Industry in a fast and fluid manner. Industry Professionals are regularly invited to give guest lectures and participate in award year critiques.

Fashion, Interior Design and Architecture Internships

Interior Design students have also secured internships and full-time positions with HJ Lyons Architects, O'Donnell O'Neill Design, HKR in Ireland as well as Norman Foster in London and Jonathan Adler N.Y.C. Fashion Design students have been awarded internships at Avoca, Caroline Kilkenny, Dunnes, Fiji, Heaton's, Helen Cody, Helen McAlinden, Jennifer Rothwell, Joanne Hynes, Liz Quin, Louis Copeland, Penney's, Percival and Styltex.

Field Trips

Experiential learning is an important part of our courses, with most modules having class trips as a part of their curriculum. Every year the faculty travels internationally and nationally to places with both current and historical design importance. Previous trips have included London, Rome, Milan, Berlin, Paris, Bilbao, Barcelona and Venice.

Press and Industry Exhibition

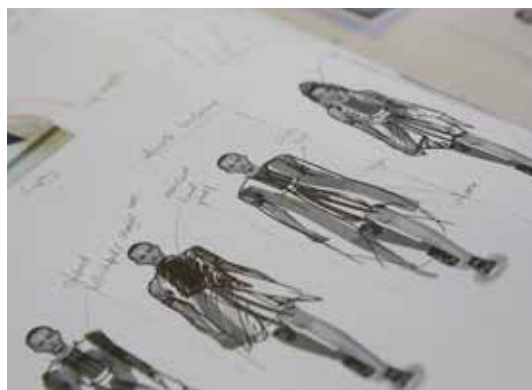

The annual Creative showcase in May, is a platform for the promotion of our talented young designers and their work. This exciting exhibition is launched with a Press and Industry Event, which affords our graduates the opportunity to meet employers and buyers. Guests are given a unique insight into the inspiration of the creative work of the Fashion Design graduates, allowing the photographers, stylists, and media to take a glimpse at the look books and meet the new talented emerging designer. The event bridges the gap between graduation and employment and offers employment, internships and media opportunities. The event has featured on TV3's Exposé and in local and national media.

What Sets Us Apart

At Griffith College Faculty of Design, the curriculum includes Creative Design, Technology and Business. We consider these to be inextricably intertwined. Our graduates are extremely well equipped to think commercially and creatively in their future careers. The programme has been developed to meet current and emerging career opportunities within the Design industry. It also provides a platform for the learner to consider an entrepreneurial venture as a young start-up brand.

All our Design programmes embrace:

- Creativity
- Innovation
- Experimentation
- Realisation
- Digital Technology Skills
- Practical Business and Marketing Skills
- Applied Project Work

LEVEL 8

QQI

About the Course

The BA (Hons) in Fashion Design (Level 8) degree is a full-time, 3-year programme of study. This course covers all aspects of the fashion industry, though the main focus is on design and creativity it is supported with business and professional practice skills, including brand and marketing. As students gain experience with the latest fashion illustration and computer aided design (CAD), skills such as traditional tailoring, drape and embellishment techniques are developed. This ensures our graduates have the most current skills required to be successful in the Fashion industry.

Students explore a personal design direction – from idea generation, design development and pattern creation through to garment construction using contemporary production techniques. The programme reflects the changes taking place in the fashion industry, recognising that traditional manufacturing bases have been relocated to low cost economics. Our course has responded to this need with a comprehensive syllabus offering training in the most up-to-date CAD pattern and manufacturing [CAM] technology.

Our graduates are prepared for employment as fashion designers liaising with offshore production facilities, buyers, trend forecasters, visual merchandisers, or any other role that requires the application of creative design supported by technical and business knowledge.

Progression

Holders of this qualification may wish to pursue postgraduate study. Students who successfully graduate from Griffith College can choose postgraduate study options which include specialist areas of study leading to a Master of Arts award.

Careers

Graduates typically find employment in the following career areas: Fashion Design, Fashion Illustration, Pattern Cutting, Fashion Forecasting, Costume Design, Fashion Buying, Fashion Journalism, Brand and Marketing, Fashion Styling, Image Consulting, Production Supervision, Garment Quality Control, Fabric & Trim Purchasing, Fashion Business

Course Content

STAGE 1

Fashion Design 1, Garment Construction 1, Design Graphics 1, The Business of Fashion, Contextual Studies for Fashion, Fashion Design 2, Garment Construction 2, Design Graphics 2, Textile Theory, Design Culture & Theory

STAGE 2

Fashion Design 3, Garment Construction 3, Design Futures, Fashion Illustration, Brand and Marketing Fashion Design 4, Garment Construction 4, Digital Fashion Portfolio 1, Photography and Video Entrepreneurship & Business

STAGE 3

Fashion Design 5, Garment Construction 5 Digital CAD Pattern, Business Planning for Creatives (Elective), Thesis (Elective), Fashion Design 6 Garment Construction 6, Digital CAD & CAM Pattern Digital Fashion Portfolio 2

LEVEL 8

About the course

The BA (Hons) Visual Communication Design degree is a full-time, 3-year programme of study. Visual Communication is one of the most rapidly changing design disciplines, demanding that the graphic designer continuously responds with creativity and ingenuity to the demands of a visually literate public whose expectations of what is possible continue to rise higher and higher. It is a continuous challenge to the designer to create innovative visual imagery. Visual Communication also offers students an opportunity to study modules in business and marketing.

Our programme allows students to investigate up-to-the-minute tools and trends of the trade, including introductory and advanced web design, while receiving a solid foundation in the traditional practices and concepts of graphic design. Applicants to this programme should be interested in words, pictures, ideas, problem solving, consumer culture, and business and marketing. They will need to be enthusiastic and be able to adapt to an ever-changing industry. Students will learn to engage with exciting design challenges, react to a rapidly changing industry and to develop as sensitive and intelligent designers who understand business and target markets, trends, and consumer culture.

Progression

Holders of this qualification may wish to pursue postgraduate study. Students who successfully graduate from Griffith College can choose postgraduate study options which include specialist areas of study leading to Master of Arts award disciplines.

Careers

Graduates can work in a variety of areas such as: Design Consultancies, Graphic Design (branding, corporate design, identity, packaging), Design thinking, Advertising and Art direction, Web design, Multimedia & Interactive Media (games, DVDs, software applications), Broadcasting, Motion Graphics and Post-production for TV and film, Illustration and Photography, Exhibition and Environmental Design, Publishing and Promotional industries, Private practice.

Course Content

STAGE 1

Communication Design 1, Typography 1, Design Graphics 1, Illustration 1, Contextual Studies for Visual Communication, Communication Design 2, Advertising and Editorial Photography, Design Graphics 2, Illustration 2, Design Culture & Theory

STAGE 2

Communication Design 3, Typography 2, Design Futures, Web Design, Brand and Marketing, Communication Design 4, Interaction Design, Photography and Video, Entrepreneurship & Business

STAGE 3

Communication Design 5, Advanced Web Design, Motion Graphics, Business Planning for Creative's (E), Thesis (E), Major Project & Exhibition, Professional Practice & Portfolio

About the Course

The honor's degree programme has been designed in response to an increased demand from industry for honor's degree level employees with specific skills relating to Interior Architecture including spatial planning; design detailing, technologies, problem solving and visualisation techniques and presentation skills.

Students are required to take part in in-depth research, apply knowledge of building technology and regulations, organise and manage project solutions, and communicate their designs using digital design programmes. Graduates of this programme leave with extensive experience in creating, analysing and interpreting project briefs. They will be able to problem solve complex design issues and work independently and in groups to find solutions.

They will leave with advanced skills in space planning; design detailing, materials selection and specification. They will gain insight into the social implications of design and understand at a deeper level how design and community interact in the real world. This programme is validated by the European Council of Interior Architects (ECIA) and the Institute of Designers in Ireland (IDI).

Progression

Holders of this qualification may wish to pursue a postgraduate diploma or master's programme in Interior Architecture or related disciplines.

Careers

Interior Architecture, Interior Design, Set up own Practice, Film and Set Design, Retail Design/Store

planning, Hospitality Design, Executive Healthcare, Project Management, Purchasing and Acquisitions, Corporate In house Design Consultant, Local Authority Architecture Division, Property Developing, Presentation and Communications Agencies, Branding and Design Development, 3D visual Presenter/stills walk-through, Interior Stylist, Cad Technician, Materials Consultant, Exhibition Designer

Course Content

STAGE 1

Interior Spatial Projects 1, Design Graphics 1, Architectural Drafting, History of Interior Design, Ergonomics and, Anthropometrics, Interior Spatial Projects 2 , Computer Aided Design, Building Regulations, Materials and Finishes, Design Culture and Theory

STAGE 2

Interior Spatial Projects 3, Introduction BIM, Furniture & Fittings, Visual Culture & Theory 2, Brand & Marketing, Interior Spatial Projects 4, BIM 3D Modelling, Building Construction, Lighting Design, Entrepreneurship & Business.

About the Course

The purpose of this award is to equip a student with the knowledge, skill and competence to develop an analytical and methodical approach to designing and developing designs. It is also to introduce a student to a broad range of design disciplines before choosing their pathway in Interior Design/ Architecture, Fashion & Textiles, Graphic design & Illustration and Animation. It also allows students a pathway onto a level 8 award within the Design faculty.

The key abilities which contribute to successful individual participation on the course have been identified as: creativity in design; competence in communication in a variety of media; an ability to draw; technical understanding; and organisation. Candidates are expected to have a keen interest in: the cultural and social factors in design; creative expression and innovation; and to have a capacity for both independent work and teamwork.

Progression

Students who complete this course can progress onto year one of the BA (Hons) in Fashion Design, the BA (Hons) in Interior Architecture, BA (Hons) in Animation or the BA (Hons) in Visual Communications Design.

Course Content

Semester I:

Creative Studio Projects 1, 2D Free Hand Drawing Techniques, Digital Design Tools 1, Design Principles.

Semester II:

Creative Studio Projects 2, 3D Free Hand Drawing Techniques, Digital Design Tools 2, Visual Culture & Theory.

LEVEL 6

QQI

About the Course

This two year diploma can be taken as a full-time or evening access course. Students may apply for the course who have indicated a desire to enter the profession but who may not have had exposure or enjoy a related background. Students are immediately engaged with the principles of design; they pursue various communication techniques allowing them to present their work in a clear and confident manner. Created to meet current best practice in industry, modules in branding and visual merchandising now complement those of building regulations, health and safety, and furniture and lighting design.

Graduates will have the skills to produce creative and technically proficient interior designs, which may be explained digitally, by hand or in 3 dimensions. Those who complete the two year diploma are prepared to continue on in their studies or to seek employment in the interior design industry with a view to setting up their own business.

Progression

The Diploma in Interior Design is a stepping stone to further study or a goal in itself. The first two years resulting in a Diploma in Interior Design are common taught to the BA in Interior Design (Level 7). Upon successful completion of Year 2, students may proceed directly to Year 3 of the Level 7 course. If they wish to continue after successfully completing their Level 7 degree, they may apply for entry onto the fourth year of the BA (Hons) Interior Architecture course. This diploma is validated by Griffith College Dublin and is recognised by the Institute of Designers in Ireland (the IDI). Students who successfully complete the diploma may apply for Associate Membership. All individual modules on the programme are also individually certified by QQI.

Careers

Interior Designer, Interior Decorator, Film and Set Design, Retail Design, Hospitality Design, Domestic Design, Interior Stylist, Draughts person

BA in Animation

(delivered in association with Windmill Lane Recording Studios and Pulse College)

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 3 YEARS
AWARD LEVEL: LEVEL 7
VALIDATED BY: QQI

Griffith college is very excited to partner with Pulse College to deliver this brand new, unique and industry focused BA in Animation.

The course is developed and taught by practising industry professionals to ensure that you receive the very highest levels of training. A key part of the course involves producing a portfolio of work that will help you get into the exciting and growing animation industry, both in Ireland and internationally.

Studying at Griffith College will introduce you to valuable, professional workflows, and teach you all aspects of the animation pipeline, from concept through to post-production. Practical experience is as essential element of our unique programme.

There are 20 hours per week in class, Monday to Friday, with study spaces and extra tutoring available to practise and refine your skills.

About the Course

This course covers the full range of topics, from Life Drawing, to Storyboarding, Narrative and Storytelling, 3D Character Modeling, Texturing, Rigging and Animation, Animating for Games, Sequential Art and Comic Books, and Audio Production. A key aspect of this course is to produce a portfolio of work over the duration of this course that will help you to break into the dynamic and creative animation industry.

During the course, you will learn about:

- Animating in both 2D and 3D
- Character design and development
- How to add colour and texture to 3D Models
- Creating a skeleton to move your characters
- Making your character move
- Developing storyboards for animation
- Camera and lighting effects, and compositing and editing
- Life Drawing
- Comic Books and Sequential Art
- Modelling and Animation for Video Games

Course Content

STAGE 1

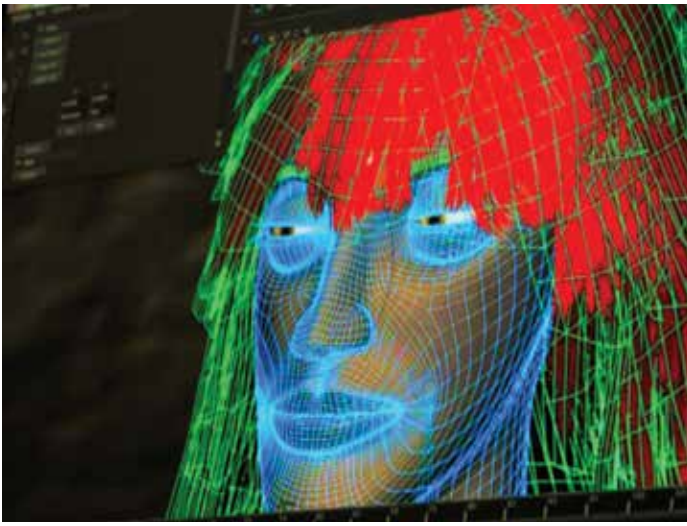

Animation History and Theory, 3D Animation Studio 1, Life Drawing, Visual Culture and Theory 1, 2D Animation Studio 1, 3D Animation Studio 2, Storyboarding and Layout, Texturing and Unwrapping.

STAGE 2

Animation Studio 3, Life Drawing for Animation, Visual Culture and Theory 2, Brand and Marketing, Animation Studio 4, Narrative and Storytelling, Sequential Art Design and Production, Entrepreneurship and Business.

STAGE 3

Animation Studio 5, Videogames Tools and Environments, Audio Production, Major Project, Research and Critical Evaluation.

[About Us](#)

[Latest News](#)

[How to Apply](#)

Best Bits of Pharmaceutical Science

Established in 2009, based on an extensive network of manufacturing, scientific and business experience, the Griffith Innopharma Faculty of Pharmaceutical Science provides a unique set of skills to upskill and educate students into roles in these highly significant industries.

All Griffith Innopharma programmes lead to accredited awards with each programme providing strong scientific content, practical application, business context and professional development.

With 19 of the world's top 20 pharma companies in Ireland and 5 out of 8 of the world's top selling drugs produced in Ireland, it is the largest net exporter of pharmaceuticals. 18 of the world's top 25 medtech companies also have a base in Ireland. Together the pharma and medtech industries employ over 50,000 people in Ireland and are expected to enjoy strong growth in the coming years.

Many leading contract research organisations (CRO's) have significant operations here in Ireland and is recognised as a location for world-class provision of quality clinical research whether in the provision of specialised areas of expertise or as part of a region in multi-national trials. Many thousands are employed in the provision of clinical trial expertise in Ireland.

My background was in Technical/Engineering manufacturing support. I thought the course was excellent and well organised, the teachers and staff were continuously helpful and the content was excellent and extremely industry focused. I found it was insightful from the regulatory side of the Pharmaceutical business and it helped me understand the need and reasons why this business needs employees with specific skill sets. I have now completed the Level 7 BA in Pharmaceutical Business Operations and I have started working in Pfizer Bio Pharmaceutical Grange Castle as a process technician in a harvesting process environment.

**Dermot Dodd
BA in Pharmaceutical Business Operations**

Griffith Innopharma Faculty of Pharmaceutical Science

Offering unique industry-led programmes for pharma, medtech and food industries, delivered by industry experts with flexible learning options.

Innopharma College of Applied Sciences is the award-winning, premier education research and technology institute for industry led education and training programmes in the Pharmaceutical, MedTech and Food industries.

Innopharma College of Applied Sciences has grown to become one of the top institutions in Ireland delivering world recognised qualifications up to Masters' degree level. All our education programmes are developed with your career advancement in mind – consisting of a unique blend of industry focused modules and practical workshops. Many of our lecturers have extensive experience in industry and engage in a high level of coaching and mentoring with students. Innopharma College of Applied Sciences programmes, are the number one choice for graduates and experienced professionals seeking to upskill and advance their careers in the Pharmaceutical, MedTech and Food sectors.

DELIVERY: CLASSROOM / BROADCAST LIVE

THIS IS A TWO SEMESTER PROGRAMME DELIVERED TWO EVENINGS PER WEEK AND ONE SATURDAY PER MONTH

About the course

This ten month programme will focus on core competencies such as Pharmaceutical Manufacturing & Distribution, Quality Management Systems, Strategic Management, Clinical Research Co-ordination, Project Planning and Finance, and Professional & Technical Communication.

All classes are broadcast live using an online training platform, offering the learners the opportunity to either physically attend or join the class online. All classes are recorded also allowing learners the opportunity to view later and support revision.

Online learning and support will be provided through the use of Moodle. Extensive coaching and mentoring workshops will be provided with specific focus on individual assessment and improvement.

A substantial focus of the programme will also develop the professional skills of the graduate to enhance their career opportunities through development of their CV's, interview skills, and their networking, presentation and communication skills.

Progression

The options for further study upon successful completion of this course could include progression to the following Master's programmes,

- MSc in Pharmaceutical Business & Technology
- PGDip in Medical Device Technology & Business
- MSc in Pharmaceutical Data Analytics*
- MSc in Medical Device Technology & Business*

* subject to validation

Careers

Potential Roles include; Manufacturing Supervisor/ Manager, Supply Chain Planner, Clinical Trials Co-ordinator, Business Development Specialist, Lean and Six Sigma Specialist, Compliance Specialist, Process Improvement Specialist, Project Co-ordinator, Pharmaceutical Operations.

Course Entry Requirements

The primary target audience are those with a minimum qualification of Certificate at NFQ Level 7 or higher in Science, Engineering, Quality or related discipline.

Course Content

- Pharmaceutical Quality Management Systems
- Clinical Research
- Pharmaceutical Manufacturing & Distribution
- Project Planning & Finance
- Strategic Management
- Professional & Technical Communications

Best bits of Griffith Engineering

Why Griffith College?

- Excellent reputation
- Industry links
- Only college offering an Industrial Engineering Degree in Ireland
- Smaller classes guarantee individualised attention
- Delivered in Dublin and Limerick campus

Industry Recognition

This course was developed by IISE (Institute of Industrial and Systems Engineering) with Griffith College. There was extensive research into the requirements for Industrial Engineering within the industry. It was also developed with some of our partners in the Industry (Intel, ESB, Syker, Amazon and others).

Griffith College Limerick B.Eng. Graduates 2017

“This degree is designed to prepare learners for a functional industrial engineering role. To facilitate making the best use of resources, they will be equipped to systematically record and critically examine existing and proposed methods of performing work and to make decisions concerning the best use of people, material, equipment and energy in achieving organizational goals.

These are critical skills, especially where resources are scarce. In summary this degree is designed to equip engineers with key skills that will allow them to improve the efficiency, productivity and profitability of their organisations.”

**President of IISE
Jim O’Sullivan**

LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: 1 YEAR PART-TIME
AWARD LEVEL: LEVEL 7
VALIDATED BY: QQI

About the course

The QQI Level 7 Bachelor of Engineering (B.Eng) in Industrial Engineering is available on a part-time basis with a work friendly schedule. The course aims to teach participants how to analyse and improve any business processes and determine the best use of resources. It prepares the learner to meet the growing demands and complexities of modern-day organisations. It provides the key competences in the area of Industrial Engineering. These skills are vital in the effective management and efficient organization of all national and international organisations. Industrial Engineering encompasses the management skills needed for strategic planning, to protect and advance the objectives of the organisation. Graduates can also be employed as manufacturing, process, product, QA, and sustaining engineers. Industrial engineers are prime sources of management talent.

Career Progression

Graduates of the B.Eng. in Industrial Engineering will have a good basis for professional progression in all areas of management including engineering. There is currently a need for skilled industrial engineers across all industries, in manufacturing (traditional and modern), and services as well as in banking, transportation, consultancy, distribution services, the health sector, military and other areas of government.

Academic Progression

Graduates of the B.Eng may be considered eligible to join related Level 8 programmes, such as Engineering and Business, depending on their particular combination of qualifications, experience and suitability.

Module Content

- Industrial Engineering Principles and Work System Design
- Statistics
- Continuous Improvement Engineering and ix Sigma
- Industrial Engineering Project Management
- Professional Practice
- Industrial Engineering Finances
- Emerging Technologies
- Logistics and Supply Chain Management
- Environment and Sustainability
- Industrial Engineering Project
- Bridging Module: Work Methods & Measurement

Entry Requirements

Students must fulfil one of the following criteria:

1. 120 ECT's in Engineering discipline and related STEM studies
2. Full completion of craft apprenticeship
3. Extensive industry experience and relevant achievements

“This course transformed my career and my learning potential immediately upon completion. I started with the Level 6 in Limerick and progressed onto the Level 7. It was offered in a work friendly schedule that facilitated a work-life balance. Griffith College was a great place to study and the lecturers had substantial practical experience in their field of expertise.”

Patrick Geary

Best Bits of Graduate Business School

Flexible Study and Extensive Support

A flexible study model gives students the option of either full-time or part-time study with class size, structure and assessment tailored to each individual module. The Graduate Business School operates an open door policy and students feel comfortable approaching the team directly. The courses also include innovative teaching methods including business simulation games, in-class technology such as Padlet, Kahoot! and extensive online supports, including remote dissertation supervision through the use of Zoom.

Practical Industry Links

A highly practical learning approach taught by a Graduate Business School lecturing team with outstanding industry experience. Many assignments will require working directly with real client companies and engaging with industry leaders. The extensive education offered within the variety of courses available at the Graduate Business School have seen some of our most recent graduates go on to receive positions in major multinational companies including Accenture, PayPal, FedEx, Unilever, and WebSummit to name a few.

Plug into the Griffith Alumni Network to connect with and receive mentoring from our successful past students or avail of the many opportunities arising from our Industry Network seminars and guest speakers.

International Diversity

Complete your international business postgraduate education immersed in a truly diverse cultural environment. The Graduate Business School welcomes students from all over the world with over twenty different nationalities in any one group of students. Our group work policy ensures teamwork exposes you to a rich mix of backgrounds, experience and skill sets.

Accreditation of Prior Learning Experience (APL/APEL)

Opportunity for students with previous academic studies at Masters level in a Business/Management discipline to apply for APL exemption to a maximum 30 ECTS.

“The cultural mix in this college is just fascinating. I felt like I had the opportunity to travel the world in only a few seconds. The amount of things you learn from others is just amazing but the amount of things you learn about yourself thanks to these people is even more incredible.”

COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
FRAMEWORK LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

About the Course

The MSc in International Business Management is ideal for those who have a strong interest in international business management across a variety of industries and business settings, who wish to develop a wide range of skills and competencies required to function effectively when doing business across borders. Students hone personal and interpersonal skills, while deepening specialised knowledge to gauge and judge the potential impact of relevant global influences and drivers, whether it be technological, economic or political changes within international business practices.

The course is completed over a one year full time, or two year part time mode. It is also possible for part time students to spread the modules over a longer period of time, which can be structured individually for you following a meeting with the Programme Director.

Students will advance their research and business communication skills, and make a significant contribution to a chosen field of international business through the completion of a research dissertation.

Course Content

Core Modules

- Managerial Finance
- International Strategy
- Research Methods
- Strategic Human Resource Management
- Global Marketing
- Leadership and Management Development
- Responsible Business Management
- Entrepreneurial Innovation
- Managerial Economics

Elective Modules [Choose one]

- Digital Business
- Regional Analysis
- Strategic Procurement and Supply Management
- Global Marketing Methods and Mindsets

Upon successful completion of the taught modules, students complete a dissertation with a credit volume of 30 ECTS.

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H22 level, in a business related discipline or equivalent qualification from an approved tertiary/or professional institution. Non-business graduates or candidates with substantial work experience may apply but will be subject to interview.

Opportunities and Career Development

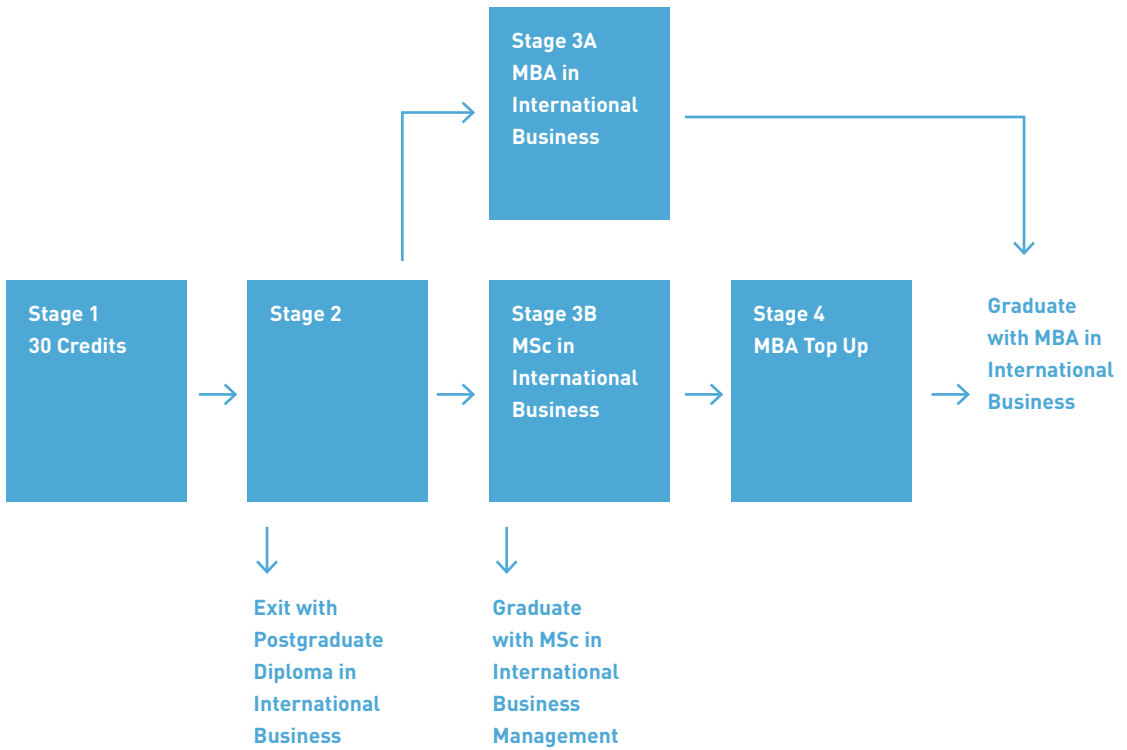

The Graduate Business School lecturing team includes practitioners from a wide range of industries. These lecturers bring their expertise to the classroom and offer insights to students of a practical and applied nature. There is also extensive use of the Faculty's industry network to provide opportunities for students to engage with companies through their project work, research and through guest lecturing seminars.

Evidence of employment opportunities from the programme is reflected in the industry positions filled by the Faculty's recent graduates and the positive responses from employers. Employment rates three months after graduation are near 100%, with recently surveyed graduates strongly stating the programme directly benefited their career.

Griffith College has endorsed and embraced the Bologna spirit of the transfer and progression of students between institutions in different countries and in doing so, a number of close working relationships have been developed. The College's APL policies provide an opportunity for students with previous academic studies at Masters level in a Business/Management discipline to apply for exemptions to a maximum of 30 ECTS, or capitalise on our strong international network to spend a semester of your studies in a partner college.

Progression

Graduates, who attain appropriate management experience after graduation, can opt to return their MSc and “convert” to MBA award. This is facilitated through the completion of an experiential learning report, which marries the graduate’s academic achievement with their subsequent management practice.

MBA in International Business Management

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
FRAMEWORK LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

About the Course

This course is designed for managers who wish to consolidate their learning from the workplace with an award that reflects knowledge and skills in international business across a variety of industries and business settings. The programme deepens your knowledge and understanding of key areas of management through engagement with complex issues and critical and analytical approaches to international management theory and practice. You will complete advanced research of direct relevance to your organisation and/or professional career path through the execution of a dissertation that reflects an expansion of personal management competencies and contribution to a chosen field of enquiry. Through integrating postgraduate studies with your experiential learning, successful participants will gain critical analysis and self-reflection skills and embrace the importance of lifelong learning.

Course Content

Core Modules

- Managerial Finance
- International Strategy
- Research Methods
- Strategic Human Resource Management
- Global Marketing
- Leadership and Management Development
- Responsible Business Management
- Entrepreneurial Innovation
- Managerial Economics

Elective Modules [Choose one]

- Digital Business
- Regional Analysis

- Strategic Procurement and Supply Management
- Global Marketing Methods and Mindsets

Upon successful completion of the taught modules, participants integrate their postgraduate business education with managerial competencies through a practice based dissertation project with a credit volume of 30 ECTS.

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H22 level, in a business related discipline or equivalent qualification from an approved tertiary/or professional institution.

Applicants must further have at least three years management experience and demonstrate the achievement of management competencies developed through this workplace experience. This is assessed by the completion of a Management Competency Report and an interview.

Opportunities and Career Development

A MBA is a mark of achievement; it shows the world you have insights into a range of business areas. A Griffith MBA expands your ability to advance your career and earning potential, by guiding the participants through complex international business scenarios and focusing on drawing information together to extract strategic and policy implications.

Our lecturers are practicing business professionals from a wide range of business areas and we invite guest speakers to focus on honing our participants skill sets in areas such as leadership, professional development and entrepreneurship. It is interactive, with a heavy focus on building analytical skills and advancing decision-making abilities.

At dissertation stage, participants typically select a topic with direct relevance to their employer and often engage with their employer in the choice of research topic. In this way participants integrate their postgraduate business education with managerial competencies in ways that have a direct impact on their organisation or personal career objectives.

MSc in International Business Management - Global Brand Management

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 1 YEAR
FRAMEWORK LEVEL: LEVEL 9
VALIDATED BY: QQI

About the Course

The global branding specialisation within the MSc, offers students a dynamic and practical course that is highly industry focused. Throughout, students will consider many case studies of global brand expansion and examine best practice methods by studying global brand successes and fails.

Students are given a thorough grounding in current theoretical brand management concepts, marketing models, and tools, as well as new ways of analysing, assessing and developing brand strategies, campaigns and insights.

Workshops will focus on skills of the global brand manager including storyboarding, content production, developing global brand name, logos and positioning, selecting markets, storytelling and marketing channels and measuring the effectiveness of those channels. An emphasis is placed on understanding global branding best practice through critical evaluation of cases and companies. A combination of the critical analytical approach together with a practical skill-based workshop approach will provide learners with a 360 understanding of global branding in today's changing digital landscape.

Course Content

Core Modules

- Managerial Finance
- International Strategy
- Research Methods
- Strategic Human Resource Management
- Global Marketing
- Leadership and Management Development
- Interactive Storytelling
- Global Marketing Methods and Mindsets
- E-Marketing Metrics Elective

Upon successful completion of the taught modules, students complete a dissertation with a credit volume of 30 ECTS.

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H22 level, in a marketing or business related discipline, or equivalent qualification from an approved tertiary/or professional institution. Non-business graduates or candidates with substantial work experience may apply but will be subject to interview.

Opportunities and Career Development

Global Branding in the Graduate Business School encourages creativity amongst students with ideation and creative exercises to prepare for working in-house or for an agency. It offers an academic grounding to prepare graduates for the realities of brand management alongside practical sessions, which ensure work readiness. Lecturers will cover latest industry news, innovation and best in class work thus, deepening students understanding of branding.

Griffith College has endorsed and embraced the Bologna spirit of the transfer and progression of students between institutions in different countries and in doing so, a number of close working relationships have been developed. The College's APL policies provide an opportunity for students with previous academic studies at Masters level in a Business/Management discipline to apply for exemptions to a maximum of 30ECTS, or capitalise on our strong international network to spend a semester of your studies in a partner college.

MSc in International Business Management – International Business and Law

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 1 YEAR
PART-TIME 2 YEARS
FRAMEWORK LEVEL: LEVEL 9
VALIDATED BY: QQI

About the Course

The MSc in International Business and Law enables students to develop a solid grounding in the twin disciplines of international business and law. Taught by experienced practitioners and research staff in both the Graduate Business School and the Law Faculty, the programme is designed for holders of an undergraduate business or law degree. For the business graduate it offers the opportunity to gain the understanding necessary to fully participate in complex legal transactions and to anticipate and manage legal issues as they arise in the international business arena. For the law graduate it provides the basis for the acquisition and development of business acumen and to fully appreciate the influence that trade and international law issues have on management decision making and operations.

Students will advance their research and business communication skills, and make a significant contribution to a chosen field of international business through the completion of a research dissertation.

The course includes an embedded award, the Post-graduate Diploma in International Business and Law for students who wish to complete just the taught aspect of the course.

Course Content

Core Modules

- International Strategy
- Business Research Methods
- Strategic Human Resource Management
- Globalisation and Corporate Responsibility
- International Marketing Management
- International Trade Law
- Management Accounting and Control

Elective Modules

- Corporate Governance
- EU Internal Market and Competition Law
- International Financial Services Law
- International Commercial Arbitration
- International Intellectual Property Law
- International Tax Law

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H22 level, in either business or law, or equivalent qualification from an approved tertiary/or professional institution. Other candidates with substantial work experience may apply but will be subject to interview.

Opportunities and Career Development

Upon graduation, learners will be able to apply the core techniques and principles they have acquired in the field of international business management and they will have a wider understanding of the legal issues which impact on the world of international business. By combining both management and legal studies, graduates are uniquely placed to engage with the often-complex relationship between business, social change and legal environments.

Griffith College has endorsed and embraced the Bologna spirit of the transfer and progression of students between institutions in different countries and in doing so, a number of close working relationships have been developed. The College's APL policies provide an opportunity for students with previous academic studies at Masters level to apply for exemptions to a maximum of 30ECTS, or capitalise on our strong international network to spend a semester of your studies in a partner college.

Progression

Graduates, who attain appropriate management experience after graduation, can opt to return their MSc and "convert" to MBA award. This is facilitated through the completion of an experiential learning report, which marries the graduate's academic achievement with their subsequent management practice.

MSc in Accounting and Finance Management

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2.5 YEARS
FRAMEWORK LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

About the Course

The MSc in Accounting and Finance Management is aimed at Accounting and Finance graduates, with or without relevant business experience, and provides a flexible route to an internationally recognised qualification.

The MSc has three stages. The three stages, which accumulate towards the final award, are:

Stage 1 & 2

The first two stages of the programme encompass the Postgraduate Diploma, where students undertake taught modules in the core areas of;

- Accounting
- Finance
- People
- Management
- Research Lectures and Seminars

Stage 3

- MSc Research Dissertation with Individual supervision and supporting lectures and seminars.

Programme Entry Requirements

Candidates for this programme should hold a Primary Honours Degree in Accounting and/or Finance or an equivalent qualification from an approved tertiary/professional institution.

MBA Progression Option

On completion of the MSc. in Accounting and Finance Management students may choose to enrol on the MBA in International Business. The graduates may, normally within a two year period, submit, with mentor supervision, two reports based on experiential learning in the workplace. The successful completion of these reports enables them to replace their MSc. qualification with an MBA.

ACCA Progression Option

On successful completion of the programme, students may be eligible to gain exemptions from the examinations of the professional accounting bodies such as ACCA, CPA and others. Please contact the faculty for further details.

MSc in International Procurement and Supply Management

DUBLIN

LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: FULL-TIME 1 YEAR
PART-TIME 2 YEARS
FRAMEWORK LEVEL: LEVEL 9
VALIDATED BY: QQI

About the Course

The MSc in International Procurement and Supply Management is a flexible postgraduate course aimed at both professionals and full-time students. It delivers the specialist skills required for successful careers in the procurement/purchasing and supply management fields across a broad range of industries.

Students develop a proficiency in procurement and supply management while also ensuring they have a solid grounding in other critical business functions. This ensures that the students develop into well-rounded business professionals with the interpersonal skills and business acumen to communicate effectively inside as well as outside the fields of procurement and supply management.

In addition to developing practical business skills, this programme also ensures that learners have a comprehensive understanding of the global procurement and supply environment combined with a strong cultural sensitivity. The teaching and assessment approach used requires students to develop their leadership and interpersonal skills. This approach is reflective of the necessary skills required in today's industries, which focus on the delivery of procurement and supply management services.

The course includes an embedded award, the Postgraduate Diploma in International Procurement and Supply Management for students who wish to complete just the taught aspect of the course.

Course Content

- Accounting
- International Strategy
- Economics

- Business Research Methods
- Strategic Human Resource Management
- Globalisation and Corporate Responsibility
- Procurement Risk Management
- Procurement and Supply Management
- Sustainable Development
- International Marketing Management
- Management Accounting and Control
- Strategic Procurement and Supply Management
- Sustainable Procurement and Supply Management

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H22 level, in business, or equivalent qualification from an approved tertiary/or professional institution. Other candidates with substantial work experience may apply but will be subject to interview.

Opportunities and Career Development

This programme offers a unique opportunity to gain an advantage in this lucrative and growing career sector. There has been a growth in demand for procurement and supply chain management practitioners and the sector is finally recognised as a key strategic function. The importance of highly skilled purchasing staff is a significant contributor to organisational profitability.

Griffith College has endorsed and embraced the Bologna spirit of the transfer and progression of students between institutions in different countries and in doing so, a number of close working relationships have been developed. The College's APL policies provide an opportunity for students with previous academic studies at Masters level to apply for exemptions to a maximum of 30ECTS, or capitalise on our strong international network to spend a semester of your studies in a partner college.

Progression

Graduates, who attain appropriate management experience after graduation, can opt to return their MSc and "convert" to MBA award. This is facilitated through the completion of an experiential learning report, which marries the graduate's academic achievement with their subsequent management practice.

MSc in International Pharmaceutical Business Management

CORK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: 1 YEAR FULL-TIME
2.5 YEARS PART-TIME
FRAMEWORK LEVEL: LEVEL 9
VALIDATED BY: QQI

About the course

The Master of Science in International Pharmaceutical Business Management programme, QQI Level 9 on the National Framework of Qualifications, has been designed primarily for graduates with an honours undergraduate degree in either a pharmaceutical, science or business related discipline.

This internationally relevant programme is intended to prepare learners to become professionals working in the broad area of the international pharmaceutical industry, whether they are learners seeking to improve and upgrade their professional standing in, or new graduates seeking to direct their careers towards, this expanding pharmaceutical industry.

Learners will master business development and launching activities, become experts in regional management, forecasting and budgeting while broadening their knowledge about marketing, technological developments, product release and regulatory affairs in the pharmaceutical industry.

The course includes an embedded award, the Postgraduate Diploma in International Pharmaceutical Business Management for students who wish to complete just the taught aspect of the course.

Programme Structure

The Programme consists of three stages:

- Stage 1 & 2 – a two/ four semester taught stage leading to the Postgraduate Diploma in Science in International Pharmaceutical Business Management, for learners who wish to exit at that stage. (60 Credits)

- Stage 3 - a one semester dissertation-based stage, where the learners make regular contact with their dissertation supervisor, leading cumulatively to the Master of Science in International Pharmaceutical Business Management. (30 Credits)

Course Content

- International Strategy
- International Marketing Management
- Globalisation and Corporate Responsibility
- Marketing Management for Pharmaceutical Marketers
- Management Accounting and Control
- Leadership and Management Development
- Quality and Regulatory Framework in the Pharmaceutical Industry
- Business Research Methods
- Commercial and Financial Considerations in the Pharmaceutical Industry
- Business and Technology Innovation in the Pharmaceutical Industry
- International Financial Accounting

Upon successful completion of the taught modules, students complete a dissertation with a credit volume of 30 ECTS.

Entry Requirements

Candidates seeking access to the Master of Science in International Pharmaceutical Business Management programme are required to hold either:

1. A Level 8 Honours Degree, 2.2H or higher, in Pharmacy, Science or equivalent discipline.
2. A Level 8 Honours Degree, 2.2H or higher, in business or related discipline, with at least three years Pharmaceutical related industry experience.

Each candidate's application will be considered individually in accordance with the College's QQI approved quality assurance procedures. Candidates holding relevant alternative qualifications and those with related experiential learning will be considered under the College's RPL policy.

Opportunities and Career Development

Graduates of the Master of Science in International Pharmaceutical Business Management are well positioned to start, or advance, a highly attractive career in an expanding pharmaceutical industry both nationally and internationally. Graduates will have developed a deep knowledge and understanding of key areas of management including Accounting, Marketing, Strategy, Human Resources, Globalisation, Business Ethics, Business Research Methods and their inter-relationship with a focus on international pharmaceutical business. Griffith College has endorsed and embraced the Bologna spirit of the transfer and progression of students between institutions in different countries and in doing so, a number of close working relationships have been developed. The College's APL policies provide an opportunity for students with previous academic studies at Masters level to apply for exemptions to a maximum of 30ECTS

Progression

Graduates, who attain appropriate management experience after graduation, can opt to return their MSc and "convert" to MBA award. This is facilitated through the completion of an experiential learning report, which marries the graduate's academic achievement with their subsequent management practice.

LL.M. in International Law

LL.M. in International Commercial Law

LL.M. in International Human Rights Law

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR OR
PART-TIME 2 YEARS
(EVENING CLASSES)**
AWARD LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

Entry Requirements

Students must hold a 2.2 degree in law or a degree with a significant law component or foreign equivalent or relevant work experience, including having held a position of responsibility relevant to the LL.M. We welcome applications from those who do not have the entry requirements outlined here. Candidates with relevant prior experiential learning may also apply and be considered for admission, subject to interview and submission of satisfactory evidential documentation.

About the Course

The LL.M. (Master of Laws) is an internationally recognised postgraduate law degree. It is obtained by completing a one year full-time programme. It is also possible to spread the modules over two years, which can be structured individually for you following a meeting with the Programme Director. There are three LL.M. Programmes on offer at Griffith College, all of which are international in focus - a key advantage in today's globalised legal landscape.

Course Delivery

Classes are run in the evening time, typically three evenings a week. Assessment is by means of written assignments combined with examinations, and a dissertation.

Progression

On completion of the LL.M students may decide to apply to complete a PhD in Law elsewhere. Successful completion of the LL.M can open up promotion opportunities in existing employment. Completing an LL.M provides students with the skills required to work as a researcher or legal advisor with governmental departments, NGOs or businesses. Existing legal practitioners can use their LL.M. to specialise in an area of interest.

What Makes Our LL.M. Unique?

- Evening lectures suit those who are working full time
- Flexible time schedule for Programme over one or two years
- Opportunities to participate in Griffith College's Postgraduate Conference in International Law
- Opportunities to participate in international law competitions with faculty guidance and support
- Small class sizes means students receive more individual attention

Module Content

Students may tailor their degrees to suit their interests and through their subject choice they will emerge with a Masters in International Commercial Law, International Human Rights Law, or International Law.

COURSE DURATION: **FULL-TIME 1 YEAR OR
PART-TIME 2 YEARS
(EVENING CLASSES)**
AWARD LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

Entry Requirements

Students must hold a 2.2 degree in law or a degree with a significant law component or foreign equivalent or relevant work experience, including having held a position of responsibility relevant to the PG Dip. We welcome applications from those who do not have the entry requirements outlined here. Candidates with relevant prior experiential learning may also apply and be considered for admission, subject to interview and submission of satisfactory evidential documentation.

About the Course

The Postgraduate Diploma in International Law/International Human Rights Law/International Commercial Law is an internationally recognised postgraduate law degree. It is obtained by completing a one year full-time programme. It is also possible to spread the modules over two years, which can be structured individually for you following a meeting with the Programme Director. There are three types of Postgraduate Diploma in International Law on offer at Griffith College, all of which are international in focus - a key advantage in today's globalised legal landscape.

Course Delivery

Classes are run in the evening time, typically three evenings a week. Assessment is by means of written assignments combined with examinations.

This process will develop student knowledge and skills in critical analysis. This preparation will allow an exchange of ideas to develop during seminars in order to delve deeper into topics and aid the student's broader understanding. Students can choose from various electives to emerge with either a Postgraduate Diploma in Arts in International Commercial Law, International Human Rights Law, or International Law (General).

Module Content

Students may tailor their degrees to suit their interests and through their subject choice they will emerge with a Postgraduate Diploma in Arts in International Commercial Law, International Human Rights Law, or International Law (General).

Progression

On completion of the Postgraduate Diploma students may be able to go on to complete an LL.M and PhD. Successful completion of the PG Dip can open up promotion opportunities in existing employment. Completing an LL.M provides students with the skills required to work as a researcher or legal advisor with governmental departments, NGOs or businesses. Existing legal practitioners can specialise in an area of interest

What makes our Postgraduate Diploma unique?

- Evening lectures suit those who are working full time
- Flexible time schedule for Programme over one or two years
- Opportunities to participate in Postgraduate Conference in International Law
- Opportunities to participate in international law competitions with Faculty guidance and support

SEMESTER 1	SEMESTER 2
<p>Students complete two core modules,</p> <p>Public International Law Advanced Legal Research and Writing</p> <p>Students complete one elective module from;</p> <p>International Human Rights Law International Commercial Law</p>	<p>Students complete three elective modules (electives run subject to demand);</p> <p>International Asylum and Immigration Law International Children’s Rights Law International Humanitarian Law International Criminal Law Social and Economic Rights Corporate Governance EU Internal Market and Competition International Commercial Arbitration International Financial Services Law International Intellectual Property Law International Tax Law</p>

Computing Science

"I found the course to be both challenging and rewarding as it gave me the opportunity to acquire a valuable accreditation whilst enhancing my computer expertise.

The modules on the course are extremely interesting and beneficial, knowledge of which will prove useful in the IT marketplace."

MSc/ Postgraduate Diploma in Computing Science*

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
AWARD LEVEL: **LEVEL 9**
***PENDING VALIDATION**

About the Course

Computing Science plays an exciting and ever increasing role in today's society. Technological innovation has been one of the driving forces behind Ireland's rapid economic growth and this Masters programme will help you to advance that innovation. The programme extends your education and skills and prepares you for an active role in a dynamic and evolving industry. The MSc degree has been designed to give students an insight into the world of academic and industrial computing research.

By focusing on today's hot topics, students will have the opportunity to gain a deeper understanding and develop the skills necessary to carry out innovative work within one of the disciplines of computing. Students who complete this Master's degree will gain the ability to research and master technical issues, to analyse and present findings coherently, and to document their work in a professional manner.

Progression

Graduates who are successful on the MSc course are eligible to be considered for entry onto a doctoral degree.

Careers

You will find opportunities as technical applications developers and consultants, systems analysts, database administrators, network managers, communication and security experts and other leading computing science roles. Industry research and development roles in the creation of new technologies will also present themselves.

Programme Structure

Students may exit this programme with one of the following two related awards

Postgraduate Diploma in Computing Science

Students may opt to exit with this level 9 award provided they have completed the requirements of all eight taught modules covered by Semester I and Semester II.

M.Sc. in Computing Science

This is level 9 award which is awarded to students who have completed the requirements of all eight taught modules covered by Semester I and Semester II and have also completed the Dissertation / Dissertation by practice in Semester III.

Part-time Programme

This course has been designed in consultation with leading industrial partners thereby making Griffith College flexible to the personal and professional requirements of our students. The part-time programme is typically delivered over four semesters.

Course Content

Full-Time Programme

Stage 1

SEMESTER I

Research Methods, Telecommunications and Network Services, New and Emerging Technologies, Information Retrieval and Web Search

SEMESTER II

Communication Security, Concurrent and Parallel Programming, Algorithm Design and Analysis, Cloud Computing,

SEMESTER III

MSc/Postgraduate Diploma in Big Data Management and Analytics*

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
AWARD LEVEL: **LEVEL 9**
***PENDING VALIDATION**

About the Course

The programme seeks to provide graduates with the skills necessary to enable them to find employment in the I.T. sector or to proceed to obtain higher qualifications in computing. The programme learning outcomes are in accordance with those outlined by QQI for Level 9 qualifications.

The aims of the programme are to:

- Develop independent, critically-minded specialists capable of analysing industry trends and opportunities in the field of Big Data
- Enable learners to take intelligent advantage of those trends and opportunities in the field of Big Data via robust and efficient practical solutions to data storage and analysis
- Prepare graduates to rigorously apply appropriate research, design and implementation strategies in the development of Big Data solutions
- Develop analysts capable of performing in-depth, coherent, and ultimately significant reports on the state of the art and the likely future directions of the field, with respect to a problem domain
- Extend the learners' in-depth knowledge, understanding and practical skills in meeting the specific technical and design requirements of exacting industry standards as they emerge
- Deepen the learners' knowledge of supporting topics such as statistical analysis, including an in-depth understanding of the appropriateness of particular analytic models for a given task, data gathering, and Big Data algorithm design, to name a few

- Develop the skills necessary to do independent research in a professional manner
- Prepare learners who can reliably perform a range of distinct roles within group based project teams by establishing effective collaborative working relations with colleagues to achieve common goals
- Enable graduates to implement robust, scalable Big Data applications with a focus towards providing business intelligence to key industry decision makers
- Develop team-players who can reliably communicate problems, ideas and solutions to all levels of the industrial team, from computing colleagues, to administration, to senior management and beyond

Progression

Graduates who are successful on the MSc course are eligible to be considered for entry onto a doctoral degree.

Programme Structure

This programme contains eight taught modules and a final Dissertation/Dissertation by Practice. Four modules are taught per semester; so learners complete eight taught modules over two semesters and then complete a project over a period of twelve weeks. The overall programme is one calendar year long. The learners who start in September, complete taught modules by the following May and complete their projects over the summer, thus completing the entire programme within one calendar year.

MSc/Postgraduate Diploma in Network and Information Security*

LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
AWARD LEVEL: **LEVEL 9**
***PENDING VALIDATION**

About the course

This MSc in Network and Information Security aims to equip students with the necessary skills to pursue an interesting career in this specialist area.

Designed specifically to address a growing need in the industry, the MSc in Network and Information Security at Griffith College is a 1-2 year programme which aims to enable students to develop robust and efficient network security plans, strategies and solutions.

Delivered on a full and part-time basis, as a graduate of this course, you will:

- Obtain specialist knowledge and skills essential for a career in network security.
- Establish an analytical mindset necessary for independent academic and professional research.
- Gain a practical understanding of how to identify industrial requirements of computer network security and analyse security risks.
- Develop a team player attitude necessary to communicate problems, ideas and solutions to all levels of the industrial team.
- Build upon your knowledge of supporting topics in the area of network and information security.

Course Highlights

- Small class sizes
- Access to state of the art facilities
- A dedicated experienced lecturing Team
- Industry guest speakers

Academic Progression

On completion of the Level 9 MSc in Network and Information Security, students may progress onto a range of Level 10 Doctoral programmes on the National Qualifications Framework. The Postgraduate QQI validation means that your qualification is recognised not only in Ireland and Europe but throughout the world.

Career Progression

Through the MSc in Network and Information Security, you will have gained valuable professional experience, specialised in a key emerging field and developed many technical skills. There is a wide range of career options for our graduates including: Information Security Architect, Information Security Risk Lead, Cyber Security Manager, Computing Consultant, Business Intelligence Analyst, Information Security Engineering, Microsoft Solutions Engineer, Senior Software Engineer, Academic Research, Web Developer

Course Content

The programme contains eight taught modules and a final Dissertation / Dissertation by Practice. Four modules are taught per semester and then you'll complete a project over a period of twelve weeks. The overall programme is one calendar year long.

Modules

- Information and Network Security Technologies
- Legal and Ethical Aspects of Information Security
- IT Infrastructure Protection & Ethical Hacking
- Cryptography
- Computer Forensics
- Managing Information Security
- Telecommunication Networks and Services
- Research Methods
- Dissertation / Dissertation by practice

MSc/Postgraduate Diploma in Applied Digital Media*

COURSE DURATION: **FULL-TIME 1-1.5 YEARS**
PART-TIME 1.5-2 YEARS
AWARD LEVEL: **LEVEL 9**
***PENDING VALIDATION**

About the Course

In design and interactive development, a knowledge of creative media software applications is key to productivity and success. This programme teaches how to create multimedia applications using digital technology. The course takes students through the steps needed to produce professional media work to a high standard. The relevant professional applications will be used by the students who learn by doing. In addition to practical work, students will have plenty of opportunity to study, discuss, and critically evaluate the fundamental underlying principles. There are eight mandatory modules that cover core concepts and techniques. Students can also choose two electives from a menu of seven additional modules.

Is This Course For You?

This course is an interdisciplinary cross-faculty postgraduate programme that exploits the established strengths of Griffith College in Computing, Media, and Design. If you hold a degree in one of these disciplines (or another related discipline), this course will equip you with advanced skills and expertise in the development of, and content creation for, digital media systems. If you work in this field or wish to pursue a related career, it will enable you to sharpen your existing skills or help you lay down the foundation skills to establish new businesses within this sector.

Progression and Career Prospects

On completion of this programme graduates will be qualified to work as designers and creative directors in a variety of cross-disciplinary industries. Other careers include content/information managers, industrial and academic research, multimedia systems developers, innovative media practitioners, and as entrepreneurs.

Course Content

Full-time programme

SEMESTER I

- Web Authoring
- Visual Communication
- Digital Media
- Society, Research Methods

SEMESTER II

- Interaction Design
- Multimedia Programming
- Business of Digital Media
- Games Design & Development

MANDATORY DISSERTATION

M.Sc. Dissertation/ Dissertation by Practice

ELECTIVES*

Students choose 2 from the list of electives below.

- Video Production
- eLearning
- Theories and Principles of Animation
- Server-side Web Development and Databases 3D Modelling and Animation Digital Storytelling Desktop Publishing

* These electives run subject to demand.

Part-time Programme

The part-time programme is delivered over 4 semesters, covering the 10 topics as per the full-time programme. We offer the flexibility of student orientated timetabling to suit personal and professional requirements. Applicants should contact the Faculty of Computing Science or Admissions for more details.

Higher Diploma in Science in Computing

DUBLIN

LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
AWARD LEVEL: **LEVEL 8**
VALIDATED BY: **QQI**

About the Course

The course is designed to meet the ongoing industry demand for computer professionals. While focusing on current and future growth areas in computing, this higher diploma programme bridges the gap between non-computing disciplines and Computing Science. Its specific aim is to provide rigorous and stimulating classes for students who wish to acquire theoretical and practical training in computing and, particularly, in software development.

This course is ideal for non computing graduates who want to compete favourably against computing science graduates for the broad range of computing related employment available.

Progression

On successful completion of this diploma, graduates who obtain second class honours or higher are eligible to be considered for entry to all four Masters Computing programmes in Griffith College. This includes the MSc in Computing, MSc in Big Data Management & Data Analytics, MSc in Network and Information Security and the MSc in Applied Digital Media. Please refer to previous pages for course information.

Careers

The primary reason why students choose this course is to change the focus of their careers. The widespread impact that Computing Science has on our daily lives cannot be underestimated; neither can the job prospects on completion of this course. Successful students can expect to enter careers as systems analysts, IT managers or software developers.

Course Content

SEMESTER I

Computer Programming, Computer Architecture and Organisation, Data Communications and Networks, Discrete Mathematics, Relational Databases

SEMESTER II

Programming and Data Structures, Object Oriented Development, Operating System Design, HCI and GUI Programming, Software Engineering for Web Applications

MA/Postgraduate Diploma in Journalism & Media Communications

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
AWARD LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

Background to the course

The MA in Journalism and Media Communications offers a comprehensive multimedia syllabus designed with input from Irish journalists, academics and media practitioners. This has helped produce a course that is relevant to current and emerging job opportunities, as well as reflecting and adapting to technical, creative, social and market developments.

The programme allows students with an undergraduate degree in a non-journalism or media discipline, to acquire the skills of journalistic writing, production and communication. It integrates critical media understanding with application so that theory is combined with practice.

Students are challenged in real journalistic situations in print, broadcast and online media. The Writing and Reporting module, for example, facilitates learners reporting in both radio and print through its Newsdays and participation in Griff FM, the college radio station. National Union of Journalists recognition of this programme entitles students to apply for a NUJ Press Card for the duration of their course.

Careers

Students are likely to find media-based employment as journalists in broadcast media, print, or as researchers, presenters, producers, or technical writers in media-related positions. Graduating students are also eligible to take up employment in areas where visual media or multi-media skills are in demand.

Graduates of this programme are currently working in TV, radio, newspapers, magazines, and online media for major national and local media, at home and abroad.

MA Programme structure

The MA in Journalism and Media Communications is a 90 credit programme. There are eight mandatory modules plus a dissertation and students select two electives from a choice of five. Shorthand is offered on the full-time programme as a non-credit elective.

Postgraduate Diploma Programme Structure

The Postgraduate Diploma in Journalism and Media Communications is a 60 credit programme which consists of the ten taught modules from the MA.

The programme is assessed mainly through continuous assessment with a strong emphasis on the student building up a portfolio of media content along with developing the academic depth needed to progress to an MA. On completion, students possess an extensive array of skills enabling them to secure media based employment.

Course content

The MA is awarded on successful completion of ten modules and a dissertation. The Postgraduate Diploma is awarded upon successful completion of ten modules.

MANDATORY TAUGHT MODULES

- Communications and Audience Theories
- Investigative Journalism
- Media Law and Ethics
- Newspaper and Magazine Production
- Online Media
- Research Methods
- Sociology of the Media
- Writing and Reporting

MANDATORY MA DISSERTATION MODULE

- Dissertation by writing or by practice

ELECTIVE TAUGHT MODULES

Choose two:

- Business of Digital Media
- International Political Economy
- Photojournalism
- Sports Journalism
- Video Journalism

(plus Shorthand, non credit)

MA/Postgraduate Diploma in Journalism & Public Relations

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
AWARD LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

About the course

The MA in Journalism and Public Relations equips learners with the skills to meet the demands of a media industry undergoing sustained and systematic change while also specialising in public relations. This MA programme concentrates on journalism and public relations from the perspective of a PR content creator and strategic planner who has an understanding of the media industry and is able to research, formulate and implement communication plans and strategies.

Learners are given an understanding of the workings of the media industry and develop specific skills in journalism through modules such as Writing & Reporting in which learners participate in Newsdays and create reports in both print and radio.

This programme will be of interest to holders of primary degrees who intend to embark on a career within fields of journalism and public relations as well as people with prior learning in journalism and media related disciplines, or ancillary communications/research based employment who desire to specialise in journalism and public relations. National Union of Journalists recognition of this programme entitles students to apply for an NUJ Press Card for the duration of their course.

Careers

Public relations techniques are increasingly being used by firms and other organisations to communicate with key audiences. Information specialists who can create media content such as press releases and advertorial, and who can drive the online content of an organisation are in demand.

With an increasing amount of diverse and changing media sources there is also a need for media specialists who can engage audiences and communicate positively and effectively on behalf of their clients. Journalists who have specific public relations knowledge and ability have a particularly useful skill set to meet these needs.

Programme structure

The MA in Journalism and Public Relations is designed to be delivered on a full-time basis over one calendar year and on a part-time basis over two years. Learners on the MA programme will complete nine mandatory modules and a dissertation. The first semester of this programme is common taught with MA in Journalism and Media Communications learners while the second semester offers Public Relations specialisms. The Postgraduate Diploma in Journalism and Public Relations consists of the nine mandatory modules.

Course content

SEMESTER I

- Media Law and Ethics
- Research Methods
- Sociology of the Media
- Writing and Reporting

SEMESTER II

- Communications and Audience Theories
- Corporate Public Relations
- Online Media
- Political Communication
- Public Relations Theory and Practice

MANDATORY MA DISSERTATION MODULE

- Dissertation by writing or by practice

Candidates with relevant prior experiential learning may also apply and be considered for admission, subject to interview and submission of satisfactory evidential backup.

MA/Postgraduate Diploma in TV & Radio Journalism

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1 YEAR**
PART-TIME 2 YEARS
AWARD LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

About the course

The programme was developed against the backdrop of a media and communications sector undergoing sustained systematic change and an industry in which television and radio content creators and broadcasters have to adapt to the challenges involved.

The course will be of interest to holders of primary degrees who intend to embark on a career within the fields of TV and radio journalism as well as people with prior learning in journalism and media related disciplines, or ancillary communications/research based employment who desire to specialise.

National Union of Journalists recognition of this programme entitles students to apply for an NUJ Press Card for the duration of their course.

Careers

This programme will equip learners with the skills to competently address the demands of a changing industry and to specialise in TV & Radio Journalism not just in the broadcast sector but the growing online news media sector.

Programme structure

The MA in TV & Radio Journalism consists of nine taught modules delivered during the academic year and a dissertation completed during the summer months. Learners have an average of 18 hours of contact per week, attending lectures, Newsdays, labs and studio sessions.

Learners are also required to spend a significant amount of time outside of those contact hours engaging in self-guided study, development and practice.

The first semester of this programme is common taught with MA in Journalism and Media Communications learners and provides an understanding of the workings of the media industry as well as developing specific skills in journalism. The second semester builds on this knowledge and contains broadcast journalism specialisms such as Video Journalism, Radio Documentary Research & Production and Radio, TV News & Current Affairs. Digital Journalism will equip learners with the skills required to produce news and features in a web context.

The Postgraduate Diploma in TV and Radio Journalism consists of these 9 mandatory modules and does not include a dissertation.

Course content

SEMESTER I

- Media Law and Ethics
- Research Methods
- Sociology of the Media
- Writing and Reporting

SEMESTER II

- Communication and Audience Theories
- Digital Journalism
- Radio Documentary Research and Production
- Radio and TV News and Current Affairs
- Video Journalism

MANDATORY MA DISSERTATION RESEARCH MODULE

- Dissertation by writing or by practice

Candidates with relevant prior experiential learning may also apply and be considered for admission, subject to interview and submission of satisfactory evidential backup.

MSc/Postgraduate Diploma in Applied Digital Media

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: **FULL-TIME 1-1.5 YEARS**
PART-TIME 1.5-2 YEARS
AWARD LEVEL: **LEVEL 9**
VALIDATED BY: **QQI**

About the course

In design and interactive development, a knowledge of creative media software applications is key to productivity and success. This programme teaches how to create multimedia applications using digital technology. The course takes students through the steps needed to produce professional media work to a high standard. The relevant professional applications will be used by the students who learn by doing. In addition to practical work, students will have plenty of opportunity to study, discuss, and critically evaluate the fundamental underlying principles. There are eight mandatory modules that cover core concepts and techniques. Students can also choose two electives from a menu of seven additional modules.

Is this course for you?

This course is an interdisciplinary cross-faculty postgraduate programme that exploits the established strengths of Griffith College in Computing, Media, and Design. If you hold a degree in one of these disciplines (or another related discipline), this course will equip you with advanced skills and expertise in the development of, and content creation for, digital media systems. If you work in this field or wish to pursue a related career, it will enable you to sharpen your existing skills or help you lay down the foundation skills to establish new businesses within this sector.

Progression and career prospects

On completion of this programme graduates will be qualified to work as designers and creative directors in a variety of cross-disciplinary industries. Other careers include content/information managers, industrial and academic research, multimedia systems developers, innovative media practitioners, and as entrepreneurs.

Training & Education

Courses

MA in Training and Education

Postgraduate Diploma
in Arts in Training and Education

Special Purpose Postgraduate
Certificate in Training and Education

“Although I started tutoring in higher education institutions in 1991, I had no idea how to teach. I just taught in the way that I had been taught. A colleague recommended the MATE programme in Griffith College and it utterly transformed my ideas about education. I learnt all about teaching and training, learning and assessment. I was peer reviewed, I created a teaching portfolio, and ultimately wrote a Handbook and Tool Kit for Teaching Learning and Assessment in Independent HEIs in Ireland (2017).”

Dr. Teresa Whitaker
MA in Training and Education

“This programme led me to rethink everything I do as a teacher / educator from the writing of learning outcomes through to module design and assessment strategy. If these have already been written, then I now have the ability to critically analyse them. Apart from this, I now find myself considering what I am doing as a teacher throughout each individual class itself. Without doubt, and most importantly, my students will benefit from my application of the learnings that I have taken from this module. I strongly recommended and endorse this programme “

Ian Molloy
Special Purpose Certificate

MA in Training & Education

DUBLIN

CORK

LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
DURATION: 18 MONTHS
AWARD LEVEL: LEVEL 9
VALIDATED BY: QQI

About the Course

The MA in Training and Education offers an opportunity for practitioners to revitalise their approaches by building on their existing skills, competencies, sharing practice while being introduced to leading edge research, support tools pedagogies and resources. It is designed to create a collaborative, reflective and developing community of practitioners, in a structured and flexible manner.

The course objectives are for formal recognition of teaching and training experience with professional development with an e-Portfolio of evidence showing highlights of teaching / training experience which can be used for career development and teaching.

The first months of this programme are delivered via block release (one weekend per month) and also via a remote cloud based platform for online discussions (Zoom). For the dissertation, there are targeted workshops and scheduled meetings for the learner with their supervisor. This offers the learner a flexible pathway to enable them to secure a professional qualification in a way that suits their personal and professional lives.

The learners on this programme come from both industry and academia. The cross-fertilisation and learning from both areas of expertise leads to the development of academically robust programmes that are informed and driven by business imperatives and models. During the course you will be exposed to vital networking opportunities with fellow teachers and trainers offering a natural and vibrant forum for innovation and entrepreneurial programme development.

Course Content

- Pedagogical Practice 1
- Assessment and Programme Design
- Reflective Practice and Development
- Technology Enabled Learning
- Research Methodology
- Psychology and Inclusivity in Higher Education and Training
- Pedagogical Practice 2
- Professional Practice and Management
- Dissertation

Academic Progression

On completion of this programme, students may go on to study a PhD in the area.

Career Progression

Students are qualified to teach at third level institutions or train within industry.

Entry Requirements

Applicants will need a level 8 primary degree in their area of expertise. There is also a minimum of 30 hour lecturing, teaching or training requirement. Hours can be acquired during the course of the programme, however evidence of the minimum requirement for hours must be shown before award is conferred.

"I recently completed my M.A. at Griffith and I was very impressed with the Education and Training Department. Throughout the entire programme, the professors were always accessible and always provided their full support. As a Masters is a big undertaking, it was great having this level of dedication."

Thomas McErlean

CORK

LIMERICK

APPLY DIRECT: WWW.GRIFFITH.IE
DURATION: 1 YEAR (SEPT – JULY)
ONE WEEKEND PER MONTH
AND ONLINE FORUM
AWARD LEVEL: LEVEL 9
VALIDATED BY: QQI

About the Course

Developments in training and education (for example the 2010 Hunt Report commissioned by the Department of Education and Skills) advocate the requirement for professional practice standards amongst higher education experts and industry training specialists. This programme will provide a forum for developing the pedagogical approaches suggested in the Hunt report. They call on educators to design pedagogy to meet the needs of the different learning styles and multidisciplinary areas.

This, they continue, will require educators to 'stimulate active, not passive learning, to encourage students to be critical, creative thinkers'. The postgraduate diploma in training and education will support and guide participants in developing their practice in line with current best practice both nationally and internationally.

Upon completion of this programme, you will be able to:

- Appropriately select from the broad field of learning theories and concepts to optimise the learning experience for learners.
- Allow leading edge theories and concepts of training and education to inform dynamic and engaging pedagogies.
- Use the relevant theory and concepts to underpin development of an inclusive training and education environment.
- Allow the theory of, and best practice in, learning technology enhance a range of educational and training contexts.
- Apply research skills, to constructively critique, draw

conclusions and offer recommendations within the field of education and training.

- Apply current legislation, institutional policy, best practice and professional ethics in programme design.
- Justify the application of appropriate techniques, resources and technologies to engage learners.
- Design educational or training programmes, including developing programme aims and learning outcomes for the relevant programme level.
- Evaluate the learning processes and learning profiles of their learners.
- Allow reflective practice to inform pedagogical practice and development.
- Contribute to the scholarship of training and education by pursuing ongoing continuous professional academic development.

Course Content

- Pedagogical Practice 1

About the Course

Griffith College has been running this 20 credit level 9 Special Purpose Certificate in Training and Education for eight years. It is accredited as an embedded award leading to a Postgraduate Diploma and a Masters in Training and Education should you wish to continue studying with us.

Course Content

There are three modules in the Certificate:

Pedagogical Practice
(5 Credits)

This module offers learners opportunities to understand training methods and techniques suitable to the needs of student groups. Learners develop diagnostic and creative skills which allow them apply appropriate and relevant teaching and training supports and techniques.

Assessment and Programme Design
(10 Credits)

This module introduces learners to the landscape of post compulsory education. It seeks to enable the learner to discuss philosophies of higher education and training, their context and drivers, and interpret how they influence the design and assessment of programmes. Additionally learners are exposed to principles and practice of constructively aligning assessment with learning outcomes.

Reflective Practice and Development
(5 Credits)

This module helps learners determine how their own philosophies of education and training impact their pedagogy. They also learn how to become reflective and evaluative practitioners by understanding the

reflective and on-going process of their own learning and development as a trainer and/or educator. We also introduce mindfulness for reflective practice and digital reflection.

Academic Progression

Students may choose to progress to the Postgraduate Diploma or MA in Training and Education.

Career Progression

Qualifications in education are becoming increasingly sought after by employers of trainers and lecturers, and in some cases are becoming mandatory. This Special Purpose Certificate prepares the graduate with the skills necessary for employment and career progression. It is also a starting point for further study with the Postgraduate Diploma a natural next step and the Masters.

Entry Requirements

Applicants will need a level 8 primary degree in their area of expertise. There is also a minimum of 12 hour lecturing, teaching or training requirement. Hours can be acquired during the course of the programme, however evidence of the minimum requirement for hours must be shown before award is conferred.

“The certificate is an incredibly focused programme providing practical knowledge that can be readily applied to your teaching practice. The teaching team guide you through the modules, encourage discussion with your peers and make you feel part of the wider education community. I thoroughly recommend this course for anyone involved in higher education and training.”

The Griffith Innopharma Faculty of Pharmaceutical Science is a collaboration between Griffith College and Innopharma College of Applied Sciences to provide accredited higher education qualifications in Pharmaceutical Science.

*subject to validation

Best Bits of Pharmaceutical Science

Established in 2009, based on an extensive network of manufacturing, scientific and business experience, the Griffith Innopharma Faculty of Pharmaceutical Science provides a unique set of skills to upskill and educate students into roles in these highly significant industries.

All Griffith Innopharma programmes lead to accredited awards with each programme providing strong scientific content, practical application, business context and professional development.

With 19 of the world's top 20 pharma companies in Ireland and 5 out of 8 of the world's top selling drugs produced in Ireland, it is the largest net exporter of

pharmaceuticals. 18 of the world's top 25 medtech companies also have a base in Ireland. Together the pharma and medtech industries employ over 50,000 people in Ireland and are expected to enjoy strong growth in the coming years.

Many leading contract research organisations (CRO's) have significant operations here in Ireland and is recognised as a location for world-class provision of quality clinical research whether in the provision of specialised areas of expertise or as part of a region in multi-national trials. Several thousand are employed in the provision of clinical trial expertise in Ireland.

Griffith Innopharma Faculty of Pharmaceutical Science

Offering unique industry-led programmes for pharma, medtech and food industries, delivered by industry experts with flexible learning options. Innopharma College of Applied Sciences is the award-winning, premier education research and technology institute for industry led education and training programmes in the Pharmaceutical, MedTech and Food industries.

Innopharma College of Applied Sciences has grown to become one of the top institutions in Ireland delivering world recognised qualifications up to Masters' degree level. All our education programmes are developed with your career advancement in mind – consisting of a unique blend of industry focused modules and practical

workshops. Many of our lecturers have extensive experience in industry and engage in a high level of coaching and mentoring with students. Innopharma College of Applied Sciences programmes, are the number one choice for graduates and experienced professionals seeking to upskill and advance their careers in the pharmaceutical, medtech and food sectors.

MSc in Pharmaceutical Business & Technology

DUBLIN

APPLY DIRECT: WWW.INNOPHARMALABS.COM/EDUCATION

DELIVERY : CLASSROOM / BROADCAST LIVE

COURSE DURATION: 18 MONTHS OVER
FOUR SEMESTERS

AWARD LEVEL: LEVEL 9

VALIDATED BY: QQI

This two stage programme is delivered 2 evenings per week and 2 Saturdays per month.

STAGE 1

A three semester taught programme in Pharmaceutical Business & Technology (60 ECTS Credits) leading cumulatively to a Postgraduate Diploma in Science in Pharmaceutical Business & Technology.

STAGE 2

A one semester dissertation stage leading to an MSc in Pharmaceutical Business & Technology.

About the Course

This 18 month programme is a unique blend of a technology and business qualification. It will focus on core competencies such as Pharmaceutical Processes and Production, Pharmaceutical Business Introduction & Technology Transfer, Emerging Trends in the Industry, the Implementation of Operational Excellence (Lean & Six Sigma), Regulatory aspects of the Pharmaceutical Industry, Data Analytics, Strategic Thinking and Leadership Development and Professional Skills.

With extensive input and participation from the pharmaceutical and clinical trials sectors, this programme is ideal for those involved in manufacturing, compliance, business improvement, quality assurance, validation, data analytics, clinical trial co-ordination and engineering.

All classes are broadcast live using an online training platform, offering the learners the opportunity to either

physically attend or join the class online. All classes are also recorded allowing learners the opportunity to view later and support revision. Online learning and support will be provided through the use of Moodle. Extensive coaching and mentoring workshops will be provided with specific focus on individual assessment and improvement.

Careers

Potential Roles include; Business Operations Supervisor / Manager, Clinical Trials Co-ordinator / Manager, Quality Supervisor / Manager, Compliance Specialist / Manager, New Business Introduction Specialist / Manager, Business Improvement Specialist, Lean and Six Sigma, Project Co-ordinator / Manager, Technology Specialist / Manager

Course Entry Requirements

The primary target audience are those with a minimum qualification of higher degree (minimum 2.2 or higher) at NFQ Level 8 or higher in Science, Engineering or Quality or a related discipline.

Course Content

- Process, Production & Pharmaceutical Quality
- 21st Century Dynamics & Emerging Trends
- Regulatory Landscape of Pharmaceutical Business
- Clinical Research Management
- Pharmaceutical Technology Transfer
- Strategy, Leadership & the Culture of Innovation
- Operational Excellence & the Science of Innovation
- Research Methods
- Dissertation

How to Apply

Leinster School of Music and Drama

The Leinster School of Music and Drama (LSMD) was founded in 1904 to promote education and teaching in the arts in Ireland. In 1998, the LSMD relocated to Griffith College Dublin becoming a fully owned constituent school of the College.

Internationally recognised qualification

LSMD programmes are fully accredited by QQI, making them internationally recognised accredited qualifications. These are the only Higher Diplomas in the country offering specialised music and drama education qualifications.

Highly qualified teaching staff

Several members of the current teaching staff are firmly established in the performance arena. This experience, combined with their depth of teaching knowledge, enhances the unique learning experience offered by the School.

University style facilities

- Extensive music library with music texts, sheet music, CDs and access to the online catalogue. The drama library has been accumulated over several decades and includes numerous plays, literature, drama theory and educational texts.
- Performance oriented facilities, including a 600 seater concert hall.
- Fully equipped studios with the latest industry-standard music software for writing, recording, performing, editing, mixing and composing music.

Online learning support

Study and practice facilities in Dublin are open seven days a week, with unlimited access to online learning and search facilities which allow students to access lecture material and take part in discussions with class colleagues and lecturers.

A range of study options is available to you

- Full-time and part-time modes.
- The choice of evening and Saturday lectures, combined with block release.
- The possibility to take the programme in three stages under the QQI Accumulation of Credits and Certification of Subjects (ACCS) scheme.

LSMD Entry Requirements	MUSIC*	DRAMA*
Higher Diploma in Arts - Level 8	STUDENTS MUST FULFILL ONE OF THE FOLLOWING 1. A primary degree in music 2. A primary degree in an unrelated discipline + Grade 8 practical music from the LSMD or an approved substitute + Grade 6 in music theory	STUDENTS MUST FULFILL ONE OF THE FOLLOWING 1. A primary degree in a drama related field 2. A primary degree in an unrelated discipline + Grade 10 in Speech and Drama from the LSMD, or an approved substitute
Certificate (LSMD Licentiate Diploma) - 40 Credits	Grade 8 in instrumental music from LSMD, an approved substitute or the equivalent experiential knowledge.	Grade 10 in Drama from LSMD or an approved substitute
Certificate (LSMD Associate Diploma) - 20 Credits	Grade 6 in music theory, or the equivalent experiential knowledge.	

* Applicants with relevant experiential learning will also be considered for all LSMD courses through the college's APL/APEL policy.

Postgraduate

Higher Diploma in Arts in Drama Education

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: 1 YEAR
AWARD LEVEL: LEVEL 8
VALIDATED BY: QQI

About the course

This programme is designed for the contemporary practitioner in drama education, whether teaching in a school or running a practice or studio. It is intended that this programme will provide a path for the progression of drama students to become teachers, as well as a professional development opportunity to revitalise the practices of existing drama teachers.

In recent years there has been a dramatic rise in the number of schools operating countrywide in this field. Parents continue to look for specialist classes in speech, drama, dance, communication and public speaking beyond the specified curriculum.

The key abilities which will contribute to successful individual participation on the programme have been identified as: a high level of drama performance skills; a thorough knowledge of drama theory; creativity in drama education; an ability to understand theoretical concepts in education; excellent communication skills; a genuine desire to nurture and develop drama skills among learners of all ages and abilities; an openness to new ideas; and an ability to challenge and interrogate conventional methods. The programme will be delivered by LSMD lecturers in the fields of education, psychology, storytelling, writing, directing, mime, dance, acting and voice. The teaching strategies employed will seek, by example, to encourage practices, which will disseminate artistic and creative initiatives, and require the students to instigate and develop their own ideas and reflect on the processes involved.

VALIDATED BY: QQI

About the course

This programme is designed for the contemporary practitioner in music education, whether teaching in a music school or running a practice or studio. In today's society, a career in music education requires a broad range of disparate skills: a high level of mastery in performance; a thorough knowledge of music theory; an understanding of the psychology of music teaching and learning; and a practical working knowledge of music technology; the Higher Diploma in Arts in Music Education provides thorough training in all of these key areas. Furthermore, music teachers will acquire skills in management, business and arts organisation, all essential for their work which can involve managing

their own teaching studio, and often takes them outside of the classroom – organising concerts, competitions and shows. The programme recognises that music education has to be relevant to young and mature learners, and to their ethnic culture, life experience and the popular culture to which they are exposed. To this end, the programme will facilitate and encourage performance and teaching in several genres – classical, traditional, non-Western, jazz and popular music. Successful graduates will be awarded a Higher Diploma in Arts in Music Education at QQI Level 8. Students will also be required to undertake 3 hours Teaching Practice per week for the duration of the programme.

ACCA

ACCA is the largest and fastest-growing global professional accountancy body in the world, with over 686,000 members and students in 181 countries. The calibre of ACCA tuition provided by Griffith College is unparalleled. ACCA continues to grant their Platinum Status to The School of Professional Accountancy, Griffith College. This Platinum Status, under ACCA's University & College Registration Scheme, is given to only a small select number of colleges in the world, of which Griffith College is one. The success of our ACCA Course lecturing team is based on their professionalism and the quality of the lectures, which has resulted in consistently high pass rates that exceed the global average.

Many prizes have been won by Griffith College students. Included in our impressive 294 ACCA Prize Winners are 89 First in Ireland Winners and 9 First in the World Winners.

We understand the hectic pace of the lives of our ACCA students and, as such, we go that extra mile to provide flexible learning options including; part-time, e-learning, live streaming, video recorded papers and revision classes. If you are looking for the best ACCA tuition possible at a time and place suitable to you, then look no further than Griffith College.

CPA

The Institute of Certified Public Accountants in Ireland (CPA) is one of the main Irish accountancy bodies with in excess of 5,000 members and students. The CPA designation is the most commonly used designation worldwide for professional accountants and the Institute's qualification enjoys wide recognition in Ireland. CPA tuition provided by Griffith College is of the highest standard and CPA continues to grant their Goldstar Status to The School of Professional Accountancy, Griffith College. Griffith College's high performance standards result in the College always meeting the CPA Goldstar pass rate targets.

The success of our CPA course lecturing team is based on their professionalism and the quality of the lectures, which has resulted in consistently high pass rates. The flexibility of our CPA courses is a great advantage to students and includes part-time courses, e-learning courses, live streaming, revision courses, and much more. If you need excellent CPA tuition, then Griffith College is the college for you. In 2017, 12 of our students achieved 1st place in the CPA examinations.

Accounting Technicians Ireland

Accounting Technicians Ireland is the leading professional body for Accounting Technicians on the island of Ireland. They educate, support and represent over 10,000 people working in the profession. Established in 1983, they provide a recognised business qualification and promote the highest educational, technical and ethical standards to their members. Griffith College has provided Accounting Technician courses since we started our School of Professional Accountancy and many happy successful students have gone through our doors having passed their exams.

Please visit the School of Professional Accountancy webpages for the latest on timetables, fees, revision dates and how to apply. Visit www.griffith.ie/faculties/professional-accountancy.

Testimonials

Cormac Kennedy
1st in Ireland, 5th in the World ACCA Paper P1

Due to personal circumstances, I required the option of distance learning to complete my ACCA studies. Griffith College offered me this and more.

Their e-learning programmes are excellent and provided me with the materials needed to complete each exam.

I completed each exam with Griffith via distance learning, passed first time, every time, and I could not recommend them highly enough.

Jody Foley
2nd in Ireland, 11th in the World ACCA Paper F8,

I studied in Griffith College for the F8 exam. Given that I work in the City Centre, I found the option of having a City Centre venue ideal. The lecturer was very helpful and used his practical experience to explain situations very clearly. Overall, I was very impressed with the quality of the course.

Aoife Kelly
2nd in Ireland, 7th in the World ACCA Paper P3

I attended Griffith College as the lecturers have an excellent reputation which I found to be true as my lecturer was extremely knowledgeable on the course. Her approach to teaching the material made it easier and she was always willing to help or answer any questions

Uchenna Opabola

1st in Ireland CPA P1 Auditing

- They offered CPA, which I wanted to do
- Car parking on campus
- Excellent track record for prize winners
- Dedicated lecturers

Mareille Zeller

1st in Ireland CPA F2 MA & F2 Tax

Griffith College is my preferred institution because of the e-learning modules, in combination with 'review' classes at close enough distance.

Dean Alford

1st in Ireland CPA P2 SPM

Griffith College offer flexible class times, experienced and dedicated lecturers, great study materials and online recording of all classes.

A great overall platform to succeed in obtaining a professional accountancy qualification.

Lecturer Profiles

Noel Daly BComm, CPA

Noel joined Griffith College in 1998 and has been a lecturer with Griffith College for 20 years. In that time he has acquired a steadfast reputation for achieving excellent results for Griffith College students. A graduate of UCC, Noel worked as a professional accountant in Cork for over 10 years before moving into the field of education. On a number of occasions, his students achieved first place in Ireland in all four major accountancy institutes examinations (ACCA, ICAI, CPA and CIMA). In 2013, he was appointed deputy head of Griffith College in Cork. He continues to teach, which remains a passion for him and he recently guest lectured with Hebei Finance University in China.

Jim Daly CPA

Jim is a full time lecturer with Griffith College and has been lecturing on all Professional Accountancy programmes for many years. Jim has a reputation as being one of Irelands leading lecturers in the areas of Management Accounting and Performance Management. Jim has had numerous prizewinners over the years and in one session alone had ACCA students who were placed 1st, 2nd and 3rd in Ireland and 1st, 6th and 9th in the World. Jim is immensely popular with students and this is constantly reflected in the marks that his students achieve. Jim is head of Griffith College Cork and lectures in both Dublin and Cork.

Paula Byrne, FCCA, MBA

Paula lectures both Griffith College ACCA classes and CPA classes and believes that passing either the ACCA or CPA subjects is all about continued hard work and commitment. She provides the motivation for students to achieve and maintain the necessary commitment over the entire semester. Students will be in a position to attempt pass exam questions right from her first lecture, where Paula gives individualised feedback in a safe and constructive environment. As a result, Paula's students enjoy excellent pass rates with a recent student achieving 96% in his exam. Her lectures are both lively and informative.

Suzanne Burdis CPA, MATI, DipIFRS (ACCA), P.G. Cert. (T&Ed):

Suzanne has been lecturing at Griffith College for many years to both the professional accountancy, undergraduate and postgraduate academic students. She has lectured many professional accountancy prize winners, including a First in the World for ACCA P7, and regards the very high pass rate of all her students as the most important objective. Suzanne specialises in the areas of Auditing and Financial Reporting.

Michael O'Grady FCCA, ACII

Michael is a full time member of staff with Griffith College. He previously held senior positions in a number of Financial Institutions and has been involved in two new company start-ups. He has lectured to professional accountancy students over the last 25 years. Michael currently lectures on Financial Management / Financial Strategy to ACCA and CPA students.

Reg Callanan FCA

Reg is a director and one of the founding members of Griffith College. He was also one of Griffith College's first prize winners having achieved 2nd place in Ireland. Reg is regarded by many students as one of the best and most knowledgeable accounting lecturers in Ireland. He has lectured at all levels in accounting and is dedicated to achieving high pass rates with student groups. Reg has educated many prize winners, however, his focus is on achieving success for all students he teaches.

Umesh Rana B.Comm, CPA (USA)

Umesh is a senior auditing lecturer with Griffith College and has been with the college for over ten years. He has lectured ACCA and CPA courses at all levels in both our Dublin and Cork campuses. Additionally, he has lectured for Chartered Accountants Ireland at the FAE level for the past eight years. Prior to joining Griffith College, Umesh accumulated over 11 years of diverse and practical auditing experience with Ernst & Young (U.K.) and Pricewaterhouse Coopers (U.S.).

Tom Colgan FCCA, AITI, DIP IFRS

Tom is a senior lecturer with Griffith College and has lectured Corporate Reporting and Financial Accounting for many years. Tom works for a multi-national company and specialises in financial reporting and financial systems and has implemented projects across Europe. Tom is a highly motivating lecturer with many prize winners and his commitment to students has made him a very popular lecturer.

Preparatory Course for the Law Society of Ireland's Final Examination (FE1)

DUBLIN

APPLY DIRECT: WWW.GRIFFITH.IE
COURSE DURATION: PART-TIME (14 WEEKS)
COURSES RUN TWICE A YEAR
(EVENING CLASSES AND ONLINE)

FOR FURTHER INFORMATION PLEASE CONTACT
THE PROFESSIONAL LAW SCHOOL
+353 1 415 0462
PROFLAW@GRIFFITH.IE

Geared towards the specific examination papers set by the Law Society of Ireland, the Griffith College Professional Law School's 14-week FE1 Preparation Course is both intensive and practical. Against a background of unequalled quality in materials, notes and facilities, underpinned by outstanding, supportive lecturers and online support 24/7, you are assured of an environment that will enable you to excel.

About the Course

The Final Examination is the entrance examination to the Law Society of Ireland. Only those who have passed or gained exemption from the Preliminary Examination can sit this examination which is held twice each year, in spring and autumn.

Course Delivery

All FE1 lectures are recorded in a classroom environment. The classroom used for lectures is equipped with a professional camera which is manned by a trained cameraperson and lecturers wear microphones in order to offer a full in class experience to those participating online. The benefit of recorded lectures is that participants can watch lectures online, rewind footage for clarification and listen in on class discussions and questions brought up by fellow participants.

Lectures incorporate past question and sample answer sessions. You will receive personalised assessment of your coursework throughout the duration of the course. You are advised to do practice questions in your own time and lecturers will correct and give feedback on all material received. The Griffith College Professional Law School's FE1 (Final Examination – Part One) Preparation Course has become the most popular FE1 Preparation Course in the country, with an outstanding reputation founded on dedicated, talented lecturers and focused examination materials.

Programmes run from June to September and from November to March each year, with tuition provided for all eight FE1 subjects. Included in the price of the programme is manuals and the most up-to-date exam papers. Course delivery carries a range of options for students. Full timetable and lecturing panel is available at www.griffith.ie.

Preparatory courses for the FE1 Entrance Exams are available at our Dublin campus and also online.

Course Content

There are eight FE1 examinations in the following subject areas:

- European Union Law
- Equity and Trusts
- Constitutional Law
- Company Law
- Criminal Law
- Law of Contract
- Law of Tort
- Real Property

Preparatory Course for The Honorable Society of King's Inns Entrance Examinations

PROFLAW@GRIFFITH.IE

About the Course

Every year the Griffith College Professional Law School conducts a preparation course for students intending to sit the Honorable Society of King's Inns' Entrance Examinations.

Course Delivery

This course was the first entrance exam and client oriented programme in Ireland. Intensive and practical, its delivery is closely aligned to the specific examination papers set by the examiners of the Honorable Society of King's Inns. With materials, notes and facilities of unequalled quality, underpinned by outstanding, supportive lecturers, you will find a unique learning environment that will direct you towards success.

The King's Inns Preparatory course runs over a 10-week period from June to August each year, with tuition provided in all five subjects.

Preparatory courses for the King's Inns Entrance exams are available at our Dublin campus and also via fully supported online delivery.

Course Content

Highly-intensive tuition is provided for all five entrance examination subjects:

- Contract Law
- Criminal Law
- Law of Evidence
- Constitutional Law
- Law of Tort

In parallel with concise lectures, assignments and class tests remain important elements of course delivery, building your capability to analyse complex problems and to arrive at rational and informed conclusions. You will receive individual assessment of coursework throughout the programme's duration, whilst classwork and homework is set and corrected weekly.

Short Courses

A photograph of a student in a classroom, overlaid with a purple tint. The student is a man with glasses, wearing a plaid shirt, sitting at a desk and writing in a notebook. In the background, another student is visible, resting their head on their hand. The overall scene is a typical classroom environment.

Over one or two semesters, you will develop an understanding of a particular area of business, computing, design, media or law. Upon successful completion, you have the option to continue your studies on a full or part-time academic course.

Our lifelong learning courses offer a wide range of benefits:

- Progression opportunities onto a full or part-time academic course in that subject area
- Lecturers with industry experience and a track record of delivering exceptional results
- Participants who successfully complete these modules may be eligible for advanced entry to other courses at Griffith College

Please contact the Short Courses team if you would like to receive further information: shortcourses@griffith.ie / +353 1 415 0429.

Customised Training

Griffith College Short Courses department offers a wide range of computer and soft-skills training courses. We can provide customised one-to-one training or training to meet the particular needs of corporate groups.

Training is delivered by high quality and friendly lecturers. We place the utmost importance on our lecturers' professional qualifications and industry experience. We can provide training either at Griffith College or at client's own premises when suitable facilities are available. Griffith adopts a systematic approach to the delivery of customised training. Typically this involves the following:

- Identification of trainee profiles and specific training needs
- Determination of desired learning outcomes / skills levels required
- Course design covering topic selection, delivery methods and materials

- Course delivery maximising trainee participation and learning
- Monitoring of learning progress and attention to focus on any learning gaps
- Post-training assessment of attainment of learning outcomes

Our training systems have proven very successful over the years, with many repeat clients

Why choose Customised Training?

- We can offer tailored courses to suit specific business needs
- Courses can be scheduled around individual and department schedules
- Reduced fees for groups
- Training Needs Analysis
- Up-skill and invest in your staff's potential
- Generate higher morale and performance benefits for your company

Please contact the Short Courses team if you would like to discuss any customised training requirements you may have: shortcourses@griffith.ie / +353 1 415 0429.

Certificate in Dual Career Development

DUBLIN

VALIDATED BY:	QQI
DURATION:	PART-TIME, 6 MONTHS
APPLY DIRECT:	WWW.GRIFFITH.IE/ APPLY-ONLINE
AWARD LEVEL:	SPECIAL PURPOSE AWARD LEVEL 7

About the Course

The Certificate in Dual Career Development (Sports) is designed to specifically address identified needs of professional and elite athletes in the area of professional development and transition management. The programme, developed in cooperation with the Institute of Sport (IIS) and endorsed by several sporting bodies, is suitable for both current athletes in preparation for their future and recently retired athletes. Career transition or dual career development for an athlete is a complex issue with many variables to consider. This programme has been designed to address some of these specific variables with its key focus on developing skills in IT, communication and personal management. This Special Purpose award is suitable for anyone involved in high performance or professional sport and offers a personalised learning experience with extensive one to one support.

Progression

The programme is a special purpose award consisting of 20 ECTS. This award will act as a bridge for participants into further programmes of study at diploma or degree level, or can be used simply as a tool to aid life planning and career development. Careers This programme empowers athletes to take ownership of their personal and professional development and provides formal training recognised on the National Framework of Qualifications. This Certificate addresses a training need for athletes, a need which has been identified at national and international level. Upon completion of the programme, participants will have identified their personal goals and outlined a pathway to achieving these goals.

Course Content

The programme consists of two modules – Personal Management and Communications & IT Skills. Participants will complete the programme over a six month period blending on-campus seminars and online activities. Each module has been carefully developed to focus on the key skills needed by athletes during and after their sporting careers. The content outlined below has been informed by the Irish Institute of Sport and research on athletes from a range of sporting backgrounds.

- Personal Finance
- Understanding Contracts & Negotiation
- Developing Your Personal Brand
- Communication & IT Skills
- Research and Study Skills
- Dealing with the Media
- Social Media Management

“I had a great experience in Griffith College. The content was really beneficial and the lecturers were top quality. Overall it has given me a real interest in learning again, something that was not a priority in my boxing career before now.”

Michael Conlon
World Champion Boxer
and Olympic Medallist

Certificate in Desktop Publishing

DUBLIN

VALIDATED BY:	THE INSTITUTE OF COMMERCIAL MANAGEMENT (ICM)
DURATION:	DAYTIME X 5 SATURDAYS (9.30AM - 3.30PM)

Entry Requirements

Mature Students – Direct entry if you are 23 years from the 1st January this year

Under 23 Years – Min. 506/H7s in your Leaving Certificate (subjects to include a language which can be English, Irish or a modern language) or equivalent exam taken.

All applicants must be a user of Microsoft Office and Windows and students must be willing to commit to work at home.

Diploma in Dynamic Web Applications & Development

DUBLIN

VALIDATED BY:	THE INSTITUTE OF COMMERCIAL MANAGEMENT (ICM)
DURATION:	20 WEEKS X 1 EVENINGS (6.30PM – 9.30PM)
APPLY DIRECT:	WWW.GRIFFITH.IE/ APPLY-ONLINE

About the Course

This course teaches participants how to build dynamic web applications using taught classes, supervised labs and a combined continual assessment of labs, exams and project based accreditation

- Teaches cutting edge responsive design techniques; CSS Responsive Framework, HTML 5, CSS, JavaScript, PHP and MySQL
- Introduces students to the skillset required to manipulate the DOM using JavaScript
- Demonstrates how to use PHP scripting language to dynamically create interactive web pages which allows user input as well as reading and writing data to and from a MySQL database.

For Whom

The course is aimed at those who want to gain an understanding of how to design, build and deploy dynamic and interactive web applications. It is suitable for those with some HTML and CSS experience and also those who come from a design background (with some HTML and CSS experience) who wish to learn web-programming skills.

Entry Requirements

Mature Students – Direct entry if you are 23 years from the 1st January of this year

Under 23 Years – Min. 2H5s and 4 O6/H7s in your Leaving Certificate (subjects to include a language which can be English, Irish or a modern language) or equivalent exam taken. All applicants must be a user of Microsoft Office and must complete the Certificate in Web Design & Development.

2D AutoCAD

7689-04

Level 2

DUBLIN

VALIDATED BY: CITY & GUILDS
DURATION: 12 WEEKS X 1
EVENING (6.30PM-9.30PM)
APPLY DIRECT:
WWW.GRIFFITH.IE/APPLY-
ONLINE

About the Course

AutoCAD Level 2 is ideal if you have some experience in computing, perhaps in manufacturing or engineering design, and want to increase your knowledge and skills and progress in your career.

For Whom

This unit aims to equip candidates with the basic understanding and principles of the 2D drawing environment, in terms of hardware, software and physical surroundings. It will explore the typical composition of a CAD system and health and safety matters that are associated with safe working practices.

Entry Requirements

Mature Students – Direct entry if you are 23 years from the 1st January of this year

Under 23 Years - Min. 506/H7s in your Leaving Certificate (subjects to include a language which can be English, Irish or a modern language) or equivalent exam taken

All applicants must be a user of Microsoft Office & File Management.

2D AutoCAD

7689-05

Level 3

DUBLIN

VALIDATED BY: CITY & GUILDS
DURATION: 12 WEEKS X 1
EVENING (6.30PM-9.30PM)
APPLY DIRECT:
WWW.GRIFFITH.IE/APPLY-
ONLINE

About the Course

Level 3 is ideal if you have a background in computing and design and you may have worked in manufacturing or engineering design for some time. You want to develop specialist 2D design skills to help you move on in your career.

For Whom

This unit aims to cover a wide range of 2D drawing and editing commands and routines to aid the application and modification of the CAD software. The learner will become familiar with the necessary techniques required to produce and edit drawings of medium complexity and prepare the drawings for output to hard copy.

Entry Requirements

Mature Students – Direct entry if you are 23 years from the 1st January of this year

Under 23 Years - Min. 506/H7s in your Leaving Certificate (subjects to include a language which can be English, Irish or a modern language) or equivalent exam taken
All applicants must be a user of Microsoft Office, File Management and previous AutoCAD experience.

3D AutoCAD

7689-08

Level 3

DUBLIN

VALIDATED BY: CITY & GUILDS
DURATION: 12 WEEKS X 1
EVENING (6.30PM-9.30PM)
APPLY DIRECT:
WWW.GRIFFITH.IE/APPLY-
ONLINE

About the Course

Level 3 is ideal if you have a background in computing and design and you may have worked in manufacturing or engineering design for some time. You want to develop specialist 3D design skills to help you move on in your career.

For Whom

This unit aims to allow learners to develop the ability to apply the drafting procedures required to create and modify existing 3D objects, either surfaces or solids, at any position within the three dimensional space.

Entry Requirements

Mature Students – Direct entry if you are 23 years from the 1st January of this year

Under 23 Years - Min. 506/H7s in your Leaving Certificate (subjects to include a language which can be English, Irish or a modern language) or equivalent exam taken

All applicants must be a user of Microsoft Office, File Management and previous AutoCAD experience.

CompTIA A+

DUBLIN

VALIDATED BY: GCD
DURATION: DAYTIME X 10 SATURDAYS
(9.30AM-3.30PM)
APPLY DIRECT: WWW.GRIFFITH.IE/
APPLY-ONLINE

About the Course

CompTIA A+ certification training validates the knowledge and skills of Computer Service Technicians

- The course covers mobile devices, tablets, laptops, desktops
- CompTIA A+ confirms a technician's ability to perform tasks such as installation, configuration, diagnosing, preventive maintenance and basic networking
- The course also covers topics such as security, safety and environmental issues, and communication and professionalism
- Fundamentals of cloud computing

For Whom

The A+ certification is the ideal starting point for anyone interested in working in IT configuring, upgrading and supporting PCs in the workplace

Entry Requirements

Mature Students – Direct entry if you are 23 years from the 1st January this year

Under 23 Years - Min. 506/H7s in your Leaving Certificate (subjects to a language which can be English, Irish or a modern language) or equivalent exam taken.

No formal qualification in computing is required for entry to the course, although prospective participants should be familiar with basic computing concepts and troubleshooting a computer.

CompTIA Network+

DUBLIN

VALIDATED BY: GCD
DURATION: 10 WEEK X 1 EVENING
(6.30PM-9.00PM)
APPLY DIRECT: WWW.GRIFFITH.IE/
APPLY-ONLINE

About the Course

CompTIA Network+ validates the knowledge and skills of IT and networking professionals

- Teaches essential skills such as install, configure and troubleshoot basic networking hardware, protocols and services.
- The course includes many topics that help the participants to understand the concepts of networking, but it is also a very practical course.

For Whom

CompTIA Network+ certification is designed to start or advance your Networking career. Some participants, having gained a basic knowledge of computing through other training, will choose this track to enhance their knowledge by going beyond the use of a basic PC. Network+ is a popular track with individuals looking to become Network Administrators and those individuals looking to validate knowledge of networking by getting certified.

Entry Requirements

Mature Students – Direct entry if you are 23 years from the 1st January this year

Under 23 Years - Min. 506/H7s in your Leaving Certificate (subjects to include a language which can be English, Irish or a modern language) or equivalent exam taken.

Successful completion of CompTIA A+ certification.

CCNA (Cisco Certified Network Associate)

DUBLIN

VALIDATED BY: GCD
DURATION: DAYTIME X 18 SATURDAYS
(9.30AM-3.30PM)
APPLY DIRECT: WWW.GRIFFITH.IE/
APPLY-ONLINE

About the Course

The CCNA course aims to validate the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks, including implementation and verification of connections to remote sites in a Wide Area Network.

The CCNA course explores skills related to network fundamentals, LAN switching technologies, IPv4 and IPv6 routing technologies, WAN technologies, network infrastructure services, security and management.

This comprehensive course will encompass Routing – both static and dynamic and incorporates the configuration and implementation of various routing protocols. Also included are LAN Switching, WANs and Security and VLANs.

Simulation-based activities allow students to design, build and configure multiple networks. With a wide variety of equipment and features to choose from, students are encouraged to experiment with different topologies and observe network traffic flow.

For Whom

CCNA Routing and Switching is designed for students with advanced problem-solving and analytical skills or for working professionals who would like to advance their careers or gain certification to validate knowledge of CISCO products.

Entry Requirements

Candidates must have completed the CompTIA A+ or CompTIA Network + qualifications. It would also be suitable to those with relevant IT experience.

Fluency in English is a requirement.

Certificate in Counselling & Psychotherapeutic Skills & Practice (ICHAS)

DUBLIN CORK

VALIDATED BY: ICHAS
DURATION: 10 WEEKS X 1 EVENING
(6.00PM – 10.00PM)
APPLY DIRECT: WWW.GRIFFITH.IE/
APPLY-ONLINE

About the Course

The Certificate in Counselling and Psychotherapeutic Skills and Practice provides participants with an understanding and practical application of counselling and psychotherapeutic skills. It serves as an excellent introduction to the area of counselling, and teaches general counselling skills that will benefit people in both their personal and professional lives. The certificate is part of a BA degree in Counselling Skills and Psychotherapy Studies which is accredited by QQI. This certificate programme is offered in Dublin, Limerick & Cork.

- Practical course that can be used in a variety of areas
- Part of the degree in Counselling and Psychotherapy
- Accrue 10 ECT credits (QQI)

The Certificate covers the following topics;

- Counselling skills and practice
- Working with individuals and groups
- Theoretical approaches to counselling
- Communications in a counselling environment
- Therapeutic interventions

For Whom

This part-time course is designed for those who have little or no professional experience but wish to extend their knowledge of interpersonal and counselling skills prior to undertaking more advanced educational training in counselling at Degree level.

It is especially suitable for healthcare professionals, teachers, social workers, managers, those working in customer services, sports coaches and others who wish to increase their interpersonal skills and apply them within their personal or professional daily lives.

Entry Requirements

Open to all who have an interest in Counselling and Psychotherapy and those who wish to understand how counselling and psychotherapy skills can help when working with people.

This is an Irish College of Humanities & Applied Sciences (ICHAS) course and is offered at Griffith College Dublin.

Progression:

Graduates of the Certificate in Counselling and Psychotherapeutic Skills and Practice course are eligible to apply to progress to any of the Level 7 BA programmes in the field of Counselling Skills & Psychotherapy Studies, Counselling Skills & Addiction Studies or Counselling Skills and Youth Studies with ICHAS.

Certificate in Mindfulness Theories & Practice (ICHAS)

DUBLIN

VALIDATED BY: ICHAS
DURATION: 6 WEEKS X 1 EVENING
(6.00 PM – 10.00 PM)
APPLY DIRECT: WWW.GRIFFITH.IE
APPLYONLINE

About the course

The Certificate in Mindfulness Theories & Practice is delivered by the Irish College of Humanities & Applied Sciences (ICHAS) and has been specifically designed for those who want to understand the conceptual basis for the practice of Mindfulness. It is designed as an Introductory 6 week programme which will give students the skills, knowledge and attitudes necessary to understand and apply the principles of mindfulness either personally or within psychotherapeutic practice.

The Certificate covers the following Topics;

- Explain the concepts of mindfulness
- Discuss the links between mindfulness and problem solving techniques and approaches
- Debate the role and function of contemplative practice within a mindfulness framework
- Describe the range of personal reflective exercises within a mindfulness approach
- Discuss the role of reflective and creative writing within a mindfulness setting

For Whom

The Certificate in Mindfulness Theories & Practice is designed for those who wish to extend their knowledge with Key Facets of Mindfulness; e.g., observing (attending to or noticing internal and external stimuli, such as sensations, emotions, cognitions, sights, sounds, and smells), describing (noting or mentally labelling these stimuli with words). Students will gain practical experience in all Mindfulness Theories & Practice which they can later be applied both personally and professionally. Students will also learn key life skills including understanding the concept of acting with awareness, non-judging of inner experience, non-reactivity to inner experience.

Entry Requirements

Open to all participants who have an interest in studying the field of Mindfulness Theories & Practice and those who wish to understand how Mindfulness Theories & Practice skills can help when working with people.

This is an Irish College of Humanities & Applied Sciences (ICHAS) course and is offered at Griffith College Dublin.

Academic Progression

The Certificate in Mindfulness Theories & Practice is a 5 Credit (ECTS) module from the BA (Hons) in Counselling & Psychotherapy degree programme offered at the Irish College of Humanities & Applied Sciences (ICHAS). Because it comprises a Module from a QQI validated programme, those students who take the Module and successfully undertake the associated Assessment will be eligible to apply for exemptions for the Module if they apply to undertake the B.A (Hons) in Counselling & Psychotherapy Studies degree programme. Further Details on this are available from the relevant Programme Co-ordinator or the College's Admissions team.

BA in Counselling Skills & Psychotherapy Studies (ICHAS)

DUBLIN

VALIDATED BY: QQI
DURATION: LEVEL 7
PART TIME 3 YEARS
FULL TIME 3 YEARS
LEVEL 8 - 1 YEAR ADD-ON
APPLY DIRECT: WWW.GRIFFITH.IE/
APPLY-ONLINE

About the Course

Would you like to work in the area of Counselling and Psychotherapy? The B.A. in Counselling Skills & Psychotherapy Studies is a 3-year programme. The course is highly interactive and it has been designed primarily for those who want to study towards becoming competent professional practitioners in counselling related areas. It is also aimed at those wishing to develop counselling skills that may be useful in their current position for their own personal and professional development. The decision by Government to proceed with statutory regulation of counselling and psychotherapy will also enhance future employment prospects for graduates.

The programme is recognised towards professional accreditation as a Counsellor by the Association of Professional Counsellors and Psychotherapists (APCP) and the National Association of Pastoral Counselling & Psychotherapy (NAPCP). For those undertaking the degree on a part-time basis, elements of some modules are delivered through 'blended learning'. This means that students can engage with some learning through face to face sessions in a traditional classroom and some learning will be facilitated through an online learning community, supported by highly qualified lecturers. Throughout the programme students will be required to engage in simulated and practice learning environments, which is considered essential in this domain of practice. The programme is accredited by QQI with 180 credits.

For Whom

The BA in Counselling Skills and Psychotherapy Studies is open to applicants who meet the entry requirements and who have an interest in pursuing a career as a professional Counsellor or Psychotherapist.

Entry Requirements

Mature Students - If you are 23 years or over from the 1st January of this year.

Leaving Certificate/Under 23 Years of Age: The CAO entry requirements are 5 O6/H7 Grades to include a language (English, Irish or other language) and maths.

Progression

Students who successfully complete the BA in Counselling Skills and Psychotherapy Studies programme may be eligible to progress to the Level 8 suite of programmes in Counselling and Psychotherapy which comprises of a 1 year add-on programme. The BA Hons programme may also be accessed through RPL/APL by professionally accredited practitioners or persons with working in a related field.

This is an Irish College of Humanities & Applied Sciences (ICHAS) course and is offered at Griffith College Dublin.

About the Course

Addiction affects many areas of our society at different levels and its effects on individuals, families and society can be devastating. Career opportunities in this area have grown in Ireland in the last few years. Trained professionals are required as part of the National Strategy to help improve addiction services and support those who are striving towards recovery. The decision by Government to proceed with statutory regulation of counselling and psychotherapy will also enhance future employment prospects for graduates. The B.A in Counselling Skills & Addiction Studies has been developed in line with the requirements for the standardisation of Counselling and Psychotherapy. The programme is validated by Quality and Qualification Ireland (QQI) at level 7 on the National Framework of Qualifications. The programme is recognised towards professional accreditation as a Counsellor by the Association of Professional Counsellors and Psychotherapists (APCP) and Addiction Counsellors Ireland (ACI).

For those undertaking the degree on a part-time basis, elements of some modules are delivered through 'blended learning'. This means that students can engage with some learning through face to face sessions in a traditional classroom and some learning will be facilitated through an online learning community, supported by highly qualified lecturers. Throughout the programme students will be required to engage in simulated and practice learning environments, which is considered essential in this domain of practice. This programme is accredited by QQI with 180 credits.

For Whom

The BA in Counselling Skills and Addiction Studies is open to applicants who meet the entry requirements and who have an interest in pursuing a career as a professional Counsellor or Psychotherapist working in this field.

Entry Requirements

About the Course

Practitioners working with young people are frequently required to be competent in the use of counselling skills. The range of competencies required to work with young people have also expanded with a degree standard of education now a requirement. Having both academic and professional skills at degree level in youth studies together with specialised skills in counselling provides graduates with a distinct employment advantage across a wide range of employment areas. Providing exceptional support, for students the programme is led and delivered by lecturers who have extensive experience and practical knowledge of the skills required to work professionally in the area. This 3 year degree programme is awarded by QQI and will support students to become advanced professional practitioners in a manner that is highly interactive and dynamic. The decision by Government to proceed with statutory regulation of counselling and psychotherapy will also enhance future employment prospects for graduates. The programme is recognised towards professional accreditation as a Counsellor by the Association of Professional Counsellors and Psychotherapists (APCP) and the National Association of Pastoral Counselling & Psychotherapy (NAPCP).

Higher National Certificate in Manufacturing Engineering

LIMERICK

VALIDATED BY: BTEC
DURATION: 1 YEAR
APPLY DIRECT: WWW.GRIFFITH.IE

About the Course

The Higher National Certificate in Manufacturing Engineering provides education and training of manufacturing principals and management to engineers, operators and technicians in the areas of manufacturing systems and processes. It allows for the development of key work-related skills which are transferable to a variety of technical work, such as work in: manufacturing systems design, manufacture, maintenance and technical services and in the areas of the electronic, mechanical and automotive engineering industries. Students of this course will:

- Develop key work-related skills, an appreciation of industry requirements and knowledge and understanding of manufacturing engineering.
- Learn how to improve productivity, efficiency, and profitability, as well as how to provide more choice to customers, reduce response times and improve quality.
- The practical nature of the coursework lends to preparation for work in the field of industrial engineering or to progress their career if currently working in the sector.
- Acquire highly transferable skills attractive to a wide range of sectors outside engineering including banking, transportation, consultancy, distribution services, health and other government areas.
- Option to further your studies with our Level 7 Bachelor of Engineering in Industrial Engineering programme available at both our Dublin and Limerick campuses.

Progression

Option to further your studies with our Level 6 Higher National Diploma in Manufacturing Engineering (BTEC) programme available at our Limerick campus. Graduates of the Higher National Certificate in Manufacturing Engineering will have the ability for progression within their chosen fields of Manufacturing Engineering or across all various other industries, including the manufacturing (traditional and modern), and services sectors. It also allows the development of key work-related skills which are transferable to a variety of types of management and technical work, such as work in: manufacturing systems design, manufacture, maintenance and technical services areas of the electronic, mechanical and the automotive engineering industries to name just a few.

Course Content

SEMESTER 1

- Engineering Management
- Quality and Process Improvement
- Production Engineering for Manufacturing
- Engineering Maths
- Semester two:
- Engineering Design
- Managing a Professional Engineering Project
- Electrical and Electronic Principals
- Engineering Science

Higher National Diploma (HND) in Manufacturing Engineering

LIMERICK

VALIDATED BY: BTEC
DURATION: 2 YEAR
APPLY DIRECT: WWW.GRIFFITH.IE
AWARD LEVEL: 6

About the course

Developed with career progression and recognition by professional bodies in mind, the HND is available to graduates from the Higher National Certificate in Manufacturing Engineering and has been designed to provide technical training in the area of manufacturing engineering.

The course has been designed to provide education and training of manufacturing principals to engineers/technicians in the areas of manufacturing systems design. It delivers knowledge and work-related skills in a broad range of specialist disciplines and is suited to those who would like a career in the manufacturing/biopharma and medical devices industries. Students of this course will:

- Develop key work-related skills, an appreciation of industry requirements and knowledge and understanding of manufacturing engineering.
- Learn how to improve productivity, efficiency, and profitability, as well as how to provide more choice to customers, reduce response times and improve quality.
- The practical nature of the coursework lends to preparation for work in the field of industrial engineering or to progress their career if currently working in the sector.
- Acquire highly transferable skills attractive to a wide range of sectors outside engineering including banking, transportation, consultancy, distribution services, health and other government areas.
- Option to further your studies with our Level 7 Bachelor of Engineering in Industrial Engineering programme available at both our Dublin and Limerick campuses.

Progression

Graduates of the Higher National Diploma in Manufacturing Engineering may be considered eligible to join our Level 7 Bachelor of Engineering in Industrial Engineering programme available at our Limerick campus.

Recent successful graduates of the Higher National Diploma in Manufacturing Engineering are currently employed as test or research and development technicians, technical representatives, engineering plan technicians, junior engineers, production planners or production technicians in these industries. They now provide the employer with skills that contribute to increased efficiencies and productivity

Course Content

Year one

SEMESTER 1

- Engineering Management
- Engineering Maths
- Production Engineering for Manufacture
- Quality and Process Improvement

SEMESTER 2

- Engineering Design
- Engineering Science
- Managing a Professional Engineering Project
- Electrical and Electronic Principals

Year two

SEMESTER 1

- Research Project 1
- Professional Engineering Management
- Manufacturing Systems Engineering
- Lean Manufacturing

SEMESTER 2

- Research Project 2
- Advanced Manufacturing Technologies
- Sustainability
- Manufacturing Systems Engineering

Professional Diploma in Management & Leadership

LIMERICK

VALIDATED BY: BTEC
DURATION: 22 WEEKS
APPLY DIRECT: WWW.GRIFFITH.IE
AWARD LEVEL: 6

About the course

Develop excellent management capabilities within all sectors. This high-end management qualification focuses on practical management skills development, preparing graduates for management or self-employment.

The Griffith College Professional Diploma in Management & Leadership places a strong emphasis on practical management skills and has been developed with career progression and recognition by professional bodies in mind.

Gain an in-depth knowledge and understanding of the principles of management, leadership and corporate social responsibility.

- Develop skills in strategic business and planning and decision making in either management or HRM
- Develop new communication and presentation techniques.
- Become assured in staff management and team development.
- Progress in your career or manage your own business.

Course Highlights

Useful for management and self-employed
Specialise in Management or HRM
Validation/Professional Body Recognition
BTEC exemptions available

Progression

Upon completion of the course, learners can progress onto a range of Certificates, Diplomas or Degrees in Business.

This qualification allows graduates to enter a variety of management level careers where professional management skills are required and valued in a wide range of environments. It also allows graduates to progress within their existing career.

Course Content

Students attend four common units in semester one (3 common mandatory units and one common optional unit).

In semester two students will have the option to choose the HRM or Management stream.

Subject Streams

Management Stream

- Principles of Management & Leadership Common Mandatory Unit
- Strategic Business & Planning Common Mandatory Unit
- Strategic Decision Making Common Mandatory Unit
- Corporate Social Responsibility & Sustainability Common Optional Unit
- Corporate Communications Management Stream Only
- Successful Business Team Development
- Manage Work Activities to Improve Business Performance

Human Resource Stream

- Principles of Management & Leadership Common Mandatory Unit
- Strategic Business & Planning Common Mandatory Unit
- Strategic Decision Making Common Mandatory Unit
- Corporate Social Responsibility & Sustainability Common Optional Unit
- Staff Recruitment & Selection HRM Stream Only
- Human Resource Management
- Managing Personal & Professional Development

Griffith Conference Centre

Situated in the heart of Dublin, Griffith Conference Centre is a prime purpose-built venue situated along the scenic banks of the Grand Canal, only 2 kilometres from St. Stephen's Green.

The centre has been custom designed to provide the finest state-of-the-art facilities and the perfect environment for a successful and productive event. Griffith Conference Centre enjoys the convenience of a self-contained campus, complete with a restaurant, bar and catering facilities.

Our Conference Centre is designed for parties of 10 – 600 people, and is fitted with the latest technology including electronic blinds, electronically retractable seating systems, inbuilt PA systems, electronic overhead projectors and screens, air conditioning, retractable partition walls, in-house audio visual services, state-of-the-art lighting and sound systems, as well as a fully serviced catering operation on site. Our rooms vary in size and function, and this flexibility means that we can customise our facilities to match each client's unique requirements.

Facilities

Griffith Conference Centre can offer you venue hire for any of the following events:

- Concerts
- Exams
- Conferences
- Launches
- Conventions
- Lecture Theatre
- Ceremonies
- Presentations
- Exhibitions
- Press Events
- Filming
- Public Meetings

Catering

Conference Catering facilities are available on-site for your event with a wide variety of menus from finger food to Silver Service dining options. Our Conference Centre Event Planner works closely to ensure each client's unique requirements are met. Menus can be customised to meet each event's unique needs.

Information

Our state-of-the-art facilities have attracted an impressive list of clients including corporate associations, public sector bodies, performing artists and government organisations.

If you would like further information about our Conference Centre please contact the Conference Centre Office on: +353 (1) 416 3357 /4163318 or email: griffithconferencecentre@griffith.ie

A photograph of a building facade with a sign for Griffith College Dublin. The building features light grey stone or concrete panels with a grid pattern and a prominent arched window. A brown sign with white text is mounted on a metal post in the foreground. The scene is set outdoors with greenery and a clear sky.
